Installing Citation Numbers on Mobiles using VPN & SQL databases

 (</help/pdfexport/id/596e33a58e121c0802999bb4>)  

Last Modified on 11/09/2018 11:44 am CST

Agencies who use a VPN connection between TraCS SQL databases and Mobile computers can't install citation numbers on the mobile computers.

The Microsoft link below contains information about the default ports that SQL Server uses. We cannot answer specific information on ports because we don't know how agencies chose to configure SQL server on their network.
