## Conversations Launching Change

Presented by the Federal Highway Administration Local Aid Support

## Strategic Workforce Development Initiatives with Tribal Communities

Thursday, April 25, 2024 | 1:00 - 2:30 p.m. ET

Transportation departments large and small are facing the same workforce challenge- there are not enough people in the transportation construction industry to fill the high demand for workers. To address this challenge, the Federal Highway Administration (FHWA) has launched initiatives to support building tomorrow's highway construction workforce.

In this Innovation Exchange Webinar (IEW) participants will learn about the **FHWA Strategic Workforce Development (SWD)** program with its goal to increase the capacity and capability of the highway construction workforce through partnerships with the transportation industry; non-profit and private industry; academia; and federal, state, tribal, and local governments.

Additionally, the Wisconsin Department of Transportation (WisDOT) will share initiatives taken to develop the Tribal transportation workforce through partnership with the Tribal Labor Advisory Committee (TLAC) including the **Highway Construction Skills Training (HCST) Program** that seeks to create opportunities for groups historically underrepresented in the construction industry.

For questions, contact Morgan Malley or Hans Anker, Program Managers with FHWA's Office of Tribal Transportation (OTT) at [Morgan.Malley@dot.gov](mailto:Morgan.Malley@dot.gov) or [Hans.Anker@dot.gov](mailto:Hans.Anker@dot.gov).

No registration required.
