Statewide  
Transportation  
Improvement  
Program

Prepared in accordance with 23 USC 134 and 135

January 2014

## Introduction

This Statewide Transportation Improvement Program (STIP) is intended to satisfy the requirements of 23 USC 134 and 135 and their implementing regulations 23 CFR 450 and 49 CFR 613.

This STIP has been prepared in accordance with joint FHWA/FTA regulations (23 CFR Part 450 and 49 CFR Part 613) accounting for related statutory changes in Public Law 112-141 Moving Ahead for Progress in the 21<sup>st</sup> Century Act (MAP-21). All current project fund commitments anticipated by the Wisconsin Department of Transportation (WisDOT) during the four-year period from January 1, 2014 through December 31, 2017 are listed.

The projects programmed in the STIP have been reviewed and prioritized by WisDOT in accordance with system asset management principles except as follows. In urbanized areas with populations of 200,000 or greater (Milwaukee, Madison, Appleton, Green Bay and Wisconsin portions of the Round Lake Beach, IL and Minneapolis/St. Paul, MN areas), federally funded projects off of the National Highway System have been reviewed and prioritized by the respective Metropolitan Planning Organizations. In urbanized areas with populations between 50,000 and 200,000, federally funded projects off of the NHS and State Trunk Highway Network have been reviewed and prioritized by the respective MPOs. Projects in areas with populations between 5,000 and 50,000 off of the NHS and STN have been reviewed, prioritized, and approved under WisDOT's formula based entitlement process.

The 2014-2017 STIP is based on anticipated state and federal funds. This overall multi-modal STIP reflects WisDOT's currently approved state and local programs within the limits of apportioned federal aid. All projects in the 2014-2017 timeframe are affordable and selected for implementation. Any subsequent changes in the project listing involving addition or deletion of projects or significant changes in project schedule or estimated cost will be processed in accordance with the STIP amendment process outlined herein prior to requesting obligation of federal funds on the project.

## **Financial Plan**

The Statewide Transportation Improvement Program (STIP) financial plan addresses fiscal constraint requirements of the current federal-aid surface transportation act.

In managing implementation of the transportation improvement program, WisDOT will exercise the authority to refinance projects among federal, state, and local funds, and to reschedule projects within the four years of the STIP to maintain fiscal constraint. All four years of the STIP are fiscally constrained within Wisconsin's state fiscal years (July 1-June 30).

### **Revenue Assumptions**

The Wisconsin Department of Transportation annual budget is set biennially through the State of Wisconsin's budget process. State fiscal year 2014 is from 2013 Wisconsin Act 20, the State of Wisconsin's 2013-2015 Biennial Budget authorizing federal, state, and local funding for this year. Since Wisconsin's budget is approved for only two years at a time, this analysis assumes the budget approved for State Fiscal Year (SFY) 2014 will be held constant for SFY15-SFY17.

The federal fund revenue approved in 2013 Wisconsin Act 20 and included in this plan is \$726 million for SFY14. Since SFY15-SFY17 budget amounts are held constant, future budgets are not increased; however, for planning purposes, the program schedule is set by applying an inflation rate to projects in the second, third, and fourth years to account for costs in year of expenditure.

WisDOT does not assume that a future state legislature will commit higher project revenues than exists in the approved biennial budget. Therefore, when doing an all funds (federal, state, and local) analysis, WisDOT uses only resources approved in the most recent biennial budget except where noted.

Wisconsin law allows the Department to allot additional local revenue authority on an as-needed basis depending on the summation of local municipal agreement revenue received within the fiscal year. Similarly, it is the Department's policy to allot additional federal authority to programs in which federal funds are programmed.

### **Local Programs**

The programs directed at the locally owned system face unique challenges due to the wide range of owners. The department is working closely with local partners to formalize change management and programming strategies to reduce the movement of projects between fiscal years. In the past few years, the department has implemented project 'sunsets' as a management strategy to reduce project movement in programs like Transportation Alternatives (290).

Wisconsin has the flexibility to allocate funds between programs and years to balance under and over-programming. We routinely do this formally during the current fiscal year. However, because of local project movement, there may be periods of time where one year or program is over programmed, and another year or program is under programmed. We may also briefly experience a greater dollar amount in the schedule due to estimate changes and project slippage.

We are currently over-programmed in the Transportation Alternatives Program (290). The Department tries to avoid moving projects out because lining up the necessary local match can be a

challenge. We have very clear program guidance regarding available funding. To remain fiscally constrained projects are rescheduled or funds are transferred between programs.

**Program Cost and Schedule Assumptions**

WisDOT’s Financial Integrated Improvement Programming System (FIIPS) reflects estimates of transportation improvement project costs in current 2014 year dollars.

To change these values to federally mandated year of expenditure amounts for this publication, FY15-FY17 project cost estimates in the Financial Plan table have been manually inflated by 2.5%. This inflationary rate is based on the current 10 year average change in the Consumer Price Index and matches the rate assumed by Wisconsin MPOs in their TIPs and long-range plans. Project estimates in FY14 reflect current cost expectations, so they have not been inflated in the table.

The Federal Highway Administration requires state Departments of Transportation STIPs and Metropolitan Planning Organizations TIPs to document revenues and expenditures annually. In Wisconsin, these publications report estimates by calendar year, (January 1 – December 31), based on letting or delivery dates. Because the State of Wisconsin approves budgets by state fiscal year, (July 1– June 30), the 2014-2017 STIP Financial Summary table shows revenue and programmed amounts according to state fiscal year.

**Operation and Maintenance**

Wisconsin’s 2013-2015 Biennial Budget authorizes WisDOT’s Highway Maintenance, Repair and Traffic Operations Program 305 to spend \$210 million per year. Of that amount, \$3,000,000 to \$6,000,000 is set aside for related improvements, with the balance dedicated to operation and maintenance of the state system. Some maintenance projects are let through the improvement program and may be eligible for federal funding. Those projects are reflected in the 2014-2017 Financial Summary.

Wisconsin allocates state funding under several programs to assist local governments with the operation, maintenance and improvement of highways and bridges on the local system.

## **Obligation Plan**

In any given federal fiscal year (October 1-September 30), the Wisconsin Department of Transportation obligates all the federal fund authority it receives.

### **Federal Fund Type Constraint**

In July 2012, the newly authorized federal transportation bill, Moving Ahead for Progress in the 21st Century (**MAP-21**), replaced SAFETEA-LU and the SAFETEA-LU EXT federal transportation bills which expired on September 30, 2012. MAP-21 has consolidated several program categories into fewer program funding categories. Most notably, Map-21 eliminates Interstate Maintenance (IM) funding and splits the Bridge program between the new National Highway Performance Program (NHPP) and the Surface Transportation Program (STP). The Transportation Alternatives Program (TAP) replaces Transportation Enhancements (TE) program funding under SAFETEA-LU, with a percentage of funding distribution based on population. When utilizing previous year carryover balances for retired funding programs, (SAFETEA-LU) program restrictions apply.

WisDOT's approach to programming incorporates federal flexibilities permitting transfer of funds between federal programs and Advance Construction under which eligibility for federal funding is established to allow a project to proceed prior to obligation of federal funding. Under these provisions, specific federal fund types may be over programmed as long as the overall federal program in total is constrained across the four year period.

WisDOT also reserves federal funding associated with special obligation limitation to offset over programming and to cap the amount of funding under advance construction. WisDOT's fiscally conservative standards do not allow the Department to use Advance Construction (AC) to exceed the level of apportionments received from FHWA. In other words, AC is used as a tool to manage the timing of obligation but not to increase the number of projects undertaken. When a project is funded with federal AC funds, WisDOT covers the federal cost share with general transportation state funds until the funds can be obligated using available apportionments and obligation limitation. This ensures Wisconsin's commitments are fiscally constrained within a guaranteed federal reimbursement level.

### **Federal Fund Type Assessment**

The Wisconsin Estimated FFY2014-2017 Federal Aid Highway Apportionments and Program Levels table lists federal apportionment balances at the end of FFY13 as well as the amount apportioned for FFY14 and estimated apportioned amounts for FFY2015-FFY2017.

Over the past six years, WisDOT's total federal apportionments (including Equity Bonus) rose from \$684 million in FFY07 to \$726 million in FFY13. The average annual increase for this period is 1.0% per year. The total federal funds available for obligation each state fiscal year is inflated beginning in FFY15 at 1.0% per year based on the six year average. To change the state fiscal year estimated program levels to federally mandated year of expenditure amounts, cost estimates haven inflated 2.5% per year beginning in SFY15, similar to the Financial Plan table.

As a further check, the STIP is fiscally constrained over the four year period. This ensures that revenues exist to convert all projects advanced under advance construction within the period of the STIP.

## **Federal Transit Assistance Programs**

The following are federal transit assistance programs authorized under Moving Ahead for Progress in the 21<sup>st</sup> Century (MAP-21), which reauthorized the federal surface transportation programs. MAP-21 amends the federal transit laws and took effect October 1, 2012.

### **Section 5303: Metropolitan Transportation Planning Program**

Section 5303 is a formula-based grant program apportioned annually to states for use. All 5303 planning funds are transferred to the Federal Highway Administration. Federal share is 80% with a required 20% non-federal match.

### **Section 5304: Statewide Transportation Planning Program**

Section 5304 is a formula-based grant program apportioned annually to the states for use in rural planning and research. Federal share is 80% with a required 20% non-federal match.

### **Section 5307: Urbanized Area Formula Program**

This program provides grants to urbanized areas (over 50,000 in population) for public transportation capital, planning, and job access and reverse commute projects, as well as operating expenses in certain circumstances. The federal share for capital projects is 80% with a required 20% local match. The federal share for operating projects is 50% of the net deficit. WisDOT allocates the portion of this funding known as the 'Governor's Apportionment' among transit systems in communities with populations between 50,000 and 200,000 as defined by the most recent Census.

### **Section 5310: Enhanced Mobility of Seniors and Individuals with Disabilities**

This program is intended to enhance mobility of seniors and persons with disabilities by providing funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services. This program consolidates two SAFETEA-LU programs: Section 5317 – New Freedom and Section 5310 – Elderly and Disabled Capital Assistance. The federal share for capital projects is 80% with a required 20% local match. The federal share for operating projects is 50% of the net deficit.

### **Section 5311: Formula Grants for Rural Areas**

Section 5311 is a formula grant program for non-urbanized areas (under 50,000 in population) that provides capital and operating assistance for public transportation systems. Eligible activities include capital, operating assistance, and planning expenses. Job access and reverse commute projects are now eligible projects as well. The federal share for capital projects is 80% with a required 20% local match. The federal share for operating projects is 50% of the net deficit.

### **Section 5311(b)(3): Rural Transportation Assistance Program (RTAP)**

Section 5311(b)(3) is formula funding for states to provide research, technical assistance, and training to improve the delivery of transit services in non-urbanized areas (under 50,000 in population).

**Section 5339: Bus and Bus Facilities Formula Grants**

Section 5339 provides capital funding to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities. It replaces the Section 5309 Bus and Bus Facilities program under SAFETEA-LU. The federal share is 80% with a required 20% local match.

In 2014, WisDOT will be also be programming unspent federal funding related to programs that were authorized under the Safe, Accountable, Flexible, and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU).

**Section 5310: Elderly Individuals and Individuals with Disabilities Program**

Section 5310 is a formula grant program in SAFETEA-LU for the purpose of assisting in meeting the transportation needs of elderly individuals and individuals with disabilities in urbanized and non-urbanized areas. Eligible activities are capital (i.e., wheelchair-accessible buses and vans) and state administrative expenses. This program was combined with Section 5317 under MAP-21. WisDOT is programming unspent balances authorized under SAFETEA-LU from prior years.

**Section 5314: Supplemental Transportation Rural Assistance Program (STRAP)**

STRAP is a one-time pilot program created under SAFETEA-LU. The program was designed to supplement and expand existing rural transit systems in Wisconsin by allowing operating expenses of rural transit systems to be reimbursed at a higher rate of federal match than under the Section 5311 program. Eligible activities include planning, capital, and operating assistance. STRAP was discontinued under MAP-21. WisDOT is programming unspent balances authorized under SAFETEA-LU from prior years.

**Section 5316: Jobs Access and Reverse Commute Program (JARC)**

Section 5316 is a formula-based program created under SAFETEA-LU for improving access to transportation services to employment and employment related activities for welfare recipients and eligible low income individuals and to transport residents of urbanized areas and non-urbanized areas to suburban employment opportunities. Eligible activities include capital, operating assistance, and administrative expenses. Under MAP-21, JARC is no longer a stand-alone program. WisDOT is programming unspent balances authorized under SAFETEA-LU from prior years.

**Section 5317: New Freedom Program**

Section 5317 is a formula-based program created under SAFETEA-LU that provides funding for new public transportation services and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990. Eligible activities include capital, operating assistance, and administrative expenses. This program was combined with Section 5310 under MAP-21. WisDOT is programming unspent balances authorized under SAFETEA-LU from prior years.

## **Intercity Passenger Rail Projects**

Several potential Federal Railroad Administration Program funded projects may be identified in studies that are currently underway. Some would require funding beginning in SFY 2014. At the time of publication of the Draft STIP, good estimates of the timing and funding amounts required were not available.

Studies with estimated timing are:

- Adding one to three additional frequencies between Milwaukee and Chicago on the Hiawatha Service in cooperation with the State of Illinois. The project would involve final design (SFY 2014) and construction (SFY2015).
  
- Adding one new state-supported frequency between Chicago and the Twin Cities. The project would involve Environmental and PE (SFY 2014), Final Design (SFY2015/16) and construction (SFY 2016/17/18).
  
- Study rerouting of CP freight service on to UP Milwaukee Subdivision (SFY 2015).

Longer term, WisDOT would also consider the following:

- Conduct environmental and PE for service to Green Bay (SFY2017/2018/2019).

# Roadway & Bridge Improvement Programs

The pages that follow list all of WisDOT's projects planned for implementation in Calendar Years 2014, 2015, 2016 and 2017. Projects are sorted in the following order:

CALENDAR YEAR

DIVISION-BUREAU (REGION)

COUNTY NAME

HIGHWAY NUMBER

SCHEDULE DATE

PROJECT ID

It should be noted that the list contains some minimal over-programming (i.e., more projects than can actually be funded in a given year) to allow for attrition, that is, projects being delayed or dropped for other than financial reasons. Preliminary engineering projects will not be contained in the following list although they are likely to be listed in the appropriate MPO TIP.

It should also be noted that the FEDERAL FUND TYPE (or lack of) shown for each project represents a *tentative* fund assignment that may or may not become reality. WisDOT reserves the right to change the federal fund type on individual projects at any time prior to obligation, when necessary, consistent with its overall obligation plan to maximize the use of available federal aid.

Note: The estimated cost range is provided so that WisDOT can award projects by using the competitive process and not disclose bidding information.

## Transition in Programming from SAFETEA-LU to MAP-21 Funding Programs

Federal-aid highway and transit funding programs changed effective October 1, 2012 as a result of the 2012 transportation reauthorization act *Moving Ahead for Progress in the 21st Century Act* (MAP-21). The STIP reflects project programming based on the previous SAFETEA-LU funding programs. SAFETEA-LU program eligibility was retained within the condensed structure of the MAP-21 funding programs. The following table indicates how SAFETEA-LU funding programmed in the TIP relates to MAP-21 revenue programs while the transition in programming is underway.

## Local Programs

All these programs, except for the Local Bridge Program, utilize federal and local funds to pay for local projects. In addition to federal and local funds, the Local Bridge Program may also utilize state funds to pay for local projects.

**Local Bridge Program:** Funds the improvement of local bridges. This includes engineering, real estate and construction costs for administering and implementing bridge improvements on roads not a part of the State Trunk Highway (STH) System.

**Local Highway Improvement Assistance:** Funds the improvement of local highways, including engineering, real estate, construction costs, and department services on roads not a part of the STH System.

***STP Urban Program:*** Improvements in urban areas with populations greater than 5,000. Also non-highway projects including multi-modal facilities, transit capital improvements, bicycle and pedestrian facilities.

***STP Rural Program:*** Improvements to roads and streets functionally classified as higher than rural minor collectors. Also non-highway projects including multi-modal facilities, transit capital improvements, bicycle and pedestrian facilities, and enhancements.

***STP Freight Program:*** A new two-year pilot initiative for FYs 2014-2015. Under the STP-Freight initiative, federal funds will be allocated to projects that improve freight connections. These projects will not count against a local sponsor's STP-Urban, STP-Rural, or Local Bridge program entitlement balance.

**Congestion Mitigation Air Quality (CMAQ):** Funds projects that have a positive impact on air quality including highway efficiency improvements, car pooling, transit improvements, development of bicycle and pedestrian facilities and alternative fuel facility and vehicle projects.

**The Transportation Alternatives Program (TAP):** Funds transportation improvement projects that "expand travel choice, strengthen the local economy, improve the quality of life, and protect the environment." TAP is a new legislative program that was authorized in 2012 by federal transportation legislation, the Moving Ahead for Progress in the 21st Century Act (MAP-21). With certain exceptions, projects that met eligibility criteria for the previously separate Safe Routes to School Program, Transportation Enhancements, and/or the Bicycle & Pedestrian Facilities Program will be eligible TAP projects.

## State Programs

All these programs utilize federal, state and/or local funds to pay for projects located on the State Trunk Highway (STH) system.

**Major Highway Development:** Major Highway Development projects are generally the most complex, costly and controversial projects initiated by WisDOT. They are long-term solutions to the most serious deficiencies on highly traveled segments of our highway system. A Major Project is one that has a total cost of more than \$5 million and involves one of the following:

- 1) *Constructing a new highway* 2.5 miles or more in length;
- 2) *Reconstructing or reconditioning* an existing highway by one of the following:
  - a) *Relocating* 2.5 miles or more of existing highway;
  - b) *Adding one or more lanes* 5 miles or more in length to the existing highway;
  - c) *Improving to freeway standards* 10 miles or more of existing divided highway having two or more lanes in either direction.

**Improvement of State Bridges:** The state bridges subprogram funds improvements to bridges on the non-Interstate portion of the STH System, including bridge replacements and major bridge repairs. It does not include bridges that can be effectively treated through routine repair--they are done through the maintenance program. State bridge improvements are of two types:

- 1) *Replacement:* Constructing a new bridge to replace exiting, deteriorated ones;
- 2) *Rehabilitation:* Restoring the structural integrity of an existing bridge using less extreme measures than replacement, but more than routine maintenance.

State bridges are also categorized by cost:

- 1) *High-cost bridges* are those whose deck areas are 40,000 square feet or more;
- 2) *Routine bridges* are those whose deck areas are less than 40,000 square feet.

**Highway Traffic Operations:** This subprogram includes all the repair and operation of pavement markings, traffic signs, traffic operation improvements and freeway detours.

**Backbone Rehabilitation:** The Backbone Rehabilitation subprogram deals with improvements to Wisconsin's 1,450-mile Corridors 2030 Backbone system that includes all 743 miles of interstate routes. It includes rest areas and information center improvements, bridge widening, bridge deck replacements, various types of pavement rehabilitation and increased access to the system itself.

**Existing Highway Improvements:** The Existing Highway Improvements program funds improvements to the non-Interstate portion of the STH System. The program funds "3R" improvements (resurfacing, reconditioning and reconstructing existing roadways), the minor addition of lanes, traffic and safety improvements, and minor realignments of roadway. Improvements in this subprogram are categorized by the type of work involved:

*Resurfacing:* Rehabilitating the surface of a pavement to provide a smoother ride and to extend the pavement's structural life. Can also include pavement widening

and/or shoulder paving to improve safety and reduce shoulder maintenance costs.

*Reconditioning:* Resurfacing and, in addition, improving an isolated grade, curve or intersection.

*Pavement Replacement:* The highest type of “resurfacing” whereby the existing pavement structure is replaced with a new one. Does not include widening of the roadway.

*Reconstruction:* Total rebuilding of the highway to provide a safer facility, to improve geometrics (i.e. longer passing and stopping sight distances, broader turning radii, additional lanes at intersections) and increased traffic handling capabilities. Other benefits are a smoother ride, reduced travel time and lower maintenance costs.

**Maintenance Program:** This program funds the refurbishment, repair, cleaning, painting, re-lamping, etc., of existing traffic control devices. Although state crews do most of the routine maintenance on traffic control devices (TCDs), the nature of some of the work and/or the sheer volume of it requires outside help. The biggest items are sign refurbishment of the large freeway guide signs, cleaning and re-lamping of the highway lighting units and traffic control signals on the system.

## **Safety Programs**

All these programs utilize federal funds and the match is either state, local or railroad funds, depending upon the jurisdiction of the highway and type of railroad project. These funds pay for activities that promote safety. The Highway Safety Improvement Program is incorporated into the safety related projects listed by Region in the STIP.

**Highway Safety Improvement Program (HSIP):** Funds street and highway improvements to high accident locations on state, county and local highways, including the Interstate System. Generally speaking, low cost improvements that maximize safety benefits are sought.

**Railroad Crossing Warning Devices:** Funds signal warning device installations, circuitry improvements, flashing lights, cantilevered flashing lights and gates.

**Railroad Crossing Elimination of Hazards:** Funds geometric improvements (grades), modular crossings, separations (limited because of high costs), consolidations and closures.

## Public Involvement

Current federal legislation requires the Governor to ensure that WisDOT and the MPOs develop plans to actively involve the public in the development of the STIP. WisDOT uses an ongoing STIP public involvement plan that includes:

- 30-day written comment period on the STIP (yearly)
- State Trunk Highway System project development and Six-Year Highway Program hearings (ongoing)
- MPO public hearings on TIPs (yearly)
- Local government hearings on transit projects for smaller systems (ongoing)
- Local government hearings on local road projects (ongoing)

The focus of this plan is on maximizing public involvement at the state, MPO, and local levels—on an ongoing basis—when initial project decisions are presented and made. WisDOT published its first STIP Public Involvement Plan in November of 1993. It summarized the STIP as well as the role of public involvement in the STIP. The STIP Public Involvement Plan, which was updated in December of 2007, focuses on the public involvement processes used on various types of transportation projects.

Although this STIP Public Involvement Plan does not require any public hearings, WisDOT may agree to have a public hearing if one is requested. As a result of the lack of public interest/attendance at these hearings in the past, the STIP Public Involvement Plan will continue to rely on written comments from the public regarding the draft STIP.

The legal notice advertising the draft STIP was published on November 02, 2013. A copy of the notice is presented below.

### LEGAL NOTICE

The Wisconsin Department of Transportation announces the availability of its draft 2014 multimodal Statewide Transportation Improvement Program (STIP). The draft STIP is available from the State Transportation Improvement Program website: [www.dot.wisconsin.gov/localgov/highways/stip.htm](http://www.dot.wisconsin.gov/localgov/highways/stip.htm). The comprehensive improvement program includes all federally funded highway, transit, and bike and pedestrian projects to be undertaken in Wisconsin during the 2014-2017 timeframe. The draft STIP is subject to a 30-day public comment period. The final STIP will be issued in early January 2014. Inquiries about the draft STIP and written comments on the improvement program should be directed, before December 6, 2013, to the Wisconsin Department of Transportation's Division of Transportation Investment Management, Bureau of Planning and Economic Development, P.O. Box 7913, Madison, WI 53707-7913; 608-266-3662.

# Summary of Public Comments on the Draft STIP

One comment was received within the public comment period.

The Columbia County Highway Commissioner submitted a comment that the mileage for one of the Columbia County projects (5843-00-70) was 2.5 miles not 2.1 miles as shown within the Draft STIP. WisDOT Planning staff worked with Region staff and mileage for the project was revised to 2.5 miles.

## **STIP Amendments**

The STIP is approved by WisDOT, FHWA, and FTA. From time-to-time throughout the year, it may be necessary to amend the 2014 - 2017 STIP to incorporate projects not included in the original project listing. The following are changes that may necessitate a STIP amendment: significant change in the scope and/or cost of a project, changing the letting date of a project beyond the four year STIP period, adding/advancing a project to the STIP, etc.

All such amendments will be added to the STIP Web page for record keeping purposes
