AERONAUTICAL SYMBOLS

Airports having Control Towers are shown in Blue, all others in Magenta. Consult Chart Supplement for details involving airport lighting, navigation aids, and services.

AIRPORT INFORMATION

- Airports with hard-surfaced runways
- Airports with no hard-surfaced runways
- Military airports with no hard-surfaced runways
- Seaplane Base
- Airports with fuel available
- *RP Special traffic patterns exist – see supplement

HIGHWAY MARKERS

- Interstate Route Marker
- U.S. Route Marker
- State Route Marker

MISCELLANEOUS

- Obstruction above 500 ft & below 1000 ft AGL
- Obstruction 1000 ft and higher AGL
- Obstruction with high-intensity lights
- Wind Turbine Farm – Under construction or reported position and elevation unverified
- Indicates airport has rotating beacon
- Known Parachute Jumping Area
- Glider Operations
- Ultralight Activity
- Hang Glider Activity
- Stadium

RADIO FACILITIES

All VHF radio facility data are printed in blue; LF/MF radio facility data are printed in magenta.

- Non-directional radio beacon
- VOR · VORTAC · VOR-DME

CONTROLLED AIRSPACE

- Class B Airspace
- Class C Airspace
- Class D Airspace
- Class E Airspace
- Terminal Radar Service Area (TRSA)
- Boundary of State and National Park areas, U.S. Fish and Wildlife Service areas and U.S. Forest Service Wilderness and Primitive areas.
- Restricted Area
- Military Operation Area

WisDOT–BUREAU OF AERONAUTICS WEBSITES

- Airport directory wisconsindot.gov/arptdir

WEATHER

All pilots know that weather is one of the greatest and most difficult safety risks to assess. It is important to stay proficient with weather knowledge, resources and assessment skills. Be sure to check NOTAMS often for runway/airport condition reports and closure information.

The WisDOT offers a one-of-a-kind specialized weather briefing and flight planning tool developed by DTN. To sign up for this free service visit:

wisconsindot.gov/weather

RUNWAY CONDITION ASSESSMENT MATRIX (RCAM)

RUNWAY CONDITION DESCRIPTION	FICON CODE	BRAKING ACTION
• Dry	6	
• Frost • Wet (includes damp and less than 1/8 inch depth or less of water)	5	Good
Less than 1/8 inch (3mm) depth of: • Slush • Dry snow • Wet snow	5	Good
5°F (–15°C) and colder outside air temperature: • Compacted snow	4	Good to Medium
• Slippery when wet (wet runway) • Dry snow or wet snow (any depth) over compacted snow	3	Medium
Greater than 1/8 inch (3mm) depth of: • Dry snow • Wet snow	3	Medium
Warmer than 5°F (–15°C) outside air temperature: • Compacted snow	3	Medium
Greater than 1/8 inch (3mm) depth of: • Water • Slush	2	Medium to Poor
• Ice	1	Poor
• Wet ice • Slush over ice • Water over compacted snow • Dry snow or wet snow over ice	0	Nil

For additional information see FAA Advisory Circular 91-79A

SAFETY
is our top priority

Although flying is still one of the safest modes of transportation, we can all work together and find ways to prevent accidents. The leading cause of recent incidents and accidents has been loss of control during landing and takeoff. Wisconsin pilots have worked very hard to successfully improve our safety record, and many of them are actively participating in the FAA WINGS program by attending FAA Safety Seminars across our state.

- **10,679** Registered FAASafety.gov users
- **4,235** Seminar credits received
- **153** FAA seminars held (2019)
- **1,222** WINGS phases completed

SAFER PILOTS

Safety training opportunities

We all have a role in reducing accidents, incidents and fatalities.

The WisDOT Bureau of Aeronautics partners with the Federal Aviation Administration and others to provide safety seminars for all pilots and aviation maintenance technicians. Visit FAASafety.gov often for an up-to-date listing of future events like these:

- Pilot and mechanic seminars
- Tail-wheel seminar with WINGS flight activities
- Instrument Flight Rules/Visual Flight Rules (IFR/VFR) seminars
- Mechanic's and IA renewal seminar
- Flight instructor refresher course and workshops
- Many more seminars, courses and webinars

REPORT WILDLIFE STRIKES
wildlife.faa.gov

RUNWAY INCURSIONS

Runway incursions continue to be a complex and prevalent issue. Many factors lead up to a runway incursion, excursion or incident. Pilots can help lower the number of occurances by staying focused while the aircraft is moving, being familiar with the airport and current airport diagram, and checking NOTAMs often for construction, weather and other non-typical situations. Pilots must plan properly for all phases of flight and that includes understanding the airport environment. It is also equally important to fully understand and follow ATC clearances and instructions and know all airport signs and markings.

"Line Up and Wait" has replaced the "Position and Hold" instruction for taxiing onto a runway to await takeoff clearance.

STOP If you are **unsure** of *clearance instructions, where you are* or *what to do*, STOP and ask ATC for help!

ATCT Light Gun Signals

COLOR AND TYPE OF SIGNAL	AIRCRAFT ON THE GROUND	AIRCRAFT IN FLIGHT
STEADY GREEN	Cleared for takeoff	Cleared to land
FLASHING GREEN	Cleared for taxi	Return for landing
STEADY RED	STOP	Give way and continue circling
FLASHING RED	Taxi clear of the runway in use	Airport unsafe, do not land
FLASHING WHITE	Return to starting point on airport	
ALTERNATING RED/GREEN	EXERCISE EXTREME CAUTION	

PILOT'S GUIDE TO AIRPORT SIGNS AND MARKINGS

Airport Signs

TYPE OF MARKING	ACTION OR PURPOSE
B 4-22	TAXIWAY/RUNWAY HOLDING POSITION: Hold short of intersecting runway
25-7	RUNWAY/RUNWAY HOLDING POSITION: Hold short of intersecting runway
8-APCH	RUNWAY APPROACH HOLDING POSITION: Hold short of protected area when instructed by ATC
ILS	ILS CRITICAL AREA HOLDING POSITION: Hold short of ILS critical area when instructed by ATC
⃝	NO ENTRY: Identifies paved areas where AIRCRAFT entry is prohibited
B	TAXIWAY LOCATION: Identifies taxiway on which vehicle/aircraft is located
22	RUNWAY LOCATION: Identifies runway on which vehicle/aircraft is located
4	RUNWAY DISTANCE REMAINING: Indicates runway distance remaining in increments of 1,000 feet

TYPE OF MARKING	ACTION OR PURPOSE
	RUNWAY BOUNDARY: Exit boundary of runway or approach protected areas
	ILS CRITICAL AREA BOUNDARY: When exiting runway, sign shows boundary of ILS Critical Area
→J	RUNWAY EXIT: Define direction and designation of exit taxiway from runway
←J	TAXIWAY DIRECTION: Defines direction and designation of intersecting taxiway(s)
22↑	OUTBOUND DESTINATION: Defines direction to take-off runway(s)
←TERM	INBOUND DESTINATION: Defines directions for arriving aircraft
22	RUNWAY ENDING MARKER: Defines runway on which taxiway does not continue
←AGL→	DIRECTION SIGN ARRAY: Identifies location in conjunction with multiple intersecting taxiways

ELEVATED GUARD LIGHTS HOLD SHORT

IN-PAVEMENT GUARD LIGHTS HOLD SHORT

www.faa.gov/airports/runway_safety

Airport Markings

TYPE OF MARKING	ACTION OR PURPOSE	TYPE OF MARKING
		NON-USABLE
	HOLDING POSITION: Hold short of intersecting runway, also a land-and-hold-short marking	
	HOLDING POSITION WITH ENHANCED TAXIWAY CENTERLINE: Alerts of an approaching taxiway	
		ACTION OR PURPOSE
	ILS CRITICAL AREA: Hold short when instructed by ATC	SOLID TAXIWAY EDGE: Defines edge of usable, full-strength taxiway pavement; adjoining pavement NOT USABLE
	TAXIWAY/TAXIWAY HOLDING POSITION: Defines edge of intersecting taxiway when directed by ATC	
	(NON) MOVEMENT AREA BOUNDARY: Defines boundary of movement area and non-movement area	AVAILABLE
1-19	SURFACE PAINTED HOLDING POSITION: Designates runway ahead in conjunction with yellow holding position marking	
	SURFACE PAINTED TAXIWAY DIRECTION: Direction and designation of intersecting taxiway	ACTION OR PURPOSE
	SURFACE PAINTED TAXIWAY LOCATION: Identifies taxiway on which aircraft is located	DASHED TAXIWAY EDGE: Defines edge of taxiway where adjoining pavement or apron IS AVAILABLE for taxi

Greetings Wisconsin aviation community! As always, the focus of our partners at commercial and general aviation airports is ensuring that people and cargo are transported as safely as possible.

Safety is a primary theme at our airports. I am proud that the state's 2019–2021 budget funded the preparation phase of Wisconsin's Next Generation Air Transportation System (NextGen) initiative. Wisconsin Department of Transportation Bureau of Aeronautics staff is inspecting airports to identify obstructed runway approaches. These approaches will be cleared to be compatible with NextGen's requirements. The new technologies and airspace procedures that NextGen brings will improve safety and efficiency for all air travelers.

Speaking of next generation, I have a challenge for you and your love for aviation. We need you to spark that passion in a young person. The industry needs more young people to consider a career in aviation. There is a wide range of needs and opportunities: from pilots to mechanics, ground crews to customer service, safety to security. As a lifetime educator, I know the positive impact a mentor can make. Consider giving someone their first flight, first aeronautical experience, and open up the world of aviation to them.

Aviation contributes to the economic health of this state. It generates billions of dollars in economic activity and supports tens of thousands of jobs each year. As time and circumstances allow, I encourage you to take full advantage of the services offered at our airports and the attractions in nearby communities.

From your seat in the cockpit, you have one of the best views of our beautiful state. Fly safe and be well.

Governor Tony Evers
State of Wisconsin

Pilots, aviation industry stakeholders and enthusiasts, we present to you the newly designed Wisconsin Aeronautical Chart.

The Wisconsin Department of Transportation Bureau of Aeronautics (BOA) gave careful consideration to every section of the chart. Their goal is to support safe and enjoyable flights to our state's 123 public use airports.

Safety is a shared responsibility. The BOA works with airport owners, consultant engineers, the Federal Aviation Administration (FAA) and the construction industry to continually improve airport facilities. More than $88 million is invested annually in design, planning, real estate, equipment, and projects at commercial and general aviation airports across the state. Projects include pavement reconstruction and rehabilitation, facility construction, lighting, navigational aid improvements, and snow removal equipment purchases. Investments in our airport infrastructure are critical to Wisconsin's safe aeronautical environment.

Your skills, knowledge and adherence to safety protocols are critical to safe flight. Make a commitment to attend a safety seminar. Schedule a refresh session with a flight instructor. Don't take shortcuts. Don't skip steps, use a checklist. Monitor the weather. We want you to enjoy all that flight in our great state has to offer, and you can only do that if safety is a priority.

The *Fly Wisconsin Airport Passport Program* is an excellent opportunity to practice safety, while enjoying flight. Thanks to our partnership with the Wisconsin Airport Manager's Association, pilots are rewarded for their visits to participating airports. I encourage you to review many features and amenities listed in the airport table on this chart to make the most of your visit.

On behalf of the Department of Transportation and the Bureau of Aeronautics, I thank you for choosing to take flight in the great State of Wisconsin and wish you safe travels.

Secretary-designee Craig Thompson
Wisconsin Department of Transportation

WISCONSIN Aeronautical Chart 2020–2021

FLY WISCONSIN — AIRPORT PASSPORT PROGRAM

Airport Passport Program
The Wisconsin Department of Transportation and the Wisconsin Airport Management Association have teamed up to launch the Fly Wisconsin Airport Passport Program. The program promotes safety and education by awarding pilots and passengers for visiting Wisconsin airports and aviation attractions, as well as attending FAA safety seminars.

How to participate
Register for the Fly Wisconsin Airport Passport Program by visiting our website wisconsindot.gov/flywi or mail in a registration card from a participating airport. Once you receive your passport booklet, start collecting airport stamps! Program rules and a list of stamp locations can also be found on our website.

Who is eligible?
Pilots and passengers from any state may participate in the program.

Share your love of aviation
Participants are invited to join the Fly Wisconsin Facebook group to connect with other participants and share their adventures. Join the group by visiting facebook.com/groups/flywi.

Questions
Call us at (608)266-3351 or email us at FlyWI@dot.wi.gov.

Recognition awards
Participants have the opportunity to earn three levels of awards.

PARTICIPATION LEVELS AND AWARDS		AIRPORTS	AVIATION ATTRACTIONS	FAA SAFETY SEMINARS
Bronze	Fly Wisconsin T-Shirt	42	1	1
Silver	Flight Bag	+42	+1	+1
Gold	Leather Jacket or $100 Gift Card and Patch	+41	+1	+1
TOTALS		**125**	**3**	**3**

UNMANNED AIRCRAFT SYSTEMS (UAS)

UAS are quickly becoming major users of the National Airspace System. UAS *are aircraft* which may require registration and their operators *are pilots*. All UAS pilots need to review local, state and federal regulations regularly and remain well clear of manned aircraft operations.

Download the FAA's B4UFLY Mobile App

AVIATION EVENTS
The Bureau of Aeronautics hosts a variety of conferences and seminars to promote knowledge sharing and relationship building within the Wisconsin aeronautical community. Here are just a few of the events we sponsor:
- Airport sponsor workshop
- Airport operations symposium
- Volk Field fly-In
- Mechanic's and IA renewal seminar

These events are open to anyone who wants to attend, but advanced registration may be required, feel free to call if there are questions. Additionally, our website lists events hosted by airports such as::
- Pancake breakfasts
- Airshows
- First responder airport/safety training
- Fly-in/drive-ins
- Safety seminars
- Much more

R-4305	Lake Superior	SFC to FL 450	Active by NOTAM	MSP Center MSP Center	127.2 133.55

NOTE: Information is subject to change, check official sources prior to flight in or near restricted areas. Time shown is local. No pilot shall operate an aircraft within a Restricted Area between the designated altitudes during the time of designation unless prior permission has been issued.

MILITARY OPERATIONS AREAS

MOA NAME	EFFECTIVE ALTITUDES	DAYS/TIMES USED	CONTROLLING AGENCY ACTIVITY INFORMATION	
Big Bear	500' AGL to, but not including FL 180	0800–1800 Other times by NOTAM	MSP Center	121.25
Volk Falls	500' AGL to, but not including FL 180	Intermittent by NOTAM 4 hours in advance	MSP Center Volk Apch	125.3 135.25
Volk West	100' AGL to, but not including FL 180	Intermittent by NOTAM 4 hours in advance	MSP Center Volk Apch	128.6 135.25
Volk South	500' AGL to, but not including FL 180	Intermittent by NOTAM 4 hours in advance	MSN Center Volk Apch	128.6 135.25
Volk East	8,000' MSL to, but not including FL 180	Intermittent by NOTAM 4 hours in advance	MSP Center Volk Apch	124.4 135.25
Minnow	10,000' MSL to, but not including FL 180	Intermittent by NOTAM (normally daylight hours)	MSP Center	120.85
Ontonagon	500' AGL to, but not including FL 180	0800–1800 Other times by NOTAM	MSP Center	133.55
Snoopy East	300' AGL to, but not including FL 180	By NOTAM (normally 0800–2200)	MSP Center	127.9
Snoopy West	6,000' MSL to, but not including FL 180	By NOTAM (normally 0800–2200)	MSP Center	127.9

NOTE: Information is subject to change, check official sources prior to flight in or near MOAs. Time shown is local. For further information, monitor 134.35, 120.0, or call Volk ANGB Scheduling Office at (608) 427-1273.

AVIATION EDUCATION
Are you interested in an aviation career? Would you like resources and educational opportunities for students?
Visit our website for information on these things and more:
- Aviation art contest
- K-12 educational programs and resources
- Youth aviation programs
- Aviation summer camps and programs
- Wisconsin air and space museums
- Wisconsin flight schools
- Aviation degree programs in Wisconsin
- Scholarship information
- Aviation Careers Education (ACE) program

DOING BUSINESS WITH THE BUREAU OF AERONAUTICS
The Wisconsin State Airport System is a global gateway that safely, responsibly and efficiently meets business, passenger, freight and recreational air transportation needs. The bureau's team of aviation specialists provide airport sponsors professional guidance to manage and utilize their airports to the safest and fullest potential for the communities they support. Our network of airports, which includes eight commercial service airports, enhances the economic vitality of Wisconsin communities. The BOA facilitates an annual average of $70 million in funding for 60+ airport projects. We are committed to developing and maintaining the current and future distribution of federal airport improvement grants for eligible airports in the state airport system.

USERS
- 9,500 Pilots
- 8,000 Certified mechanics or other positions
- 5,495 Registered aircraft
- 5 Million Annual passengers

FACILITIES
- 123 Public airports
- 540 Approved landing sites
- 138 Miles of public runway

IMPACT Near 100,000 Jobs $8 Billion Output

Protecting our airports, and the airspace above and around them, is vital to ensure their safety and usefulness for decades to come. The Bureau coordinates these business services and more:
- Landing site approvals
- Tall structure permitting
- Planning
- Airport security
- Wildlife management
- Compliance
- Aircraft registration
- Studies and reports

DIRECTOR'S MESSAGE
Our mission at the Wisconsin Department of Transportation, Bureau of Aeronautics (BOA) is to provide leadership to maintain and develop a safe and efficient air transportation system. In addition, we focus on providing quality service to Wisconsin's citizens who utilize the many diverse aviation services throughout the state.

Airport development and safety projects vary widely, from pavement reconstruction to obstruction removal to constructing facilities to purchasing snow removal equipment. In addition, our statewide aviation initiatives directly support important programs such as the Automated Weather Observation System, the Pavement Condition Evaluation Program, and the Airport Pavement Marking Program.

Aviation education and outreach is a statewide effort that is actively sponsored by the bureau. Pilot and aircraft maintenance safety courses, youth aviation education, unmanned aircraft systems (UAS) education, as well as airport security are only part of our commitment to engage with the Wisconsin aviation community.

The Fly Wisconsin Airport Passport program continues to promote safety and education by encouraging recreational flights to Wisconsin's public use airports. It also supports general aviation airports, area economic development and tourism. The program is a collaboration between BOA and the Wisconsin Airport Management Association.

With your help, we will continue to foster a strong safety culture within our aviation community.

David M. Greene, Director
Bureau of Aeronautics
