

2021 – 2024

STIP

Statewide
Transportation
Improvement
Program

Prepared in accordance with 23 U.S.C. Sections 134 and 135

Introduction

This Statewide Transportation Improvement Program (STIP) is intended to satisfy the requirements of 23 U.S.C. Sections 134 and 135 and their implementing regulations 23 CFR 450 and 49 CFR 613.

This STIP has been prepared in accordance with joint FHWA/FTA regulations (23 CFR Part 450 and 49 CFR Part 613) accounting for related statutory changes in Public Law 114-357 *Fixing America's Surface Transportation Act (FAST Act)* enacted on December 4, 2015. All current project fund commitments anticipated by the Wisconsin Department of Transportation (WisDOT) during the four-year period from January 1, 2021 through December 31, 2024 are listed.

The projects programmed in the STIP have been reviewed and prioritized by WisDOT in accordance with system asset management principles except as follows. In urbanized areas with populations of 200,000 or greater (Milwaukee, Madison, Appleton, Green Bay and Wisconsin portions of the Round Lake Beach, IL and Minneapolis/St. Paul, MN areas), federally funded projects off the National Highway System (NHS) have been reviewed and prioritized by the respective Metropolitan Planning Organizations (MPOs). In urbanized areas with populations between 50,000 and 200,000, federally funded projects off the NHS and State Trunk Highway Network (STN) have been reviewed and prioritized by the respective MPOs. Projects in areas with populations between 5,000 and 50,000 off the NHS and STN have been reviewed, prioritized, and approved under WisDOT's formula-based entitlement process.

The 2021 – 2024 STIP is based on anticipated state and federal funds. This overall multi-modal STIP reflects WisDOT's currently approved state and local programs within the limits of apportioned federal aid. All projects in the 2021 – 2024 timeframe are affordable and selected for implementation. Any subsequent changes in the project listing involving the addition or deletion of projects or significant changes in project schedule or estimated cost will be processed in accordance with the STIP amendment or backlog advanceable process outlined herein prior to requesting obligation of federal funds on the project.

Certifications

STATEWIDE TRANSPORTATION PLANNING PROCESS CERTIFICATION

In accordance with 23 CFR 450.220, the Wisconsin Department of Transportation hereby certifies that its statewide transportation planning process is addressing major issues facing the State and its non-urbanized areas, and is being carried out in accordance with the following requirements:

- (1) 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
- (2) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (3) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (4) Section 1101(b) of the Fixing America's Surface Transportation Act (FAST Act) (P.L. 114-357), and 49 CFR Part 26 regarding the involvement of disadvantaged business enterprises in the US DOT funded projects;
- (5) 23 CFR part 230, regarding implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (6) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (7) In non-attainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C., regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Financial Plan

The Statewide Transportation Improvement Program (STIP) financial plan addresses fiscal constraint requirements of the federal-aid surface transportation act.

In managing the implementation of the transportation improvement program, WisDOT will exercise the authority to refinance projects among federal, state, and local funds, and to reschedule projects within the four years of the STIP to maintain fiscal constraint. All four years of the STIP are fiscally constrained within Wisconsin's state fiscal years (July 1 – June 30).

Revenue Assumptions

The Wisconsin Department of Transportation's annual budget is set biennially through the State of Wisconsin's budget process. State Fiscal Year 2021 is from 2019 Wisconsin Act 9, the State of Wisconsin's 2019 – 2021 Biennial Budget authorizing federal, state, and local funding for this year. Since Wisconsin's budget is approved for only two years at a time, this analysis assumes the budget approved for State Fiscal Year (SFY) 2021 will be held constant for SFY 2022 – SFY 2024.

The federal fund revenue approved in 2019 Wisconsin Act 9 and included in this plan is \$792.2 million for SFY 2021. Since SFY 2022 – SFY 2024 budget amounts are held constant, future budgets are not increased; however, for planning purposes, the program schedule is set by applying an inflation rate to projects in the second, third, and fourth years to account for costs in the year of expenditure dollars.

WisDOT cannot assume that a future state legislature will commit higher project revenues than exists in the approved biennial budget. Therefore, when doing an all funds (federal, state, and local) analysis, WisDOT uses only resources approved in the most recent biennial budget except where noted. Any future legislative budget action that impacts revenue or programming will be accounted for in Amendments to the STIP.

Wisconsin law allows WisDOT to allot additional local revenue authority on an as-needed basis depending on the summation of local municipal agreement revenue received within the fiscal year. Similarly, it is WisDOT's policy to allot additional federal authority to programs in which federal funds are programmed.

Local Programs

The programs directed at the locally-owned system face unique challenges due to the wide range of owners. WisDOT is working closely with local partners to formalize change management and programming strategies to reduce the movement of projects between fiscal years. In the past few years, WisDOT implemented project 'sunsets' as a management strategy to reduce project movement. In addition, state law requires Transportation Alternatives (290) Program projects must be commenced within four years of the date the grant is awarded.

Wisconsin has the flexibility to allocate funds between subprograms within overall programming to balance under and over programming each biennium in the four-year STIP period. WisDOT routinely does this formally during the current fiscal year. However, because of local project movement, there may be periods of time where one year or program is over programmed, and another year or program is under programmed. WisDOT may also briefly experience a greater dollar amount in the schedule due to estimate changes and project slippage. The Department tries to avoid moving projects out because lining up the necessary local match can be a challenge. WisDOT has very clear program guidance regarding available funding. To remain fiscally constrained, projects are rescheduled, or funds are transferred between programs.

Program Cost and Schedule Assumptions

WisDOT’s Financial Integrated Improvement Programming System (FIIPS) reflects estimates of transportation improvement project costs in current 2020-year dollars.

To change these values to the federally-mandated year of expenditure amounts for this publication, SFY 2022 – SFY 2024 project cost estimates in the Financial Plan table have been manually inflated by 1.78%. This inflationary rate is based on the current ten-year average change in the Consumer Price Index and matches the rate assumed by Wisconsin MPOs in their TIPs and long-range plans. Project estimates in SFY 21 reflect current cost expectations, so they have not been inflated in the table.

The Federal Highway Administration requires state Departments of Transportation STIPs and Metropolitan Planning Organizations TIPs to document revenues and expenditures annually. In Wisconsin, these publications report estimates by calendar year, (January 1 – December 31), based on letting or delivery dates. Since the State of Wisconsin approves budgets by State Fiscal Year, (July 1 – June 30), the 2021 – 2024 STIP Financial Summary table shows revenue and programmed amounts according to State Fiscal Years.

Operation and Maintenance

Wisconsin’s 2019 – 2021 Biennial Budget authorizes WisDOT’s Highway Maintenance, Repair and Traffic Operations Program (305) to spend \$302 million per year. Of that amount, approximately \$10 million per year is authorized for Intelligent Transportation System and Traffic Signal Improvements; those projects are reflected in the 2021 – 2024 Financial Summary.

Wisconsin allocates state funding under several programs to assist local governments with the operation, maintenance and improvement of highways and bridges on the local system.

Program	SFY 2021	SFY 2022	SFY 2023	SFY 2024
General Transportation Aids (GTA) (Total)	\$505,706,400	\$505,706,400	\$505,706,400	\$505,706,400
Supplemental Transportation Aids for Towns	\$25,000,000			
Connecting Highway Aids	\$ 12,063,500	\$ 12,063,500	\$ 12,063,500	\$12,063,500
Lift Bridge Aids	\$ 2,659,200	\$ 2,659,200	\$ 2,659,200	\$2,659,200
County Forest Road Aids	\$ 320,600	\$ 320,600	\$ 320,600	\$320,600
TOTALS	\$545,749,700	\$520,749,700	\$520,749,700	\$520,749,700

State statute requires that local agencies submit pavement condition ratings to WisDOT every two years as a means to monitor responsible use of state funding assistance provided for local transportation needs. Information on these programs, including allocation formulas, can be found at <https://wisconsindot.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/default.aspx>.

It has been historically demonstrated that the level of funding set aside for operations and maintenance of the highway program has been adequate. WisDOT expects this to continue into future years.

(1) Budget amounts reflect the approved biennial state budget for SFY 2021 - 2022, along with estimated budget for SFY 2023 - 2024.											
(2) Budget amounts ["SFY Budget"] and Scheduled expenditures ["SFY Program"] are based on the state fiscal year (July – June).											
(3) Legislative Sub-Program 209 currently does not have any dollars programed for SFY 2022 through SFY 2024.											
(4) Sub-Program 206: SFY 2021 has local match of \$94,307,910 and SFY 2022 has a local match of \$48,081,200. The increase in SFY 2021 is due to the LRIP program.											
(5) Legislative Sub-Program 304 currently does not have any dollars programed for SFY 2021 through SFY 2024.											
(6) SE Freeway includes \$95,000,000 of bonding authority.											

Obligation Plan

In any given federal fiscal year (October 1 – September 30), the Wisconsin Department of Transportation obligates all the federal fund authority it receives.

Federal Fund Type Constraint

On December 4, 2015, Fixing America’s Surface Transportation (FAST) Act was signed into law. This continued many of the MAP-21 program consolidations.

WisDOT’s approach to programming incorporates federal funding flexibilities permitting transfer of funds between federal programs and the use of Advance Construction (AC) under which eligibility for federal funding is established to allow a project to proceed prior to obligation of federal funding. Under these provisions, specific federal fund types may be over programmed as long as the overall federal program in total is constrained across the four-year period.

WisDOT also reserves federal funding associated with special obligation limitation to offset over programming and to cap the amount of funding under advance construction. WisDOT’s fiscally conservative standards do not allow the use of AC to exceed the level of apportionments received from FHWA. In other words, AC is used as a tool to manage the timing of obligation but not to increase the number of projects undertaken. When a project is funded with federal AC funds, WisDOT covers the federal cost-share with general transportation state funds until the funds can be obligated using available apportionments and obligation limitations. This ensures Wisconsin’s commitments are fiscally constrained within a guaranteed federal reimbursement level.

Federal Fund Type Assessment

Wisconsin Estimated FFY 2021 – 2024 Federal Aid Highway Apportionments and Program Levels table lists federal apportionment balances at the end of FFY 2020 as well as the amount apportioned for FFY 2021 and estimated apportioned amounts for FFY 2022 – 2024.

Over the past six years, WisDOT’s total federal obligation limitations (including Equity Bonus) have remained relatively flat and were \$802 million in FFY 2020. The total expected federal funds available for obligation each state fiscal year is inflated beginning in FFY 2022 at 2.0% per year based on the FAST Act. To change the state fiscal year estimated program levels to the federally-mandated year of expenditure amounts, cost estimates have been inflated 1.78% per year beginning in SFY 2022, similar to the Financial Plan table.

As a further check, the STIP is fiscally constrained over the four-year period. This ensures that revenues exist to convert all projects advanced under advance construction within the period of the STIP.

(1) Unobligated Balances reflect prior year SAFETEA-LU, MAP-21, and Fast Act Program Balances. SAFETEA-LU & MAP-21 fund programs, e.g., IM, NHS, have been rolled into the corresponding FAST Fund Type.
(2) FFY Estimated Apportionments are based on the FAST Act. Estimated Apportionment amounts are calculated on inflation amount of 2% based on FAST Act for FFY 2021-2023.
(3) Unobligated balances from Previous Years are not included in the FFY 2020-2023 Estimated Apportionments Total
(4) Equity Bonus & NHPP Exempt Funds Used to balance programming in FFY 2020 through FFY 2023 are applied by reducing the Unobligated Equity Bonus Balance in Previous Years. Unobligated Balances in Allocated Funds Categories (HPP, FLAP, RTP, Other) are similarly applied to balance estimated programming levels.
(5) Federal Lands Access Program and Recreational Trails Program are programmed on an annual basis
(6) Includes Section 112, Section 115, Section 117, PRNS, Highway Priority, Surface Transportation S129, NTPP, Map-21 Training and Education, DBE Training, Skills Training, Ferry Boats; Emergency Relief, Highway-Use Tax Evasion Project, Highways for Life Pilot Program and Misc. Demo funds.

Transportation Improvement Program Approvals

WisDOT Secretary Craig Thompson, under authority delegated by Governor Tony Evers, has approved all the following Transportation Improvement Programs (TIPs) and/or TIP Amendments for the Metropolitan Planning Organizations (MPOs):

1. State Line Area Transportation Study (Beloit, WI-IL MPO); phone 608.364.6690; 2021 – 2024 TIP as adopted on October 26, 2020 by Resolution No. 2020 – 6 for the 2040 long-range plan and approved by WisDOT on December 14, 2020.
2. West Central Wisconsin Regional Planning Commission (Chippewa-Eau Claire MPO); phone 715.836.2918; 2020 – 2023 TIP as adopted on October 2, 2020 by Resolution No. 19 – 06 for the 2045 long-range plan and approved by WisDOT on December 13, 2019.
3. East Central Wisconsin Regional Planning Commission (Fond du Lac MPO); phone 920.751.4770; 2021 – 2024 TIP as adopted on October 7, 2020 by Resolution No. 03 – 20 for the 2050 long-range plan and approved by WisDOT on December 14, 2020.
4. East Central Wisconsin Regional Planning Commission (Fox Cities MPO); phone 920.751.4770; 2021 – 2024 TIP as adopted on October 30, 2020 by Resolution No. 25 – 20 for the 2050 long-range plan and approved by WisDOT on December 14, 2020.
5. Brown County Planning Commission (Green Bay MPO); phone 920.448.6480; 2021 – 2024 TIP as adopted on October 7, 2020 by Resolution No. 2020 – 08 for the 2045 long-range plan and approved by WisDOT on December 14, 2020.
6. Janesville Metropolitan Planning Organization (Janesville MPO); phone 608.755.3085; 2021 – 2026 TIP as adopted on November 9, 2020 by Resolution No. 2020 – 05 for the 2050 long-range plan and approved by WisDOT on December 14, 2020.
7. La Crosse Area Planning Committee (La Crosse, WI-MN MPO); phone 608.785.5977; 2021 – 2024 TIP as adopted on October 21, 2020 by Resolution No. 12 – 2020 for the 2040 long-range plan and approved by WisDOT on December 14, 2020.
8. Madison Area Transportation Planning Board (Madison MPO); phone 608.266.4336; 2021 – 2025 TIP as amended on November 4, 2020 by Resolution No. 6 for the 2050 long-range plan and approved by WisDOT on December 14, 2020.

9. East Central Wisconsin Regional Planning Commission (Oshkosh MPO); phone 920.751.4770; 2021 – 2024 TIP as adopted on October 30, 2020 by Resolution No. 26 – 20 for the 2050 long-range plan and approved by WisDOT on December 14, 2020.

10. Southeastern Wisconsin Regional Planning Commission (Milwaukee, Racine, Kenosha, and Wisconsin portions of Round Lake Beach MPOs); phone 262.547.6721; 2021 – 2024 TIP as adopted on December 9, 2020 by Resolution No. 2020 – 14 for the 2050 long-range plan and approved by WisDOT on December 14, 2020.

11. Bay-Lake Regional Planning Commission (Sheboygan MPO); phone 920.448.2820; 2021 – 2024 TIP as adopted on October 30, 2020 by Resolution 10 – 2020 for the 2045 long-range plan and approved by WisDOT on December 14, 2020.

12. Duluth-Superior Metropolitan Interstate Council, (Duluth-Superior MPO); phone 218.529.7541; 2021 – 2024 TIP as adopted on October 21, 2020 by Resolution No. 20 – 13 for the 2045 long-range plan and approved by WisDOT on December 14, 2020.

13. Marathon County Metropolitan Planning Commission (Wausau MPO); phone 715.261.6040; 2021 – 2024 TIP as adopted on November 10, 2020 by Resolution No. 5 – 20 for the 2050 long-range plan and approved by WisDOT on December 14, 2020.

14. East Central Intergovernmental Association (Dubuque, IA MPO); phone 563.556.4166; 2021-2024 TIP as amended on November 12, 2020 for the 2045 long-range plan and approved by WisDOT on December 14, 2020.

15. Metropolitan Council (Twin Cities MPO); phone 651.602.1000; 2021 – 2024 TIP as adopted on September 23, 2020 by Business Item 2020 – 237 for the 2040 long-range plan and approved by WisDOT on December 14, 2020.

Transit Funds Sections 5303, 5304, 5311, 5314, 5316 and 5317, are reflected in individual TIPs and are administered by WisDOT. Transit Funds Sections 5307, 5309, 5310 and 5339, are reflected in individual TIPs and can be administered by WisDOT or directly between FTA and the urbanized area transit operator.

Wisconsin RPCs and MPOs

Federal Transit Assistance Programs

The following are federal transit assistance programs authorized under Fixing America's Surface Transportation Act (FAST Act), which reauthorized the federal surface transportation programs. The FAST Act amended the federal transit laws and took effect October 1, 2015.

Section 5303: Metropolitan Transportation Planning Program

Section 5303 is a formula-based grant program apportioned annually to states for use. All 5303 planning funds are transferred to the Federal Highway Administration. The federal share is 80% with a required 20% non-federal match.

Section 5304: Statewide Transportation Planning Program

Section 5304 is a formula-based grant program apportioned annually to the states for use in rural planning and research. The federal share is 80% with a required 20% non-federal match.

Section 5307: Urbanized Area Formula Program

This program provides grants to urbanized areas (over 50,000 in population) for public transportation capital, planning, and Job Access and Reverse Commute (JARC) projects, as well as operating expenses in certain circumstances. The federal share for capital projects is 80% with a required 20% non-federal match. The federal share for operating projects is 50% of the net deficit. WisDOT allocates the portion of this funding known as the 'Governor's Apportionment' among transit systems in communities with populations between 50,000 and 200,000 as defined by the most recent Census.

Section 5310: Enhanced Mobility of Seniors and Individuals with Disabilities

This program is intended to enhance the mobility of seniors and persons with disabilities by providing funds for programs to serve the special needs of transit-dependent populations beyond traditional public transportation services and Americans with Disabilities Act (ADA) complementary paratransit services. This program consolidated two SAFETEA-LU programs: Section 5317 – New Freedom and Section 5310 – Elderly and Disabled Capital Assistance. The federal share for capital projects is 80% with a required 20% non-federal match. The federal share for operating projects is 50% of the net deficit.

Section 5311: Formula Grants for Rural Areas

Section 5311 is a formula grant program for non-urbanized areas (under 50,000 in population) that provides capital and operating assistance for public transportation systems. Eligible activities include capital, operating assistance, and planning expenses. JARC projects once funded through Section 5316 became eligible projects in the MAP-21 reauthorization bill in 2012. The federal share for capital projects is 80% with a required 20% non-federal match. The federal share for operating projects is 50% of the net deficit.

Section 5311(b)(3): Rural Technical Assistance Program (RTAP)

Section 5311(b)(3) is formula funding for states to provide research, technical assistance, and training to improve the delivery of transit services in non-urbanized areas (under 50,000 in population). There is no Federal requirement for a local match.

Section 5329: State Safety Oversight (SSO) Program

The purpose of the SSO program is to oversee the safety of rail transit systems. The SSO program is administered by eligible states with rail transit systems in their jurisdiction. FTA provides federal funds through the SSO Formula Grant Program for eligible states to develop and carry out their SSO programs. Under 49 U.S.C. Section 5329(e), as amended by the FAST Act, FTA is required to certify each state's program to ensure compliance. SSO grant funds awarded to Wisconsin have a federal share of 80% and a required non-federal match of 20%.

Section 5339: Bus and Bus Facilities Formula Grants

Section 5339 provides capital funding to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities. It replaced the Section 5309 Bus and Bus Facilities program under SAFETEA-LU. The federal share is 80% with a required 20% non-federal match. There are funds annually allocated to states by formula, as well as a national discretionary program for which urban fixed-route transit systems and state departments of transportation may apply.

Coronavirus Aid, Relief, and Economic Security (CARES) Act

The CARES Act provides emergency assistance and health care response for individuals, families and businesses affected by the COVID-19 pandemic and provides emergency appropriations to support Executive Branch agency operations during the COVID-19 pandemic. All rural and urban recipients, Section 5311 and Section 5307, are eligible to receive CARES Act funds. Funding will be provided at a 100-percent federal share, with no local match required, and will be available to support capital, operating, and other expenses generally eligible under those programs to prevent, prepare for, and respond to COVID-19.

Anticipated Federal Transit Funding Levels, 2021 – 2024 State of Wisconsin*

Program	2021		2022		2023		2024	
	FEDERAL	LOCAL	FEDERAL	LOCAL	FEDERAL	LOCAL	FEDERAL	LOCAL

		<i>Cash/tax levy</i>		<i>Cash/tax levy</i>		<i>Cash/tax levy</i>		<i>Cash/tax levy</i>

*Amounts shown in this table are annual estimates. The available amount for a program is based on funding as authorized under Fixing America’s Surface Transportation Act (P. L. 112-141, 2015).

**Section 5303 funds are transferred to the Federal Highways Administration.

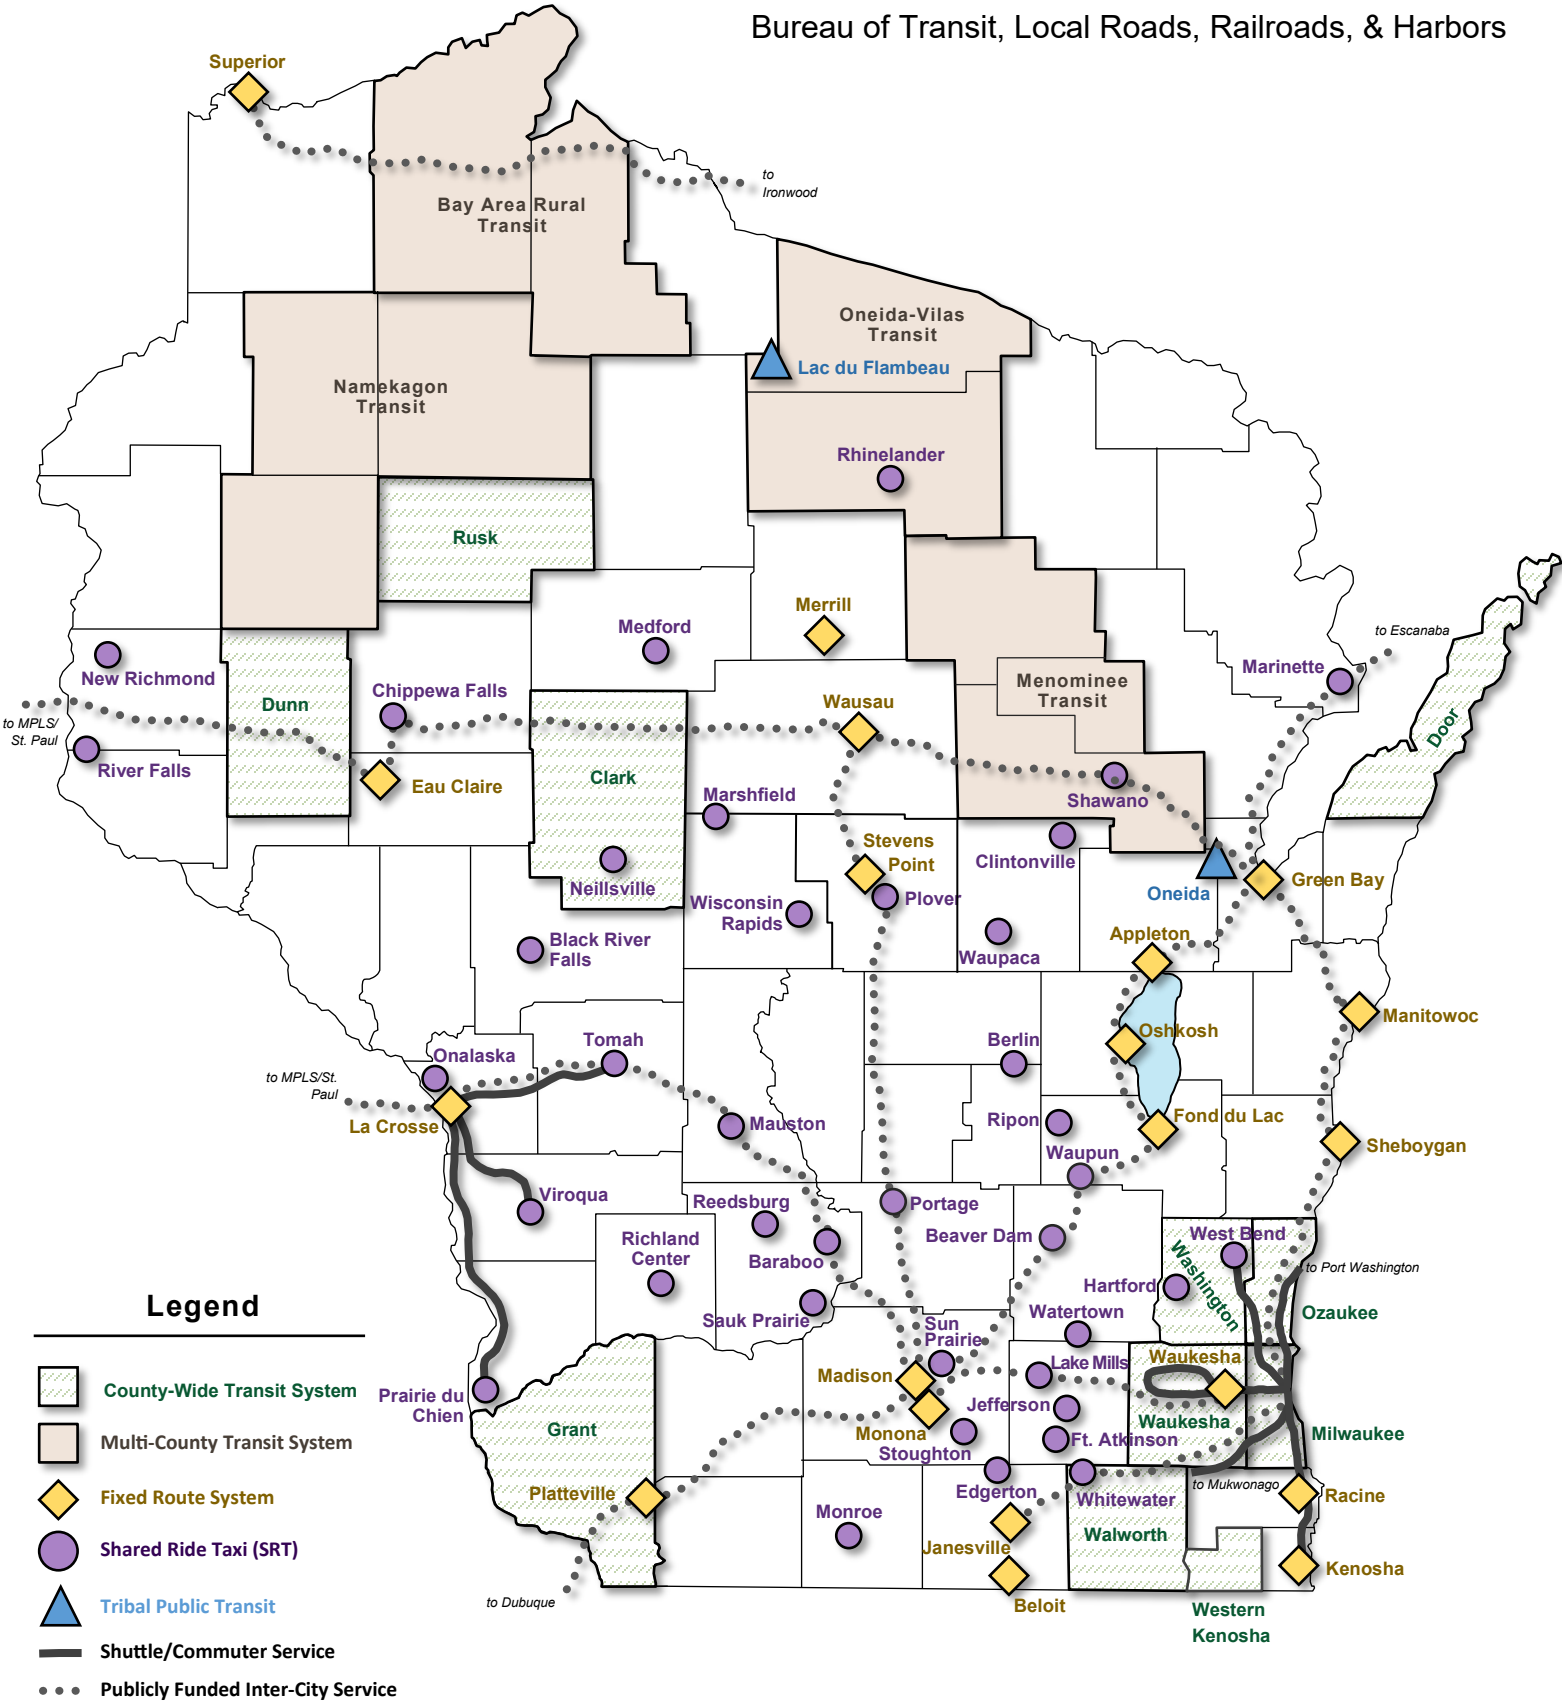

***Section 5307 are the Governor’s Apportionment. Funds are also allocated directly to large urban transit systems.

****Section 5339 funds combine WisDOT’s statewide allocation and the Governor’s Apportionment. Funds are also allocated directly to large urban transit systems

Intercity Passenger Rail Projects

Several Federal Railroad Administration Program funded projects have been identified in studies of two existing intercity passenger rail corridors and are eligible for federal funding for final design and construction.

In addition, WisDOT has submitted federal discretionary grant applications under the Federal-State Partnership for State of Good Repair Program, Consolidated Rail Infrastructure and Safety Improvement (CRISI) and Better Utilizing Investments to Leverage Development (BUILD) programs in SFY 2018, SFY 2019, and SFY 2020 for five passenger rail projects. All five of these projects have been selected for grants and will be fully funded projects in SFY2021 and SFY2022.

Studies with projects identified:

- 1) Adding one to three additional daily round-trip frequencies between Milwaukee and Chicago on the Hiawatha Service in cooperation with the State of Illinois. The project would involve final design (SFY 2022 – 2023) and construction (SFY 2024 – 2025), pending completion of the Environmental Assessment and Service Development Plan (completion SFY 2022).
 - a) Projects in Wisconsin identified in the Environmental Assessment and Service Development Plan to accommodate the additional round-trip frequencies (capital costs provided are rounded preliminary estimates):
 - i) Muskego Yard signalization and track/bridge improvements (Milwaukee):
\$54.6 million
 - ii) Milwaukee Airport Rail Station second platform with overhead access (Milwaukee):
\$10.1 million
 - iii) Centralized train control (CTC) signalization between Milwaukee Intermodal Station and Cutoff (Milwaukee): \$5.4 million
- 2) Adding one new state-supported intercity passenger rail frequency between Chicago and the Twin Cities on the Amtrak Empire Builder corridor. This final phase of planning includes completion of environmental clearance, a service development plan, which will be complete in SFY2021.
 - a) Based on the results of the National Environmental Policy Act (NEPA) study, the next steps could be Final Design (SFY 2021) and construction (SFY 2022 – 2023) of infrastructure improvements identified in the NEPA study. Infrastructure improvements in Wisconsin include:
 - i) Rebuild Second Canadian Pacific (CP) Rail Main Track to the west and east of the La Crosse Amtrak Depot and extend La Crosse CP Rail Yard Lead West

SFY 2021 Final Design and Construction Projects:

At the time of publication of the STIP, there were five projects with grant applications selected for the award by the Federal Railroad Administration (FRA) for the final design and construction of passenger rail improvements. The selected projects will be obligated in SFY2021.

- 1) Milwaukee Airport Rail Station second platform with overhead access (Milwaukee):
\$10.1 million *Selected for award*
- 2) CTC signalization between Milwaukee Intermodal Station and Cutoff (Milwaukee):
\$5.4 million *Selected for award*
- 3) Acquisition of three cab-coach cars and six coach cars for the Amtrak Hiawatha Service:
\$38.9 million *Grant awarded*
- 4) Muskego Yard Improvements and freight train bypass of Milwaukee Intermodal Station (Milwaukee):
\$54.6 million *Selected for award*
- 5) Twin Cities-Milwaukee-Chicago Intercity Passenger Rail Project
\$53 million *Selected for award*

Federal funding sources include, but are not limited to, the following grant programs:

- Infrastructure for Rebuilding America (INFRA)
- Consolidated Rail Infrastructure and Safety Improvement (CRISI)
- Better Utilizing Investments to Leverage Development (BUILD)
- Federal-States Partnership for State of Good Repair

Roadway and Bridge Improvement Programs

The pages that follow lists WisDOT's projects planned for implementation in Calendar Years 2021, 2022, 2023 and 2024. Projects are sorted in the following order:

CALENDAR YEAR

DIVISION-BUREAU (REGION)

COUNTY NAME

HIGHWAY NUMBER

SCHEDULE DATE

PROJECT ID

It should be noted that the list contains some minimal over-programming (i.e., more projects than can actually be funded in a given year) to allow for attrition, that is, projects being delayed or dropped for other than financial reasons. Preliminary engineering projects will not be contained in the following list although they are likely to be listed in the appropriate MPO TIP.

It should also be noted that the FEDERAL FUND TYPE (or lack of) shown for each project represents a *tentative* fund assignment that may or may not become reality. WisDOT reserves the right to change the federal fund type on individual projects at any time prior to obligation, when necessary, consistent with its overall obligation plan to maximize the use of available federal aid.

Programing based on FAST Act Funding Programs

Federal-aid highway and transit funding programs are based on the 2015 transportation authorization act *Fix America Surface Transportation Act (FAST Act)*. WisDOT will make all required program adjustments in accordance with the FAST Act legislation along with any related federal regulations and guidance.

Note: The estimated cost range is provided so that WisDOT can award projects by using the competitive process and not disclose bidding information.

Funding Codes

<u>Fund Type</u>	<u>Project Prefix</u>
Congestion Mitigation Air Quality	CMAQ
Surface Transportation Program (STP) – state reference FAST Act program for the state STP is the Surface Transportation Block Grant (STBG) Program	STP
Highway Safety Improvement Program	HSIP
High Priority Projects	HPP
National Highway Freight Program	NHFP
National Recreational Trails (funds transferred to DNR)	NRT
National Highway Performance Program	NHPP
Discretionary Allocations	ITS, ER
Bridge Replacement and Rehabilitation	BR
Public Land and Forest Highway Programs	PLH, FH
Statewide Metropolitan Planning	SPR, PL
Transportation Alternatives Program	TAP

Local Programs

All these programs, except for the Local Bridge Program, utilize federal and local funds to pay for local projects. In addition to federal and local funds, the Local Bridge Program may also utilize state funds to pay for local projects.

Local Bridge Program: Funds the improvement of local bridges. This includes engineering and construction costs for administering and implementing bridge improvements on roads that are not a part of the State Trunk Highway (STH) System.

Local Highway Improvement Assistance: Funds the improvement of local highways, including engineering, real estate, construction costs, and department services on roads that are not a part of the STH System.

STP Urban Program: Improvements in urban areas with populations greater than 5,000. Also, non-highway projects including multi-modal facilities, transit capital improvements, and bicycle and pedestrian facilities.

STP Rural Program: Improvements to roads and streets functionally classified as higher than rural minor collectors. Also, non-highway projects including multi-modal facilities, transit capital improvements, and bicycle and pedestrian facilities.

Congestion Mitigation Air Quality (CMAQ): Funds projects that have a positive impact on air quality including highway efficiency improvements, carpooling, transit improvements, development of bicycle and pedestrian facilities, and alternative fuel facility and vehicle projects. These projects are located in or impact nonattainment and maintenance areas for criteria pollutants.

The Transportation Alternatives Program (TAP): Funds programs and projects defined as transportation alternatives, including on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, bicycle and pedestrian plans, and safe routes to school projects. It is the State of Wisconsin's STBG-Set-Aside program.

State Programs

All these programs utilize federal, state, and/or local funds to pay for projects located on the State Trunk Highway (STH) system.

Major Highway Development: Major Highway Development projects are generally the most complex, costly and controversial projects initiated by WisDOT. They are long-term solutions to the most serious deficiencies on highly traveled segments of the highway system. A Major Project cost threshold is indexed to construction inflation. As of October 1, 2020, the cost thresholds are either a total cost of more than \$108.7-million or a total cost of \$43.5 million and involving one of the following:

- 1) Constructing a new highway 2.5 miles or more in length;
- 2) Reconstructing or reconditioning an existing highway by one of the following:
 - a. Relocating 2.5 miles or more of an existing highway;
 - b. Adding one or more lanes 5 miles or more in length to the existing highway;
 - c. Improving to freeway standards 10 miles or more of an existing divided highway having two or more lanes in either direction.

Southeast Wisconsin Freeway Megaprojects: This program provides funding for all projects on the southeast Wisconsin freeway system expected to cost more than \$500 million, including the reconstruction of the I-94 North-South freeway and the Zoo interchange. Under this program:

- 1) The megaprojects cost threshold is indexed to construction inflation (as of October 1, 2020, the threshold is \$727.6 million).
- 2) Megaprojects must be enumerated by state law.

State Highway Rehabilitation (SHR): The State Highway Rehabilitation subprogram funds improvements on Wisconsin's state-owned highway system. Improvements funded in the SHR program include bridge preservation, bridge rehabilitation, bridge replacements, pavement preservation, pavement rehabilitation, pavement replacement, and intersection and interchange improvements. The program is managed as two separate sub-systems: The Backbone system and the 3R system> These two subsystems are managed as follows:

Backbone System: The Backbone Highway subprogram funds improvements on Wisconsin's 1,597-mile Backbone highway system. The Backbone system includes all 878 miles of Interstate routes in the state as well as those freeways and expressways that are designated as Backbone roadways in Connections 2030, Wisconsin's long-range transportation plan. Improvements funded in the Backbone Rehabilitation program include bridge preservation, bridge rehabilitation, bridge replacements, pavement preservation, pavement rehabilitation, pavement replacement, and intersection and interchange improvements.

3R System: The 3R program funds improvements (resurfacing, restoration, and rehabilitation) to existing roadways, the minor addition of lanes, traffic and safety

improvements, and minor realignments of roadway. Improvements in this subprogram are categorized by the type of work involved:

- **Resurfacing:** Rehabilitating the surface of pavement to provide a smoother ride and to extend the pavement's structural life. Can also include pavement widening and/or shoulder paving to improve safety and reduce shoulder maintenance costs.
- **Reconditioning:** Resurfacing and improving an isolated grade, curve, or intersection.
- **Pavement Replacement:** The highest type of “resurfacing” whereby the existing pavement structure is replaced with a new one. Does not include widening of the roadway.
- **Reconstruction:** Total rebuilding of the highway to provide a safer facility, to improve geometrics (i.e. longer passing and stopping sight distances, broader turning radii, and additional lanes at intersections) and increased traffic handling capabilities. Other benefits are a smoother ride, reduced travel time and lower maintenance costs.

Major Interstate and High-cost State Highway Bridges: This subprogram includes two separate programs focusing on unique, high-cost structure projects across the state. Bridges are ineligible for this program if they are considered as part of a Southeast Wisconsin Freeway Megaprojects.

Major Interstate Bridge Program: A Major Interstate Bridge project is defined as any bridge project on a state highway that crosses a river forming a boundary of the state and for which the state’s estimated cost share is at least \$100 million.

High-cost State Highway Bridge Program: A High-cost State Highway Bridge project is defined as any bridge project on a state highway that has a total cost of more than \$150 million. Bridges are ineligible for this program if they are considered as part of a Major Interstate Bridge project.

Highway Traffic Operations: This subprogram includes all the repair and operation of pavement markings, traffic signs, traffic operation improvements, and freeway detours.

Maintenance Program: This program funds the refurbishment, repair, cleaning, painting, re-lamping, etc., of existing traffic control devices (TCDs). Although state crews do most of the routine maintenance on TCDs, the nature of some of the work and/or the sheer volume of it requires outside help. The biggest items are sign refurbishment of the large freeway guide signs, cleaning and re-lamping of the highway lighting units, and traffic control signals on the system.

Statewide Stand-alone Curb Ramp Program: This subprogram includes the design and construction of stand-alone curb ramp locations for the state trunk network including connecting highways. Stand-alone curb ramp locations are sites that are not within a roadway improvement project in the Six-year Program.

Safety Programs

All these programs utilize federal funds and the match is either state, local, or railroad funds, depending upon the jurisdiction of the highway and type of railroad project. These funds pay for activities that promote safety. The Highway Safety Improvement Program is incorporated into the safety-related projects listed by WisDOT Region in the STIP.

Highway Safety Improvement Program (HSIP): A core federal-aid program with the purpose of achieving a significant reduction in traffic fatalities and serious injuries on all public roads, including non-state-owned roads and roads on tribal land. HSIP utilizes a data-driven approach to improving safety on all public roads

Railroad Crossing Warning Devices: Funds signal warning device installations, circuitry improvements, flashing lights, cantilevered flashing lights, and gates.

Railroad Crossing Elimination of Hazards: Funds geometric improvements (grades), modular crossings, separations (limited because of high costs), consolidations, and closures.

Project Listing Reference Information

The tables on pages 7 – 7 through 7 – 9 are provided as a reference for the information within the preceding Tab 7 central office and region project listings:

Program (Pgm) code	
205	Highway and local bridge improvement assistance
206	Local transportation facility improvement assistance
207	Railroad crossing improvement, protection, and repair assist
208	Multimodal transportation studies
209	Transportation facilities economic assistance and development
210	Surface transportation grants
211	Congestion mitigation and air quality improvement
290	Transportation alternatives
301	Southeast Wisconsin freeway megaprojects
302	Major highway development
303	State highway rehabilitation
304	Major interstate bridge construction
305	Highway maintenance, repair, and traffic operations

Contract Types	
ATR	TEA Rail Contract
C/E	Consultant Delivery (Preliminary or Construction Engineering)
CCO	Contract Change Order (When a separate project ID is used)
I/E	In-house delivery (Prelim or Construction Engineering)
JTP	Jurisdictional Transfer Payment (used only when a payment is being made to a local for work they are going to do on the roadway to be transferred)
LET	Contract via Bid Letting
LFA	Local Force Account (replaces AUP, CRC and S&S)
LLC	Locally Let Contract
M/E	Municipal Engineering
MIS	Miscellaneous Negotiated Contract
OST	Other State Let Contract
PRR	Passenger Rail Service
R/E	Real Estate Acquisition (For encumbering real estate payments)
R/R	Railroad Contract
SFA	State Force Account
TST	Fund Transfer to Federal Transit Authority
UTL	Utility Contract (For compensable utility contracts)

Concept Improvement Codes

The table below defines improvement concepts:

Improvement Concept Code	FDM 3-5-2 Highway “Roadway” Improvement Type	Improvement Concept Definition
PSRS10 PSRS20 PSRS30 PSRS40	Preservation / Restoration	PRESERVATION / RESTORATION – preservation/restoration treatments may address cracks, joints and surface imperfections, seal and protect the road surface, improve friction and/or remove and apply a minimal riding surface (code varies by treatment type).
RSRF10 RSRF20 RSRF30 COLD10 COLD20	Resurfacing	RESURFACING – placing a new surface on an existing roadway to provide a better all-weather surface, a better riding surface, and to extend or renew the pavement life (code varies by thickness of resurface). Cold-in-place recycling when applicable.
RCND10 RCND20	Reconditioning	RECONDITIONING – work in addition to resurfacing. Minor reconditioning (10) includes intersection work, pavement widening and/or shoulder paving. Major reconditioning (20) includes improvement of an isolated grade, curve, intersection or sight distance problem to improve safety.
PVRPLA PVRP_O COLD30	Pavement Replacement	PAVEMENT REPLACEMENT – structural improvement of the pavement structure or removal of the total thickness of all paving layers from an existing roadway and providing a newly paved surface without changing the subgrade. PVRP_O includes operational improvements. Full-depth Cold-in-place recycling where applicable.
RECST BRNEW	Reconstruction	RECONSTRUCTION PRESERVATION – total rebuilding of an existing highway to improve maintainability, safety, geometrics and traffic service.
RECSTE BRNEW	Expansion	RECONSTRUCTION EXPANSION & NEW BRIDGE – includes the same types of work associated with reconstruction, but also involves the construction of additional through travel lanes or new structures.
BRRHB	Bridge Rehabilitation	BRIDGE REHABILITATION – the preservation or restoration of the structural integrity of an existing bridge as well as work to correct safety defects.
BRELM BRRPLE BRRPL	Bridge Replacement	BRIDGE ELIMINATION, BRIDGE REPLACEMENT EXPANSION & BRIDGE REPLACEMENT PRESERVATION – the building of a new bridge to replace an existing bridge.

MISC		MISCELLANEOUS – Work that is not classified under other Improvement Concept codes, including Construction Work Zone Traffic Mitigation/Service Patrol, Bank Developed Wetland Mitigation, Project Specific Wetland Mitigation, Jurisdictional Transfer, placeholders, ITS incidental items acquired via purchase order or request for proposal, Service Patrol Service Order Contract, TOPS Lab safety studies, salt sheds, temporary widening, temporary bridges, Majors satellite field office costs.
------	--	--

Consult the Facilities Development Manual (FDM) Procedure [3-5-2](#) for comprehensive definitions of improvement types.

The following traffic operations improvement concepts should be used with Legislative Subprogram 305 – Highway Maintenance, Repair and Traffic Operations

Improvement Concept Code	Improvement Concept Definition
TOPM	STH – TRAFFIC OPERATIONS PAVEMENT MARKING – intended to cover all costs associated with general pavement marking including repainting centerline markings, lane line and no-passing zone markings, edge line-markings and special pavement markings on existing highways. Special marking presently includes but is not, limited to the following items; channelizing lines, railroad crossing markings, stop lines, crosswalks, words and symbols, arrows, diagonal markings, curb markings, parking stall lines, bike lane markings and island nose markings.
TOS	STH – TRAFFIC OPERATIONS SIGNING – includes all work associated with the installation of new signs and supports along existing highways. It also includes the maintenance of highway signs, supports and sign bridges. Maintenance is defined as replacing, repairing and refacing signs.
TOE	STH – TRAFFIC OPERATIONS ELECTRICAL – includes all costs for the installation and maintenance of highway lighting (including relamping, repair and replacement) and the maintenance of weigh station and sign lighting.
TOITS	STH – TRAFFIC OPS INTELLIGENT TRANS SYSTEMS (ITS) – Intelligent Traffic Systems are defined by FHWA as: Intelligent Transportation System (ITS) means electronics, communications, or information processing used singly or in combination to improve the efficiency or safety of a surface transportation system. This definition provides the base for the charging to program code 3890. Anticipated uses of 3890 will include but are not limited to; expenses relating to the operations and integration of ITS field devices, ITS deployment program planning expenses, and the expenses associated with the design and construction of ITS stand-alone project identified in the fiscal budget.
TOSIG	STH – TRAFFIC OPERATIONS-TRAFFIC SIGNALS – includes all work associated with the installation, maintenance and repair of traffic control signals and beacons not part of an improvement project.
TOI	STH – TRAFFIC OPERATIONS IMPROVEMENT BRIDGE REPAIR – only used for projects using sub-program 305 for urgent bridge repairs.

Backlog-Advanceable Pilot Program

For calendar years 2021 and 2022, WisDOT and FHWA have agreed to a Two-Year Backlog-Advanceable Pilot Program. Backlog-advanceable projects are in the Wisconsin State Highway Rehabilitation (SHR) program [identified in non-MPA areas (*rural*)] and are outside of the STIP four-year period. If additional federal funding becomes available during a Federal Fiscal Year (FFY), Backlog-Advanceable projects will be advanced into the 4-year STIP period in order to authorize the additional federal funds within that FFY. Backlog-advanceable projects are listed separately in this tab in the 2021 STIP. The annual STIP public comment period will serve to meet the federally required 30-day comment process for these projects.

The Backlog-Advanceable project list is updated on an annual basis. Backlog-Advanceable Pilot projects are screened and identified to have low levels of environmental impacts and use WisDOT Categorical Exclusion Checklist (CEC) environmental documentation. The project candidate list screening process will not allow any project requiring conformity determination. The Backlog Advanceable pilot program funding amounts are capped at no more than 15% of the annual Wisconsin State Highway Rehabilitation (SHR) program funding. As part of the pilot program process, the Backlog-Advanceable project list will remain static and no projects will be added until developing the listing for the next annual STIP update (2022 – 2025).

Backlog-advanceable projects can move into any part of the four-year period without an amendment to the STIP, provided they comply with the fiscal constraint of the STIP. Backlog-advanceable projects moved into the four-year STIP period will be included in the fiscal constraint determination of the next monthly STIP Amendment.

The goal of the Backlog-Advanceable Pilot Program is to provide a list of projects that are included in the STIP, so these projects are eligible for further planning development and design engineering. This eligible project planning development and design engineering will enable projects to be ready for advancement if funding becomes available without disrupting the current programmed projects. Funding for the Backlog-advanceable projects is anticipated to be available based on historical project letting cost savings and FHWA August redistribution of unused federal obligation authority.

The enclosed Backlog Advanceable projects have been identified with Early Let (ELET) dates to which the project could be advanced for letting once available funding is identified. The let date is the date the project is scheduled to be awarded to the successful bidding contractor to perform the work associated with the project. These Backlog Advanceable projects have ELET dates within the 2021 – 2024 STIP calendar years.

The calendar year (CY) for the ELET (To CY) and the CY for the current scheduled Let date (From CY) are included in the following 2021 – 2024 Backlog Advanceable Pilot Program STIP Project listing.

Federal Lands Transportation Improvement Program

FHWA has “established a coordinated Federal lands highways program that ... apply to public lands highways, park roads and parkways, refuge roads, and Indian reservation roads and bridges” (23 USC 204 (a)(1)). The Federal lands highway projects are to be included in the state’s STIP for the projects located within the state.

Current projects from the Eastern Federal Lands Highway Division and Indian Reservation Roads Programs are included within the following pages. The project listings are updated as made available from FHWA. A listing of tribal contacts is also included for informational purposes.

Tribal Contacts:

Honorable Michael Wiggins, Jr.
Chair, Bad River Band of Lake Superior
Chippewa
PO Box 39
Odanah, WI 54861

Honorable Shannon Holsey
President, Stockbridge-Munsee Band of
Mohican Indians
PO Box 70
Bowler, WI 54416

Honorable Ned Daniels, Jr.
Chair, Forest County Potawatomi Community
PO Box 340
Crandon, WI 54520

Honorable Tehassi Hill
Chair, Oneida Nation of Wisconsin
PO Box 365
Oneida, WI 54155-0365

Honorable Marlon WhiteEagle
President, Ho-Chunk Nation
PO Box 667
Black River Falls, WI 54615

Honorable Richard Peterson
Chair, Red Cliff Band of Lake Superior
Chippewa
88385 Pike Rd, Hwy 13
Bayfield, WI 54814

Honorable Louis Taylor
Chair, Lac Courte Oreilles Band of Lake
Superior Chippewa Tribal Governing Board
13394 West Trepenia Road
Hayward, WI 54843

Honorable Susan Lowe
Chair, St. Croix Chippewa Community
24663 Angeline Avenue
Webster, WI 54893

Honorable Joseph Wildcat Sr.
President, Lac du Flambeau Band of Lake
Superior Chippewa
PO Box 67
Lac du Flambeau, WI 54538

Honorable Garland McGeshick
Tribal Chair, Sokaogon Chippewa
Community (Mole Lake Band of Lake
Superior Chippewa Indians)
3051 Sand Lake Road
Crandon, WI 54520

Honorable Doug Cox
Chairperson, Menominee Nation Tribal
Legislature
PO Box 910
Keshena, WI 54135-0910

Office of Federal Lands Highway
US Department of Transportation - Federal Highway Administration

Public Involvement

Current federal legislation requires the Governor to ensure that WisDOT and the MPOs develop plans to actively involve the public in the development of the STIP. WisDOT uses an ongoing STIP public involvement plan that includes:

- 30-day written comment period on the STIP (yearly)
- State Trunk Highway System project development and Six-Year Highway Program hearings (ongoing)
- MPO public hearings on TIPs (yearly)
- Local government hearings on transit projects for smaller systems (ongoing)
- Local government hearings on local road projects (ongoing)

The focus of this plan is on maximizing public involvement at the state, MPO, and local levels—on an ongoing basis—when initial project decisions are presented and made. WisDOT published its first STIP Public Involvement Plan in November of 1993. The STIP Public Involvement Plan (PIP), which was updated in November 2016, continues to focus on the public involvement processes used on various types of transportation projects. The 2016 update of the STIP PIP includes public involvement aspects of new legislation; Public Law 112 – 141 *Moving Ahead for Progress in the 21st Century Act* along with Public Law 114 – 357 *Fixing America’s Surface Transportation Act (FAST)*. The plan is available at <https://wisconsin.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/stip.aspx>

Although the STIP Public Involvement Plan does not require any public hearings, WisDOT may agree to have a public hearing if one is requested. The STIP Public Involvement Plan will continue to rely on written comments from the public regarding the draft STIP.

The legal notice advertising the draft STIP was published on November 6, 2020. A copy of the notice is presented below.

LEGAL NOTICE

The Wisconsin Department of Transportation announces the availability of its draft multimodal 2021-2024 Statewide Transportation Improvement Program (STIP). The draft STIP is available from the State Transportation Improvement Program website: <https://wisconsin.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/stip.aspx>. The comprehensive improvement program includes all federally funded highway, transit, bike and pedestrian projects to be undertaken in Wisconsin during the 2021-2024 timeframe. The draft STIP is subject to a 30-day public comment period. The final STIP will be issued in January 2021. Inquiries about the draft STIP and written comments on the improvement program should be directed, before December 6, 2020, to the Wisconsin Department of Transportation’s Division of Transportation Investment Management, Bureau of Planning and Economic Development, P.O. Box 7913, Madison, WI 53707-7913; comments by phone at 608-266-3662 or comments by email at bop.dtim@dot.wi.gov.

Performance Measures

Introduction

MAP-21 and the FAST ACT requires the incorporation of Performance-Based Planning and Programming (PBPP) in the development of the State's Long-Range Transportation Plans (LRTP) and Statewide Transportation Improvement Plans (STIP). The incorporation of PBPP in the STIP contributes to the achievement of National Performance goals (23 USC 150). The *Statewide and Nonmetropolitan Transportation Planning; Metropolitan Transportation Planning; Final Rule* further defined that the STIP shall include, to the maximum extent practicable, a description of the anticipated effect of the STIP toward achieving the performance measures targets identified in the statewide transportation or State Performance-based plan(s), linking investment priorities to those performance targets (23 CFR 450.218(q)).

23 USC 150: National Performance Measure Goals are:

- **Safety** - To achieve a significant reduction in traffic fatalities and serious injuries on all public roads
 - **Infrastructure Condition** - To maintain the highway infrastructure asset system in a state of good repair
 - **Congestion Reduction** - To achieve a significant reduction in congestion on the National Highway System
 - **System Reliability** - To improve the efficiency of the surface transportation system
 - **Freight Movement and Economic Vitality** - To improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development
 - **Environmental Sustainability** - To enhance the performance of the transportation system while protecting and enhancing the natural environment
- Reduced Project Delivery Delays** - To reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices.
- [FHWA - About Transportation Performance Management](#)

WisDOT Performance-Based Planning and Programming Processes

MAPSS Performance Improvement

WisDOT has utilized the MAPSS Performance Improvement Program since January 2012 to measure transportation performance across Wisconsin. MAPSS is organized around five strategic department goal areas: Mobility, Accountability, Preservation, Safety, and Service. Many of the MAPSS performance measures are closely related to the MAP-21/FAST Act performance measures. Preservation performance measures include State Highway Pavement Condition and State Bridge Condition. Safety performance measures include the number of Traffic Fatalities and Serious Injuries. Additional performance measures are included within each of the MAPSS goal areas. Measures are posted on the WisDOT MAPSS internet site: [MAPSS Performance Improvement Program](#).

WisDOT Data-Driven Project Development

WisDOT has embraced a “data-driven” asset management approach to achieve the goals for projects and programs. In conjunction with a strong reliance on data for decision-making, WisDOT has committed to a process of continual data quality improvement (e.g. standards for collection and storage, leverage of technology, integration strategies, etc.).

WisDOT has developed a comprehensive set of data and analysis tools for developing and managing the Six-Year Highway Improvement Program. The primary components of the dataset include a geographically integrated set of databases (using specialized tools) representing:

- Pavement and bridge condition
- Six-Year Program information
- Highway geometric and attribute information
- Highway crashes, highway capacity, etc.
- Pavement and bridge deterioration and improvement models
- Analysis models for evaluating alternatives, costing, priorities, and budget constraints

The data is used to:

- Identify, scope, and prioritize projects
- Evaluate program performance (e.g. before/after analyses)
- Estimate future conditions and needs
- Establish program goals
- Allocate resources for programs and WisDOT transportation regions

A data-driven project development approach identifies condition, needs, and priorities related to the Wisconsin State Trunk Highway System. Efforts enhance statewide program development consistency by facilitating an improved understanding of how program goals and performance measures.

MAP-21/FAST Act Performance Measures

MAP-21/Fast Act Performance Measures are established in 49 USC 625 and 23 CFR 490. State Department of Transportations (DOTs) and Metropolitan Planning Organizations (MPOs) are currently required to establish targets for the following federal performance measures:

- Transit
 - Rolling Stock: The percentage of revenue vehicles (by type) that exceed the useful life benchmark (ULB)
 - Equipment: The percentage of non-revenue service vehicles (by type) that exceed the ULB
 - Facilities: The percentage of facilities (by group) that are rated less than 3.0 (adequate) out of 5 (excellent) on the Transit Economic Requirements Model (TERM) Scale
 - Infrastructure: The percentage of track segments (by mode) that have performance restrictions. Track segments are measured to the nearest 0.01 of a mile

- Safety
 - Number of fatalities
 - Fatalities per 100 million vehicle miles traveled
 - Number of serious injuries
 - Serious injuries per 100 million vehicle miles traveled
 - Number of non-motorized fatalities and non-motorized serious injuries

- Infrastructure
 - Percentage of pavements of the Interstate System in *Good* condition
 - Percentage of pavements of the Interstate System in *Poor* condition
 - Percentage of pavements of the non-Interstate NHS in *Good* condition
 - Percentage of pavements of the non-Interstate NHS in *Poor* condition
 - Percentage of NHS bridges classified as in *Good* condition
 - Percentage of NHS bridges classified as in *Poor* condition

- System Performance on NHS
 - Interstate Travel Time Reliability Measure: The percent of person-miles traveled on the Interstate that are reliable
 - Non-Interstate Travel Time Reliability Measure: The percent of person-miles traveled on the non-Interstate NHS that are reliable

- Freight Movement
 - Freight Reliability Measure: Interstate Truck Travel Time Reliability (TTTR) Index

- Congestion Mitigation and Air Quality (CMAQ) - Congestion Reduction
 - Peak Hour Excessive Delay (PHED) Measure: Annual Hours of Peak Hour Excessive Delay (PHED) Per Capita
 - Non-Single Occupancy Vehicle Travel (SOV) Measure: Percent of Non-Single Occupancy Vehicle (SOV) Travel
 - Emissions Measure: Total Emission Reductions

These performance measures have been established within a series of FHWA and FTA rulemaking regulations. The performance measure targets have been established based on the final rules for the measures and are included in the Statewide Transportation Improvement Program (STIP).

A description of the Transit, Safety, Infrastructure, System Performance, Freight Movement and CMAQ - Congestion Reduction performance measure targets and methodologies are included in the following discussions.

2021 Transit Performance Target of Capital Assets

In accordance with 49 CFR Parts 625 and 630 for Transit Asset Management (TAM), the Wisconsin Department of Transportation (WisDOT), is the TAM sponsor for all Section 5311 Formula Grants for Rural Areas, Section 5310 Enhanced Mobility for Seniors and Individuals with Disabilities, and some Section 5307 Formula Grants for Urbanized Areas sub-recipients.

Methodology

WisDOT provided an opt-in opportunity for all Section 5311 Formula Grants for Rural Areas, Section 5310 Enhanced Mobility for Seniors and Individuals with Disabilities, and some Section 5307 Formula Grants for Urbanized Areas sub-recipients to be included in the WisDOT TAM Plan. WisDOT worked with sub-recipients to update the inventory information of federally funded vehicles, equipment, and facilities in its BlackCat web-based grants management system.

In early 2018, WisDOT staff presented the TAM targets and a draft TAM Plan at a WisDOT Planning Section meeting with representatives from the state Metropolitan Planning Organizations (MPOs) and Regional Planning Commissions (RPCs). WisDOT staff fielded questions from attendees and provided them with a PowerPoint presentation about the federal TAM initiative as well as a copy of the draft plan.

Vehicles

WisDOT evaluated the inventory of its sub-recipient vehicle capital items and used FTA's Useful Life Age Benchmark (ULB) set in FTA 5010.1D, page IV-7 to determine if the vehicles were beyond their useful life. WisDOT and its sub-recipients have set the following TAM performance targets:

Rolling Stock – Acceptable percentage of revenue vehicle fleet that is past its useful life

Performance Measure	2020 Target (%)	2021 Target (%)
AO – Automobile	77	77
BU – Bus	44	44
CU – Cutaway	47	47
SB – School Bus	100	100
VN – Van	27	27

Equipment – Acceptable percentage of non-revenue vehicle fleet that is past its useful life

Performance Measure	2020 Target (%)	2021 Target (%)
Automobiles	33	33
Trucks or other Tiered Vehicles	29	29

Facility Targets

WisDOT evaluated the condition of the facilities in its sponsored TAM plan FTA's Transit Economic Requirements Model (TERM).as a guide. This scale has the following values:

- 5 – Excellent
- 4 – Good
- 3 – Adequate
- 2 – Marginal
- 1 – Poor

Facility – Acceptable percentage of facilities that are rated below a “3” on the TERM guide

Performance Measure	2020 Target (%)	2021 Target (%)
Administrative/Maintenance Facilities	10	10

Most transit facilities in WisDOT’s sponsored TAM Plan are relatively new and in excellent condition. None of the facilities are beyond their useful life of 40 years or reached below adequate condition (rated below a 3 on the condition scale). WisDOT and its sub-recipients set the TAM performance target to only allow 10 percent of the facilities to be rated below a “3 – Adequate” on the condition scale.

Next Steps for the TAM and Transit Targets

In 2019, approximately \$6,800,000 of funding is dedicated to replacing priority vehicles within the TAM Plan as transit providers continue to operate services with aging fleets. At least 56 percent of the vehicles reported in the WisDOT TAM Plan will be beyond their useful life in 2019 and 25 percent of the fleet reported in the state’s plan has been in use for at least a decade. There will be a growing financial gap from year to year associated with the number of vehicles needed to be replaced in order to meet the established TAM targets and the funding levels for vehicles that are currently available.

WisDOT will assist transit providers on how to use the useful life benchmarks established in the TAM Plan to prioritize their vehicle requests at the time of grant application and are working to share best practices on vehicle maintenance across agencies and organizations.

WisDOT will also continue to work closely with its sub-recipients and FTA on any additional asset management requirements or changes and update the TAM targets and plan as necessary.

Public Transit Agency Safety Plans (PTASP)

On July 19, 2018, FTA published the [Public Transportation Agency Safety Plan \(PTASP\) Final Rule](#), which requires certain operators of public transportation systems that receive federal funds under FTA's [Urbanized Area Formula Grants](#) to develop safety plans that include the processes and procedures to implement Safety

Management Systems (SMS).

- The PTASP rule became effective on July 19, 2019.
- FTA published a Notice of Enforcement Discretion on April 22, 2020 effectively extending the PTASP compliance deadline from July 20, 2020 to December 31, 2020.

The plan must include safety performance targets. Find additional guidance on planning and target setting on FTA's [Performance-Based Planning](#) pages. Transit operators also must certify they have a safety plan in place meeting the requirements of the rule by December 31, 2020. The plan must be updated and certified by the transit agency annually.

The rule applies to all operators of public transportation systems that are recipients and sub-recipients of federal financial assistance under the Urbanized Area Formula Program (49 U.S.C. § 5307).

WisDOT worked with a number of large urban systems to create a task group to develop a compliant PTASP template that larger systems could use for their own plan or that smaller systems could use if they decided to have WisDOT write their PTASP.

The template was completed in early CY2020 and sent out to all of the public transit systems that received FTA 5307 funds. WisDOT also sent letters asking systems to either “opt-out” and develop their plan on their own, or to “opt-in” in having WisDOT craft their plan. WisDOT staff has also communicated with MPO and RPC staff on their adoption of PTASP targets into the TIPs. This deadline has been pushed back until June 30th, 2021 due to COVID-19 (or 180 days after the public transit agencies need to finalize their plans). FTA will not approve TIP or TIP amendments if the PTASP targets are not included by the end of June.

WisDOT will assist any agency that needs help with their plans, but the certification of each plan is done by the transit agency, their accountable executive, the board of directors through their individual FTA Certifications and Assurances process each year. WisDOT has no oversight of these plans and is only responsible for the creation of them.

Highway Safety Improvement Program Performance Measures

National Performance Management Measures First Performance Measure Rule (PM1)

The Highway Safety Improvement Program (HSIP) is a core Federal-aid program with the purpose of achieving a significant reduction in fatalities and serious injuries on all public roads. As per 23 U.S.C. 148(h) and 23 CFR 924.15, states are required to report annually on the progress being made to advance HSIP implementation and evaluation efforts.

HSIP Project Prioritization

Wisconsin evaluates potential HSIP projects by comparing the estimated crash reduction benefits expected from the project with the cost of that project. Crash reduction benefits are estimated by multiplying up to two crash modification factors (CMF) by five years of observed crash data. CMFs and target crashes are identified by the safety analyst and a spreadsheet tool is used to calculate the estimated crash reduction benefits. The spreadsheet tool incorporates the WisDOT CMF Table and logic described in our statewide policy described at the following link:

[Crash Modification Factor Policy](#)

A key component in the development of the HSIP is the Project Evaluation Factor (PEF). The PEF is a measurement that is used to evaluate and compare proposed projects. It provides a comparison of the estimated crash reduction potential of a proposed improvement with the overall cost of the project. Although it has similarities to a benefit/cost analysis, it does not include all the elements of a traditional benefit/cost analysis tool for ranking the relative merits of a group of projects and should not be compared to a benefit/cost analysis.

Internal and External Coordination

The HSIP Program is managed by WisDOT's Division of Transportation Investment Management (DTIM) and the Bureau of State of Highway Programs (BSHP). DTIM/BSHP makes all final application approvals or denials and related project change or cost increase requests. However, DTIM/BSHP coordinates its efforts with several internal partners that both, directly and indirectly, influence the decision-making process. Below is a summary of these partners and their role in the program:

- Traffic Safety Council (TSC): The TSC is comprised of representatives from the Division of Transportation System Development (DTSD), DTIM, DMV, Division of State Patrol (DSP), and various Executive Offices within WisDOT. Among this group's responsibilities is developing and maintaining the Wisconsin Strategic Highway Safety Plan (SHSP), which helps guide the safety efforts of the HSIP Program.
- Traffic Safety Engineering Workgroup (TSEWG): TSEWG is comprised of the State HSIP Coordinator, State Traffic Safety Engineer, and the Regional Traffic Safety Engineers. In some cases, the Regional HSIP Coordinators also participate. This group identifies and evaluates potential safety initiatives both within and outside of the HSIP Program, provides peer support, and reviews proposed HSIP projects. After a group evaluation, a recommendation to approve or not approve is forwarded to the State HSIP Coordinator for final review

- **State Project Oversight Engineers:** The State Project Oversight Engineers are a critical component of the joint process with the TSEWG for application review and approval. The DTSD State Project Oversight Engineers, Regional Traffic Safety Engineers, the State Traffic Safety Engineer, and the State HSIP Coordinator provide a consensus approval or disapproval of HSIP funding after a comprehensive in-person peer review. Each Region has one Project Oversight Engineer. State Project Oversight Engineers only review applications originating from the Region in which they are assigned. This consensus approval or disapproval is advisory to DTIM/BSHP.

The HSIP is fully coordinated and integrated with the work of other organizations, associations, and stakeholders (e.g., law enforcement, academia, local governments, and MPOs) that play a role in reducing fatalities and serious injuries. One of the basic foundations of the HSIP is the direct linkage between the data-driven priorities established in the Strategic Highway Safety Plan (SHSP) and the identification, development, and implementation of HSIP projects. Local and regional governments alike both contribute towards achieving the goals and objectives of the SHSP and help guide program decisions and project selections. More specifically, where there is a high percentage of crashes that occur off the state system, WisDOT works with local jurisdictions to help them develop and implement HSIP projects that address priority safety issues on locally-owned roadways. This is either done by locals doing work as local force accounts or they are let by WisDOT. Stakeholders will continue to contribute to and support the goals established in the SHSP. This in turn encourages safety projects that meet established safety performance targets.

Coordination with MPOs and RPCs on safety targets were part of multiple quarterly Directors meetings over the past couple of years. Starting with the Notice of Proposed Rulemaking, Final Rule publication and establishment of WisDOT and MPO safety targets. WisDOT continues coordinating with individual MPOs as they establish their planning area safety targets.

Calendar Year 2021 Targets

Safety Targets are calculated as five-year rolling averages for each performance measure.

Measure	2015 - 2019 Baseline Averages¹	2021 Safety Targets¹
Number of Fatalities	587.8	576.0
Number of Serious Injuries	3050.4	2897.9
Rate of Fatalities per 100 million VMT	0.908	0.890
Rate of Serious Injury per 100 million VMT	4.718	4.482
Number of Non-Motorized Fatalities and Serious Injuries	368.6	350.2

¹Final 2019 FARS data was not available at the time of HSIP target submittal. The historical difference between state fatality data and FARS data was used to adjust 2019 state fatalities data in calculating the fatalities baselines and targets.

HSIP projects are included in the STIP. In addition, safety is a major consideration in the scoping, prioritization, selection, and development of all WisDOT state and local projects. The efforts made toward addressing safety within the HSIP and all projects will continue to impact how progress is made toward achieving Highway Safety Improvement Program performance measure targets.

Pavement and Bridge Condition Performance Measures

National Performance Management Measures Second Performance Measure Rule (PM2)

Pursuant to the regulations promulgated by the U.S. Department of Transportation Federal Highway Administration (FHWA), the Wisconsin Department of Transportation (WisDOT) has established statewide targets for federal performance measures intended to assess pavement and bridge conditions on the National Highway System (NHS). The 2019 and 2021 NHS pavement condition targets are identified in Exhibit A. The 2019 and 2021 NHS bridge condition targets are identified in Exhibit B.

Exhibit A

Wisconsin Department of Transportation NHS Pavement Condition Targets

Measure	2-Year Target (2019)	4-Year Target (2021)
Interstate – Percentage pavements in “Good” condition	NA*	≥ 45%
Interstate – Percentage pavements in “Poor” condition	NA*	≤ 5%
Non-Interstate NHS – Percentage pavements in “Good” condition	≥ 20%	≥ 20%
Non-Interstate NHS – Percentage pavements in “Poor” condition	≤ 12%	≤ 12%

* Targets not required per rule.

Exhibit B

Wisconsin Department of Transportation NHS Bridge Condition Targets

Measure	2-Year Target (2019)	4-Year Target (2021)
Percentage of NHS bridges by deck area in “Good” condition	≥ 50%	≥ 50%
Percentage of NHS bridges by deck area in “Poor” condition	≤ 3%	≤ 3%

Wisconsin’s State Trunk Highway (STH) system continues to support the state’s economy, the mobility needs of Wisconsin citizens and the broader public good. The WisDOT owned STH System currently encompasses 11,787 center-line miles and 5,305 bridges.

The NHS is a high priority subset of the STH system, representing nearly 45% of STH center-line miles and carrying 80% of STH vehicle miles. The state-owned STH system includes approximately 5,310 NHS center-line miles along with 3,275 NHS bridges. There are also 649 NHS center-line miles and 310 NHS bridges under the jurisdiction of local governments in Wisconsin.

WisDOT manages and prioritizes investments of the roadway and bridges using data-driven analysis with the goal of allocating funding to the “right” place, at the “right” time and for the “right” type of improvements. Flexible and responsive planning, budgeting and project delivery processes ensure WisDOT makes the best possible use of the resources available. By implementing the data-driven set of NHS infrastructure investments, WisDOT fully expects its NHS pavement and bridge condition targets will be met.

Federal law requires each state DOT to document its 10-year investment plan for the NHS in a Transportation Asset Management Plan (TAMP). The NHS investment plan presented in the TAMP must be constrained by the level of funding expected to be reasonably available. Each state DOT must also develop targets for NHS pavement and bridge conditions, demonstrate their NHS

investment plan was developed using sound asset management processes, and document whether the plan will allow their NHS pavement and bridge targets to be met.

Wisconsin's TAMP can be found on the WisDOT internet site:

[Transportation Asset Management Plan \(TAMP\)](#)

There is a direct relationship between the TAMP and the STIP, with the STIP providing further assurance that the TAMP will be implemented over time.

System Performance, Freight Movement, and Congestion Management Air Quality Performance Measures

National Performance Management Measures Third Performance Measure Rule (PM3)

Pursuant to the regulations promulgated by the U.S. Department of Transportation Federal Highway Administration (FHWA), the Wisconsin Department of Transportation (WisDOT) has established statewide targets for the federal performance measures intended to assess the performance of the National Highway System, freight movement on the Interstate System and Congestion Mitigation and Air Quality (CMAQ) Improvement Program. WisDOT and the Southeastern Wisconsin Regional Planning Commission (SEWRPC) collectively agreed to unified targets for the Peak Hour Excessive Delay (PHED) measure and the Non-Single Occupancy Vehicles (Non-SOV) measure for the Milwaukee urbanized area. The 2019 and 2021 targets for the six performance measures are identified in Exhibit C.

Additionally, WisDOT coordinated with the Minnesota Department of Transportation (MnDOT) and the Metropolitan Council (Council), Minneapolis-St. Paul metropolitan area MPO, to establish PHED and Non-SOV performance measures. The PHED and Non-SOV targets which MnDOT, WisDOT and the Council collectively established are included in Exhibit D.

The system performance, freight movement and CMAQ measures were analyzed with the establishment of a PM3 Workgroup consisting of WisDOT (central office), Region and SEWRPC staff members. The PM3 Workgroup then provided target recommendations to WisDOT management for input and approval.

The reliability measure uses the National Performance Management Research Data Set (NPMRDS). Due to a new data provider and methodologies, only one year of NPMRDS data was available at the time the PM3 measures were required to be established. The PM3 workgroup continues to monitor and analyze the PM3 measures and targets as NPMRDS data becomes available.

The reliability measures are based on the following metrics:

- **Travel Reliability Metric:** *Level of Travel Time Reliability (LOTTR)* = the 80th percentile travel time divided by the 50th percentile travel time. Road segments with a LOTTR less than 1.5 were deemed reliable.
- **Freight Reliability Metric:** *Truck Travel Time Reliability (TTTR)* = 95th percentile travel time divided by 50th percentile travel time. Lower TTTRs relate to being more reliable.

The PHED targets were established as required using the following datasets: NPMRDS, Highway Performance Management System (HPMS), WisDOT travel data, posted speeds, and SEWRPC modeling data.

Exhibit C

Wisconsin Department of Transportation

Measure	2017 Results	2-Year Target (2019)	4-Year Target (2021)
Travel Reliability			
1) Percent of person-miles traveled that are reliable on the Interstate	97.9%	94.0%	90.0%
2) Percent of person-miles traveled that are reliable on Non-Interstate NHS	93.9%	NA *	86.0%
Freight Reliability			
3) Truck Travel Time Reliability Index on the Interstate	1.16	1.40	1.60
Peak Hour Excessive Delay			
4) Annual Hours of Peak Hour Excessive Delay per Capita on NHS routes in the Milwaukee Urbanized Area	8.96 Hours per capita	NA *	8.6 Hours per capita
Non-SOV Travel			
5) Percent of Non-SOV Travel on NHS routes in the Milwaukee Urbanized Area	20.3% (2016)	20.2%	20.1%
Emission Reductions			
6) Total Emissions Reductions in nonattainment or maintenance areas for:			
• VOC	41.754 Kgs	12.154 Kgs	30.123 Kgs
• NOx	89.747Kgs	90.354 Kgs	150.388 Kgs
• PM2.5	5.287 Kgs	9.043 Kgs	13.820 Kgs

Exhibit D

Minneapolis-St. Paul-MN-WI Urbanized Area

Measure	2017 Results	2-Year Target (2019)	4-Year Target (2021)
Peak Hour Excessive Delay			
4) Annual Hours of Peak Hour Excessive Delay per Capita on NHS routes in the Minneapolis-St. Paul Urbanized Area	8.65 Hours per capita	NA *	8.50 Hours per capita
Non-SOV Travel			
5) Percent of Non-SOV Travel on NHS routes in the Minneapolis/St. Paul Urbanized Area	23.2% (2016)	25.0%	25.0%

* Targets not required per rule

The Non-SOV targets were established using the U.S. Census Non-SOV data and analyzing the previous five years of Non-SOV percentages for the Milwaukee and Minneapolis/St. Paul urbanized areas.

CMAQ Public Access System data was used to determine the Emission Reduction targets. The Public Access System data includes estimated emission reductions for projects funded by the FHWA CMAQ program. FHWA CMAQ funding is limited to projects that are within an air quality non-attainment or maintenance area.

WisDOT will continue to monitor all PM3 measures and use the results to include project development and strategies to meet the established targets.

WisDOT's Federal Performance Measure Webpage

More information on WisDOT's Federal Performance Measures can be found at:
[WisDOT - Federal Transportation Performance Measures](#)

Summary of Public Comments on the Draft STIP

No comments were received on the 2021 – 2024 Draft STIP within the 30-day public comment period ending December 6, 2020.

STIP Amendments

The STIP is approved by WisDOT, FHWA, and FTA. Throughout the year, it may be necessary to amend the 2021 – 2024 STIP to incorporate projects not included in the original project listing. The following are changes that may necessitate a STIP amendment: significant change in the scope and/or cost of a project, changing the letting date of a project beyond the four year STIP period, adding/advancing a project to the STIP, etc.

All such amendments will be added to the STIP webpage for record-keeping purposes:
<https://wisconsindot.gov/Pages/doing-bus/local-gov/astnce-pgms/highway/stip.aspx>.
