Re: Erosion Control Product Acceptability Lists for Multi-Model Applications (PAL)

Synopsis of Changes for December 2008

1. Western Excelsior EXCEL SS-2 All Natural approved for Class I Type B, Urban category
2. Propex Pyramat reclassification from a Class III C to a Class III D category
3. Propex LandLok 300 approved for Class III Type C category
4. North American Green WS-12 straw wattles approved for Temporary Ditch Check category
5. Rhino King interim approval for Class I Type A category
6. Rhino King II interim approval for Class I Type B category
7. Inlet & Pipe Protection's FlexStorm, WisDOT Model approved for Inlet Protection Type D
8. Interim approval has been discontinued. All new submittals will not be eligible for interim approval
9. Soil loss rate set at a maximum of 50% for Soil Stabilizer Type B or a C Factor of 0.50
10. Change allowable soil loss in channel testing from ½ inch to 0.50 inch.
11. Note added to Airtrol Plaster listing in Soil Stabilizer Type B clarifying that the use of this product is to be in addition to wood mulch not as a stand-alone product.
12. Corrections to various American Excelsior product listings.

Sincerely,

Peter Kemp, P.E.
Chair, ECSW PAL Committee
