

**PROJECT I.D. 2230-14-00
 GREENFIELD AVENUE
 (124TH STREET - IH 894)
 STH 59
 MILWAUKEE COUNTY**

LEVEL OF SERVICE	SIGNALIZED INTERSECTIONS
A	Describes intersections with very low levels of delay (average less than 10 seconds per vehicle).
B	Describes intersections with low levels of delay (average ranging from 10 to 20 seconds per vehicle).
C	Describes intersections with average levels of delay (average ranging from 20 to 35 seconds per vehicle). Waiting through more than one cycle may appear at this Level of Service.
D	Describes intersections with mild levels of delay (average ranging from 35 to 55 seconds per vehicle). Traffic congestion is noticeable.
E	Describes intersections with increased levels of delay (average ranging from 55 to 80 seconds per vehicle). Considered to be the limit of acceptable delay by most agencies.
F	Describes intersections with high levels of delay (average ranging more than 80 seconds per vehicle). Considered to be an unacceptable level of service by most drivers. The number of vehicles entering the intersection exceeds the capacity of the intersection.
