

Alternatives 1 and 5 Comparison

◆ Socioeconomic Issues

- Alternative 1 has 20 displacements (11 residential, 9 commercial)
- Alternative 5 has 21 displacements (20 residential, 1 commercial)
- The key difference between the two is Alternative 5 is aligned through a neighborhood while Alternative 1 affects the edges of neighborhoods

◆ Environmental Issues

- Alternative 5 has minimal environmental issues and is viewed by the DNR and COE as the wetland avoidance alternative
- Alternative 1 would affect Plum Creek wetlands and will require coordination with both agencies to gain approval
