October 20, 2018 is National Move Over Day. A reminder that when you see emergency or service vehicles on or along the road with warning lights on, to slow down and move over. This includes our Fire Departments, EMS Units, Law Enforcement, Highway Crews and Tow Services! Please do your part and help keep our first responders and other highway service personnel safe!

We have already experienced several incidents in Grant County of drivers not moving over. A Grant County Squad was struck and numerous Fire Departments and Tow Truck Operators have had close calls. Do your part and spread the message.

Today is national move over day. The goal is to bring awareness to the law that requires vehicles to slow down and move over (if possible) when approaching an emergency vehicle that's stopped on the side of the road. Every year multiple officers, firefighters, tow truck drivers and highway maintenance workers are accidently struck and killed by passing cars on the roadways. Sgt. Fristed would like to return home to his wife and children at the end of every shift. Help save a life by slowing down and moving over.

MOVE OVER OR SLOW DOWN

Saturday, Oct. 20, 2018, is National Move Over Day. When approaching law enforcement or other emergency vehicles, tow trucks, road machinery, highway construction or maintenance vehicles, public utility, telecommunication carrier or cooperative association vehicles stopped on or near a highway and using flashing warning lights, you must move into a lane not nearest the stopped vehicle and travel in that lane until you have safely passed the stopped vehicle(s). If it is unsafe to move into another lane, slow down until you have safely passed the stopped vehicle(s).

National Move Over Day!

In Wisconsin, drivers must provide a safety zone for stopped law enforcement, emergency and maintenance vehicles.

To help safeguard law enforcement officers, emergency responders, road maintenance workers, and others who work on the side of highways, Wisconsin has a "Move Over Law."

The law requires drivers to shift lanes or slow down in order to provide a "safety zone" for a squad car, ambulance, fire truck, tow truck, utility vehicle, or highway maintenance vehicle that is stopped on the side of a road with its warning lights flashing.

Drivers have two options for creating a safety zone:

** If the road has more than one directional lane, like the Interstate, and you can switch lanes safely, you must move over to vacate the lane closest to the law enforcement or other vehicle with its lights flashing.

** If the road has a single directional lane or you can't safely move over, you must reduce your speed.

Failure of motorists to move over is one of the reasons that motor vehicle crashes kill more law enforcement officers on duty than any other cause.

[#MoveOver](#) for Sergeant Travis Kakuske - On August 27, 2014, just before midnight, Middleton police officers were at the scene of a crash on the Beltline at Greenway Blvd when a vehicle struck a fully marked squad car with its emergency lights activated. The driver was taken to the hospital for treatment & arrested for 4th offense operating while intoxicated. Luckily, the squad car was unoccupied at the time of the crash, so no officers were injured but the squad sustained significant damage.

Adams County Sheriff's Office

October 16 at 9:00 AM · 🌐

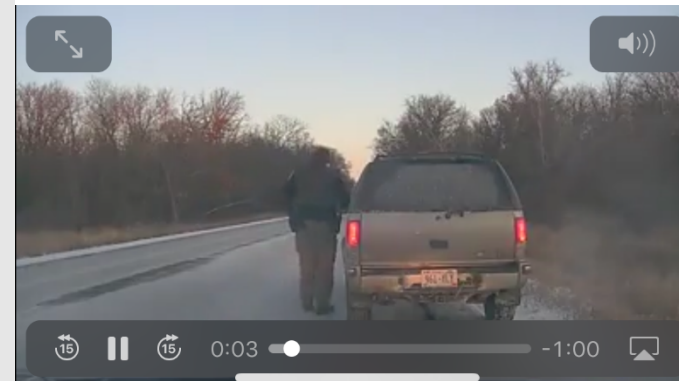

This Saturday, October 17, 2020 is National Move Over Day. The Adams County Sheriff's Office is participating in this national awareness campaign to help make drivers aware of their responsibility when approaching stopped emergency vehicles on the roadway.

Every year, law enforcement officers, fire fighters, emergency medics, highway workers, and tow truck operators are injured or killed on Wisconsin's roadways by drivers who fail to move over. Our first responders frequently work in dangerous conditions which is why it is so important for drivers to understand their responsibility to move over or slow down when encountering these situations.

Motorists who encounter a stopped emergency vehicle or roadside service vehicle must move into a lane that is not the lane nearest the parked or standing vehicle. Stay in the alternate lane until you pass the emergency or service vehicle. If the motorist cannot change lanes, then they must slow their vehicle and carefully proceed. Penalties include a fine of \$263.50, 3 points and license suspension.

Please remember to always pay attention to the roadway when driving and avoid distractions.

Sheriff Brent York

Winnebago Co Sheriff's Office

Winnebago County, Wisconsin Sheriff's Office

3h · 🌐

Today is [#slowdownmoveover](#) day, where we will take a minute to emphasize the law in Wisconsin. Simply put, drivers must provide a safety zone for stopped law enforcement, emergency and maintenance vehicles.

The law requires drivers to shift lanes or slow down in order to provide that safety zone for a squad car, ambulance, fire truck, tow truck, utility vehicle, or highway maintenance vehicle that is stopped on the side of a road with its warning lights flashing.

Drivers have two options for creating a safety zone:

If the road has more than one directional lane, like the Interstate, and you can switch lanes safely, you must move over to vacate the lane closest to the law enforcement or other vehicle with its lights flashing.

If the road has a single directional lane or because of heavy traffic you can't safely move over, you must reduce your speed.

Everyone wants to go home safely.

Today is [#NationalMoveOverDay](#)! Help us bring awareness to the move over law in Wisconsin.

The Move Over law (346.072) requires drivers to move out of the lane closest to stopped law enforcement vehicles, ambulances, fire trucks, tow trucks, utility or highway maintenance vehicles that have their warning lights activated. If unable to move over, vehicle operators must slow down. Violations can result in a citation of \$263.

This law is intended to keep drivers alert so all emergency responders, highway maintenance workers, tow truck operators, and utility workers get home safe every day. Thank you!

Today is National "Move Over, Slow Down Day" and we are asking you to do exactly that, each and EVERY day! When out on the roadways, please make every effort possible to MOVE OVER and SLOW DOWN for all fire, EMS, law enforcement and tow service personnel who are out doing their jobs. Put down the phones, reduce distractions and pay attention so that emergency service personnel can return home safely to their loved ones. #MoveOver #SlowDown

Today is National Move Over Day. Every year emergency responders across our country are injured or killed while responding to emergencies on roadways. Today, we are joining departments across the country in bringing awareness to this problem. Please, if you approach an emergency scene, slow down, move over and pay attention to your driving. We all have loved ones waiting for us to come home after every call. #slowdown #moveover

Raymond Fire and Rescue Dept.

National Move Over Day

Saturday, October 17, 2020

Raymond Fire and Rescue Department covers rural roads and county highways. However, the most dangerous area of coverage is part of the I-94 corridor. Keep emergency personnel safe by moving over and slowing down when you see emergency lights. The Raymond Fire and Rescue Department members have families waiting for their return.

Chief Adam Smith
