### WorkAround

## Issue # 2899

Alcohol Form: When tabbing through Additional Information section, it will skip from Arrest Time to Select All that Apply. It skips over the Traffic related field. The tab order for the Additional Information section needs to be gone through entirely. it skis all over the place. If on Traffic related it will skip down to suspected drugs. If on the cancel drift test.. that will skip back to the Traffic related field. Please just go through whole section.

### Date Issue Added

01-Apr-19

### WorkAround

**Issue # 2898**

Citizen Contact: Tabbing through form, when you get to the Individual's Actions section and tab off the 'Traffic' field it will skip past the first four fields in the Vehicle section and go right to Expiration year. If you start at the license plate number field and tab through it will jump from Country of Issuance to the VIN number.

#### WorkAround

### Issue # 2824

Crash Form: Drivers Exchange Report: Fixed missing owner box.

#### Date Issue Added

01-Feb-19

#### WorkAround

Fixed in Jun 2019

### Issue # 2818

USDOT number fields limited to 8 characters. The following forms were affected; Crash, Alcohol, Warning, ELCI, and Inspection

#### Date Issue Added

25-Jan-19

#### WorkAround

Do not enter a USDOT number greater than 8 numbers in length

### Issue # 2563

Crash Form: Bug in the crash form wipes out all the units Sequence of Events entries. Causing a validation error.

#### Date Issue Added

16-Aug-18

#### WorkAround

Manually add in 4 Sequence of Events groups to the form for each unit. Also, if someone could figure out the steps to recreate the removal of the seqence of events and send that to Badger TraCS that would help narrow down the issue and fix it faster.

**Issue # 2477**

Clifton Township does not populate the DMV Municipality when on the St. Croix River.

**Date Issue Added**

29-May-18

**WorkAround**

Use the Override feature.

**Issue # 2419**

LOG.MDB file too large and it would not transmit nor end\_shift into database.

**Date Issue Added**

03-May-18

**WorkAround**

Call Badger TraCS

**Issue # 2417**

WIBRS sections in the NTC not working properly

**Date Issue Added**

03-May-18

**WorkAround**

Add the groups in manually

**Issue # 2201**

narrative on ELCI officer report moves to page 2 when it has about 1500 characters. It does not split between page 1 and 2

**Date Issue Added**

29-Aug-17

**WorkAround****Issue # 2164**

ELCI: If the "Structure Type" field has "No Structure" then disable Structure Number field. The reason is because there is a rule stating you can't have something in the Structure Number field if Structure Type says No Structure.

Deleting Amended Crash when the original is in Archive is problematic

**Date Issue Added**

27-Jun-17

**WorkAround**

Do not delete amended crash forms when the original is archived.

**Issue # 2058**

Start shifting archived forms causes the form to lock in the archive. It then cannot be unlocked or unarchived. The start shift does not work. There is no alert to let an office staff know they are start shifting an archived form

**Date Issue Added**

05-Jun-17

**WorkAround**

Start shifting archived forms causes the form to lock in the archive. It then cannot be unlocked or unarchived. The start shift does not work. There is no alert to let an office staff know they are start shifting an archived form

**Issue # 1997**

Hello, we received an email this morning asking why when a company(non-individual) a citation and the import button is used for the contact summary no information is pulled over. It appears both unit and individual are tied together as an all or nothing import. Would it be possible to separate that import to bring in unit information even if a non-individual was issued a citation? Just curious.
