

1. What types of vehicles are eligible?

Auto and light truck registered vehicles, heavy trucks and truck tractors registered at 54,000 lbs and under and trailers registered at 80,000lbs and under, when registered annually are eligible for Fleet plates.

2. What plate/registration types are eligible?

The following plates/registration types are eligible.

PLATE DESCRIPTION	PLATE TYPES	REGISTRATION TYPE
Automobile	FLT	AUT
Trailer - heavy	TLF	TRL (when registered annually)
Truck - heavy	HTF	HTK (when registered annually)
Truck - light	FLT	LTK
Truck tractor	TRF	TOR (when registered annually)

3. Who can participate?

A Non-Individual customer who has ten or more qualifying vehicles registered to them. For questions contact eMV Fleet at DOTEMVFLEET@dot.wi.gov

4. What forms of payment are accepted?

Payments are done through an ACH (Automated Clearing House) account, so WisDOT can draw the required fees from the account. The money will be drawn from your account at the end of the business day that renewal transactions were completed.

5. Who do I contact if I have a problem with e-MV Fleet?

You would contact eMV Fleet at DOTEMVFLEET@dot.wi.gov

6. Can a vehicle with a fleet plate be renewed via a different method; i.e. at a DMV Service Center, online, etc.?

No, one of the requirements of fleet plates is that you will renew them using the eMV Fleet renewal system for all renewals, for questions contact eMV Fleet at DOTEMVFLEET@dot.wi.gov

7. How are e-MV Fleet participants notified of license plate renewals?

Participants will be notified via e-mail at the address they provided when setting up their fleet. They will no longer receive a paper renewal notice/statement for vehicles that have been placed in an e-MV fleet. They will continue to receive paper renewal notices/statements for vehicles that are not part of an e-MV fleet.

8. How soon can a vehicle be added to a fleet?

Vehicles can be added to a new fleet after WisDOT receives the signed agreement, the permissions/roles have been assigned, and the bank account (ACH - Automated Clearing House) and contact information is provided. Permissions/roles are added within two business days of receiving the e-MV Fleet Application Form.

For any newly purchased vehicles, once the transfer has been completed the participant can add the vehicles to their fleet.

9. What happens if the Adobe PDF file does not generate?

If the Adobe PDF file does not generate, contact eMV Fleet at DOTEMVFLEET@dot.wi.gov

10. Can replacement Fleet plates be issued in e-MV Fleet?

Replacement fleet plates can be requested as part of the renewal process when currently registered with fleet plate, and can also be requested at any time with the completion of the [MV2118](#) - Duplicate or Replacement License Plate application, available on our website.

11. Can a Fleet plate be cancelled within e-MV Fleet?

No. The owner of the fleet plate must complete an [MV2514](#) License Plates Cancellation Application to request cancellation of a plate. There is no fee to cancel a fleet plate.

12. How long can a fleet plate remain expired within e-MV Fleet before it is automatically removed?

The participant can remove a vehicle from the fleet at any time. If the license plate associated with the vehicle has an annual registration that has been expired for more than 3-years the e-MV Fleet program will automatically remove the vehicle from the participant's fleet.

13. What happens if I renew a Fleet plate vehicle in error?

If you notice the vehicle was renewed in error on the same day you processed the renewal you can reset the transaction up until 7pm.

If you catch it after the day, it was renewed contact eMV Fleet at DOTEMVFLEET@dot.wi.gov

14. Is e-MV Fleet mandatory?

yes, participation in the e-MV Fleet Program required when you have fleet plates. This system is designed to allow participants to manage multiple fleets of vehicles that contain 1 to 200 vehicles per fleet.

15. When will 55,000 lb. plus vehicle be included for Fleet plates?

Until the IRS (Internal Revenue Service) makes proof of HVUT (Heavy Vehicle Use Tax) available to WisDOT electronically, vehicles requiring proof of HVUT will not be allowed in an e-MV Fleet or to have fleet plates.

16. What changes can I make to registrations with Fleet plates?

The e-MV Fleet program allows for:

- a. the renewal of license plates, and/or
- b. ordering replacement license plates for eligible plates as part of the renewal process.
- c. changing the location of where the vehicle is kept in—county and/or city, village, town
- d. update vehicles fleet number

Any other changes to a registration would need to be made through the regular course of business with the DMV.
