Project Requested By or Purpose
Specialty service master contract to provide value engineering services on various highway improvement projects statewide. Work orders will be negotiated under this master contract to provide engineering services on an as-needed basis. No work orders will be issued after June 30, 2014.

Work Consists of
Providing professional engineering services which will include assisting in planning and organizing value engineering teams, leading the team during the study, using matrix or ranking methods to analysis life cycle and costs, preparing the final report with recommendations.

Consequences - If Not Approved
Establishing specialty service master contracts for value engineering services has been identified as a key element in the Department's delivery of new highway improvement projects.
