For questions contact the Region Environmental Coordinator (REC) or the Bureau of Technical Services, Environmental Process and Documents Section (BTS-ESS) liaison.

A separate Factor Sheet must be completed for each resource identified for each resource identified for each alternative carried forward for detailed analysis that impacts the factor being discussed. If impacts are identical between alternatives, clarify in the Alternatives box above which alternatives are included in the discussion on this sheet. If there are more than one factor not covered in the defined Factor Sheets, complete a separate sheet for each one for each alternative and indicate in the Alternatives box above.

The information on this Factor Sheet must be consistent with the information included in the environmental document template and any other related Factor Sheets.

1. Resource or property being impacted:

2. Location:

Provide a map of the area with the resource or property clearly indicated along with the project extent and indicate where it is attached in the document.

3. Impacts to resource or property:

4. Describe the proposed alternative's effects on this resource or property (A map, sketch, plan, or other graphic which clearly illustrates the project's use and impacts on the resource or property must be included):

5. Briefly describe which measures will be used to avoid, minimize, or compensate for unavoidable adverse impacts or enhance beneficial effects:

6. Briefly summarize the results of coordination with other agencies that were consulted about the project and its effects on the resource or property:

All environmental commitments made to avoid, minimize or compensate for impacts must be included in Question 23 of the ER and EA Template, Section 5 of the PCE Template or Question XII of the CEC Template.
