

Below is a *partial* list of items WisDOT evaluates firms on during the Engineering Opportunity Day interview.

What is the firm's work experience and quality working with WisDOT?

If the firm has not worked for WisDOT recently, how does its other experience relate to WisDOT projects and does the firm understand WisDOT processes?

What is the firm's experience meeting project timelines and did the firm demonstrate the ability to meet project deadlines in the future?

Does the firm have experience coordinating with other agencies?

What are the staff qualifications and availability?

Does the firm provide the following services:
