

Public Involvement

WIS 22
WIS 156 to Lake Wagner Road
Waupaca County
Project ID 6250-02-03

March 20 to April 18, 2025

Deaf, hard-of-hearing, deaf-blind, and speech-disabled persons should contact the Wisconsin Relay Service for assistance by dialing 711.

Purpose

Our objective is to obtain your input on the identified needs, proposed improvements, and real estate needs along WIS 22 between WIS 156 and Lake Wagner Road in the city of Clintonville and village of Embarrass, in both Shawano and Waupaca counties.

Project information

The project consists of improving 4.42 miles of WIS 22.

This section of WIS 22 connects smaller communities together. The proposed work on WIS 22 will address the aged and deteriorated pavement and curb and gutter, add pavement marking, modify intersections, and upgrade curb ramps to provide the public a safe facility.

Proposed improvements include:

- 5.5-inch mill and overlay in the city of Clintonville, from the beginning of the project at Green Tree Road, to approximately 50 feet north of WIS 156, for approximately 0.57 miles.
- 1.5-inch mill, 3-inch cold-in-place recycle and a 3.25-inch overlay of new asphalt pavement in the rural portions of the project. The rural portions are between Clintonville and Embarrass, and north of the Embarrass village limits to the end of the project at Lake Wagner Road.
- The pavement will be replaced in the village of Embarrass with 16-inch subgrade, 12-inch base, 5.5-inch new asphalt pavement, and new concrete curb and gutter. The road will be narrowed from its existing width of 44 feet to a width of 32 feet. Curb ramps will be updated to meet current ADA standards. The village of Embarrass will be replacing their sanitary sewer and water utilities.
- The intersection of WIS 22 and Main Street in the village of Embarrass has experienced crashes caused by southbound vehicles on WIS 22 turning right (westbound) to remain on WIS 22. The curb and gutter and pavement markings will be modified to allow for better traffic flow for larger vehicles through the intersection.

The environmental document was approved in April 2024. The project has been screened by WisDOT for archaeological and historical impacts.

Proposed traffic impacts

Work will be done under traffic using lane closures and flagging operations for the Clintonville and rural portions of the project. A detour will be used while the work within the village of Embarrass is performed. The detour route will utilize WIS 29, WIS 47, and WIS 54.

Real estate

Additional right of way will be required for this project. Temporary limited easements (TLEs) will be necessary at a majority of the curb ramp locations to accommodate construction of the new curb ramps. TLEs will be needed to allow for minor grading to blend slopes and match the work into existing yards. TLEs will also be acquired to allow room for temporary pedestrian accommodations during construction. Permanent (fee) acquisition is necessary at a few curb ramp locations. WisDOT expects to begin real estate acquisition in Spring 2025.

Project update/next steps

Final right of way plat	Winter 2024 – Spring 2025
Public Involvement #2	March – April 2025

Real estate negotiations	Spring – Fall 2025
Final plans	August 2025
Construction currently scheduled	2026

Public input/comments

Your comments assist us in developing a project that will serve the needs of the traveling public as well as the needs of the local community. Your input is welcome and appreciated throughout the design process.

There are several ways to submit your input by **April 18, 2025**:

1. Fill out the comment form attached to this handout and mail it to WisDOT
2. Complete the fillable online survey on the project website:
<https://wisconsindot.gov/Pages/projects/by-region/nc/wis22waupaca156/default.aspx>
3. Email comments or questions to the contacts listed below

Deaf, hard-of-hearing, deaf-blind, and speech-disabled persons should contact the Wisconsin Relay Service by dialing 711.
