

WIS 54 Project Update Handout

**New London–Shiocton
West County Line–Park Avenue
WIS 54
6230-16-00
Outagamie County**

January 2022

This handout and other items are available on the project design website at:

<https://wisconsindot.gov/Pages/projects/by-region/ne/54wcl2park/default.aspx>

Thank you for your interest in this project. We look forward to your feedback.

Introduction

The Wisconsin Department of Transportation (WisDOT) thanks you for your interest in the proposed resurfacing and culvert replacement on WIS 54 from the west county line to Park Avenue in the town of Liberty and village of Shiocton, Outagamie County.

The following provides updated information on the proposed project and its potential impacts. A previous public involvement meeting was held on April 4, 2019.

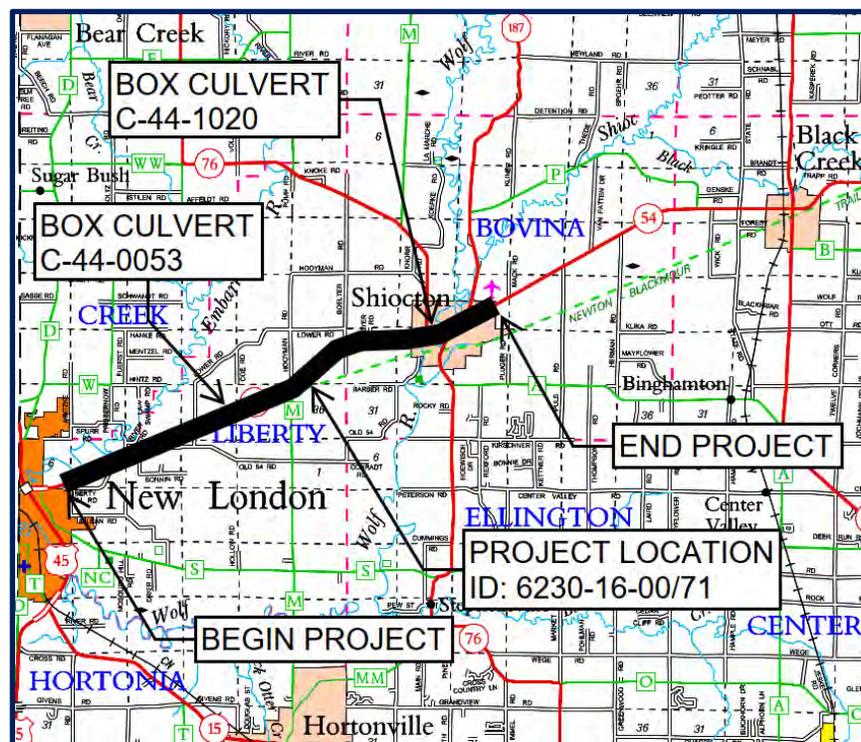

We want your comments

A public input form is attached to this handout for written comments. We appreciate your input and encourage you take a moment to complete the form. The comment form is a pre-paid mailer and may be folded and sent in the local mail. You can also comment via email or call one of the project contacts.

Project location and limits

The project is located on WIS 54 in the town of Liberty and village of Shiocton. The project limits run for approximately 8.8 miles starting just west of House Road and ending at Park Avenue. Construction is tentatively scheduled for 2025 but could be advanced to 2024 if funding becomes available.

WIS 54 Location Map

Proposed improvements

The proposed improvements for WIS 54 include:

- Mill (4 inches) and overlay (4 inches) of the existing asphalt pavement
- 3' to 5' paved shoulder widening
- Shoulder gravel as needed
- Spot culvert pipe replacements
- Spot storm sewer replacements
- Guardrail replacements
- Curb and gutter spot repair as needed
- Addition of centerline and shoulder rumble strips

- Replacement of curb ramps within the village of Shiocton
- Replacement of a wingwall on box culvert C-44-0085
- Replacement of box culvert C-44-1020
- Pavement marking

Right of way needs

Right of way acquisition and temporary grading easements will be required for the project.

Schedule

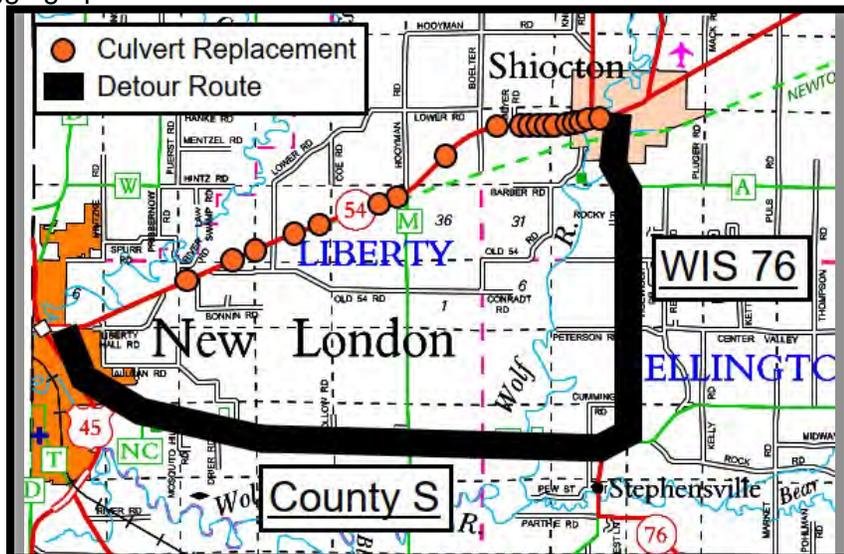

- Design is on-going and will continue through May 2023.
- Real estate acquisition is anticipated to begin early 2022.
- Construction is tentatively scheduled for 2025 but could be advanced to 2024 if funding becomes available.

Traffic control

Two separate detours routes are proposed for culvert work. One for culvert replacements and one from box culvert replacement in Shiocton. The roadway will remain open to traffic during the resurfacing using lane closures and flagging operations.

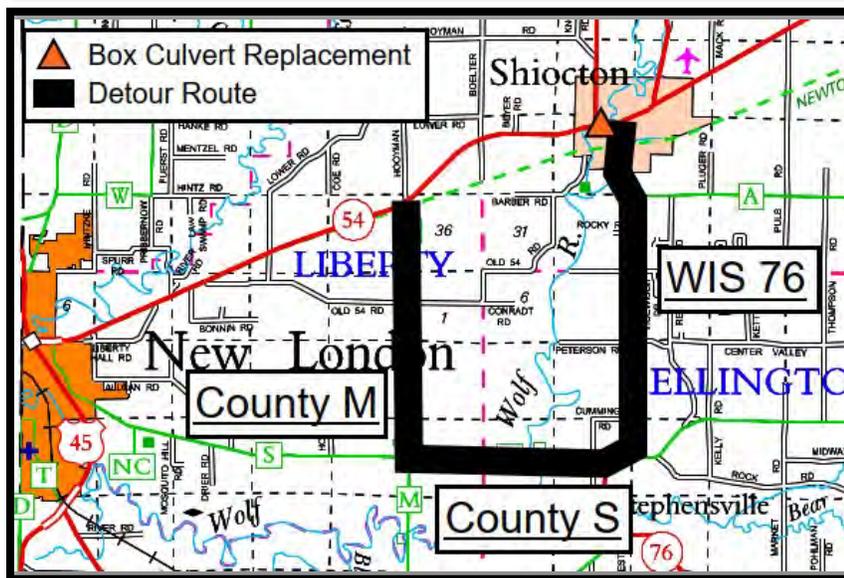

Culvert Replacement Detour Route

A detour will be in place to replace numerous culvert(see map). The proposed detour uses WIS 76 and County S. Culvert replacement work is anticipated to take approximately 4 weeks to complete.

Box Culvert Replacement Detour Route

A detour will be in place during box culvert replacement in Shiocton (see map). The proposed detour uses WIS 76, County S and County M. The box culvert replacement work is anticipated to take approximately 8 weeks to complete.

“In This Together” program for businesses

WisDOT recognizes businesses located in work zones have special needs. It's critical that customers have access to businesses and that they continue to visit them, regardless of any road work inconvenience. WisDOT's In This Together program is offered to business and community leaders as an idea source as they plan for road construction in their area. It includes:

- Specially designed guide for businesses with information on:
 - Planning ahead for construction
 - Staying informed
 - Keeping customers informed
 - Tips for businesses
- Case studies that demonstrate successful business outreach
- Promotional examples of how businesses have promoted their businesses during construction.
- In This Together website: <https://wisconsin.dot.gov/together>

During construction, temporary signing for business will be available. While signing and other marketing/advertising during the construction is up to the business, WisDOT encourages businesses to use the resources above to assist them with planning for construction before the construction begins.

Public input/comments

Your input is welcome and appreciated throughout the design process. Please comment in any of the below methods.

- Fill out the comment form attached to this document and mail to WisDOT
- Email comments or questions to the contacts listed below.
- Call any of the contacts below
