# WIS 96 (Wisconsin Avenue) Improvement Project

## Casaloma Drive to North Badger Avenue

**Project background:** The project is a pavement resurfacing project that will consist of a mill and overlay of the existing pavement with concrete patching as needed from Casaloma Drive to Lynndale Drive and reconstruction of the railroad crossing just west of North Badger on Wisconsin Avenue. Minor concrete patch repairs will take place between Lynndale Drive to Badger Avenue.

**Project update: Pedestrian access:** Railroad work will result in THE FULL CLOSURE OF SIDEWALK FOR SIX DAYS in late summer or fall of 2026. No pedestrian detour will be provided during the six-day closure. Valley Transit route 12 will continue to operate and pedestrians will be able to use bus stops on both side of the closed sidewalk to get across the closed sidewalk. Bus stop locations are noted below.

**Vehicle detour** will use WIS 47 (N Richmond Street), WIS 125 (W College Avenue), and County A (Lynndale Drive).
