US 10 Lindsay Creek Bridge

Trempealeau County

Rehabilitation Project Information Presentation

Fall 2024

Project Team

- David Koepp, PE – Project Supervisor
- Nicholas Spitzer, PE – Project Manager
- Kevin Meyer, PE – Project Design Leader

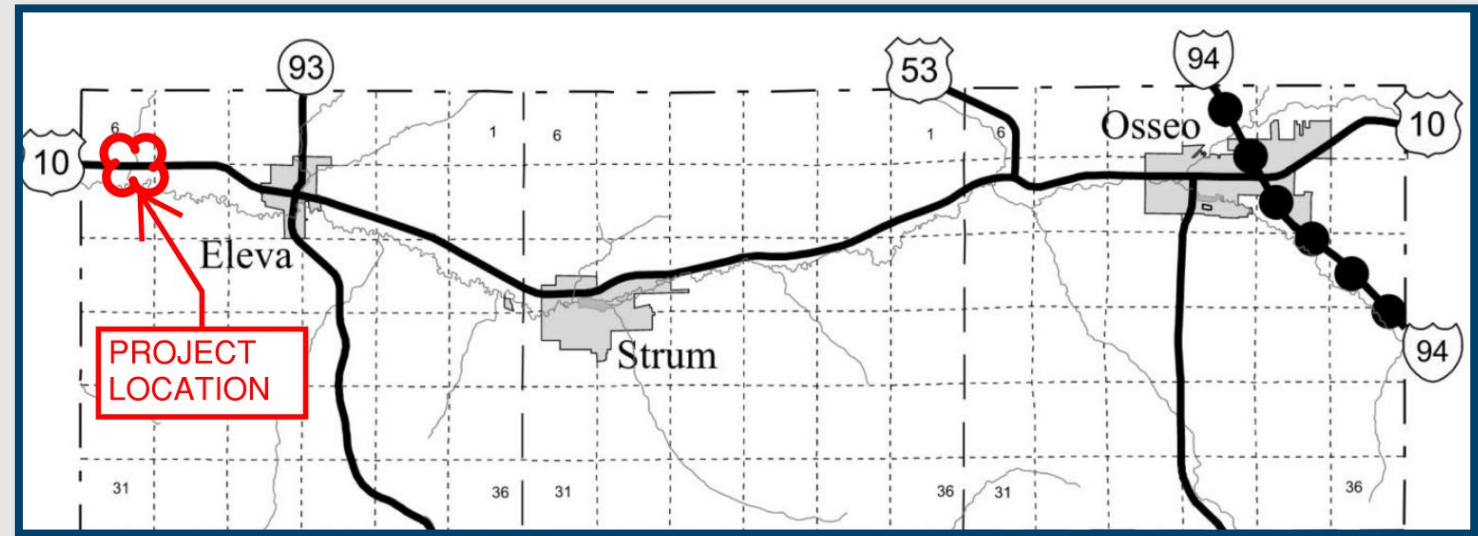

Agenda

- Project Location
- Project Needs
- Proposed Improvements
- Traffic Impacts
- Schedule
- Contact Information
- Public Comments

Project Location

- Structure B-61-0882
 - Lindsay Creek Bridge
 - US 10 west of Eleva in Trempealeau County

Project Needs

- Purpose
 - Address structural deficiencies on the existing bridge
- Specific issues with existing structure include:
 - Concrete deck is worn and cracked.
 - Steel girders and bearings are corroded.
 - Wing walls are cracked and spalled.

Proposed Improvements

- Proposed work consists of:
 - Overlaying the bridge deck with concrete
 - Making concrete surface repairs
 - Installing stainless steel flashing along edge of deck
 - Cleaning and painting bearings
 - Painting girder ends
 - Adding concrete pavement approach slabs
 - Replacing guardrail

Traffic Impacts

- Detour

- US 10 will be closed to through traffic during construction.
- Through traffic will be detoured via WIS 37, I-94, WIS 93 and US 10.

Project Schedule

2024

- Preliminary design

2025-2027

- Design refinement

2028

- Construction
