

WIS 105 Bridge Project

Village of Oliver to the city of Superior

November 2024

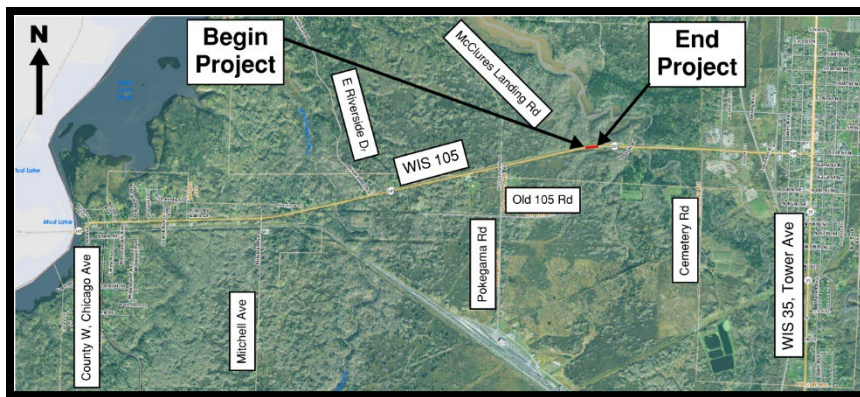

Project Description:

The Wisconsin Department of Transportation (WisDOT) is in the process of preliminary design investigation for a proposed bridge improvement of

WIS 105 at the unnamed tributary of the Pokegama River.

Proposed work includes:

- Building a bypass.
- Removing half of the existing culvert.
- Building a new structure – currently expected to be a bridge.
- Removing the remaining half of the existing culvert and bypass.

Schedule:

Construction is expected to start June 2026, with work being completed in October that year.

Traffic Impacts:

The following alternatives are currently being considered:

- A bypass for light vehicles is proposed to be built on the south side of the new structure.
- WIS 105 would be restricted to one lane with temporary signals
 - Heavy truck traffic will be detoured.
 - The recommended detour route is MN 23, I-35, US 2 and WIS 35.
