

The Wisconsin Department of Transportation and the City of Milwaukee Department of Public Works are planning to improve Lisbon Avenue (WIS 175) from N 46th Street to Appleton Avenue. Roadway construction is tentatively scheduled for spring of 2031.

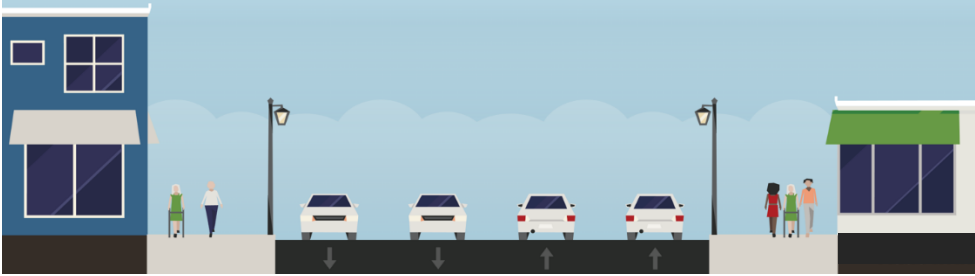

PROJECT NEEDS

- Overall corridor safety improvement
- Improve pavement structure and ride
- Improve pedestrian facilities (ADA compliance)
- Evaluate adding bicycle facilities
- Reduce vehicle speeds
- Modify local road intersection geometrics
- Evaluate corridor traffic operations
- Update traffic signals

Anticipated Project Schedule

[illegible]

ALT 1 - WIS 175 - REPLACE IN KIND

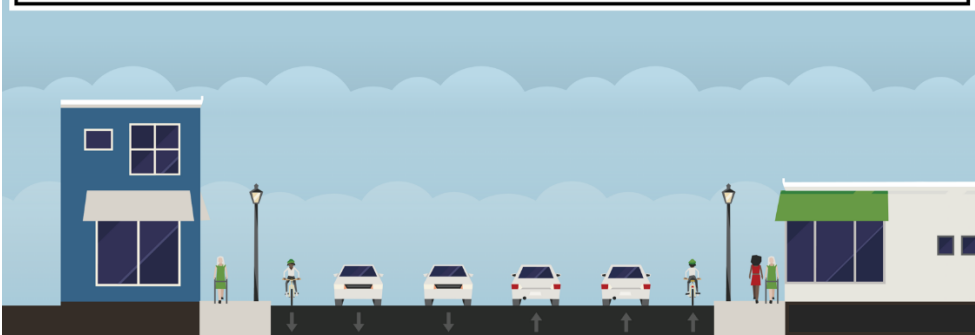

- Roadway footprint remains the same
- Lane widths match existing
- Pedestrian facilities match existing
- No dedicated bike facilities

ALT 2 - WIS 175 - CENTER MEDIAN

- Add left turn lanes at signals
- Narrow lane widths
- Add raised roadway median (serves as traffic divider & pedestrian refuge)
- No dedicated bike facilities
- Local road intersection modification

ALT 3 - WIS 175 - ON STREET BIKE LANES

- Add on-street bike lanes
- Narrow lane widths
- Pedestrian facilities match existing
- Local road intersection modification
