

CORRIDOR NEEDS INFRASTRUCTURE

Pavement

The pavement in the corridor is anticipated to reach the end of its design life by 2050. The roadway was originally constructed in the 1980's and 1990's. The pavement has been resurfaced once and is scheduled for one more resurfacing before total replacement is due.

Segment	Original Construction	Lifecycle	1st Resurface	2nd Resurface	Reconstruct
US 18 West ramp to Dodgeville to Iowa/Dane County Line	1981 - 1984 and 1988	EXPECTED 2006 2032 2047	ACTUAL 2019 - 2020		
Iowa/Dane County Line to Town Hall Rd	1984 - 1985 and 1988	EXPECTED 2009 2034 2049	ACTUAL 2022		
Town Hall Rd to Fitchrona Rd	1991 and 1995	EXPECTED 2016 2035 2050	ACTUAL 2023		

 Resurfacing 5 or more years later than anticipated
