

Alternative Development Process

Your feedback on the preliminary alternatives presented today will help us identify what alternatives move forward for detailed study.

Brainstorm Potential Improvements

Identify potential improvements including changes to intersections, speed limit, roadway layout, and bicycle and pedestrian facilities.

Preliminary Alternatives

Preliminary alternatives look at a wide range of improvements to address the identified corridor needs.

Detailed Alternatives

Alternatives showing the most potential to meet the corridor needs while considering anticipated impacts to surrounding areas, cost, and public input will be evaluated.

Preferred Alternative

The alternative that best meets the purpose and need while considering anticipated impacts, cost, and public input.
