

# **WIS 16**

## **Slope Repair Project**

**David Schmidt, P.E.**  
Project Manager

# Presentation Outline

- Project Overview
  - Project Limits
  - Project's Purpose and Need
  - Traffic Control
- Next Steps
- In This Together
- Contact Information

# Project Overview

## Project Limits

Red box represents the approximate project limits of the slope repair area.

# Project Overview

## Project's purpose and need

- The purpose of the project is to repair the roadway embankment on the west side of WIS 16
- The existing roadway embankment has been undermined and is being eroded.
- Not repairing the embankment could jeopardize the WIS 16 pavement structure

# Project Overview

## Traffic Control

- WIS 16 southbound lane will be closed to traffic
  - This is to provide space for contractor to work and access the slope
- Temporary Signals will be used to provide access on the existing northbound lane

# Next Steps

- Real estate is anticipated to begin in Fall 2025
  - 1 parcel requires a Temporary Limited Easement (TLE)
- Final plans are due in May 2026\*
- Project awarded in August 2026\*

\*These are subject to change due to funding or need to address sooner

# We Are In This Together – Business Coordination

- Visit [wisconsindot.gov/together](https://wisconsindot.gov/together)
  - Tips, tools, and resources
  - Business coordination guide
- Project team is here to help
  - What information would help you to....
    - Inform customers about the project
    - Coordinate with suppliers
    - Communicate with employees
