

WIS 188 Project: US 12 to WIS 60

Welcome to the public involvement meeting for the proposed improvements to WIS 188 near the town of Roxbury. See Figure below for the project location.

The Wisconsin Department of Transportation (WisDOT) is currently in the design phase of this project. The objective of this meeting is to provide you with updated information regarding the proposed improvements. After a brief presentation, the meeting will follow an open house format.

The purpose of this project is to extend the service life of the existing pavement and improve safety at the WIS 188 & Inama Road Intersection.

Improvements include, but are not limited to:

- Resurfacing of the asphaltic pavement
- Realignment of the WIS 188 & Inama Road Intersection
- Culvert replacements

This project is scheduled for construction in 2028. Construction could occur in 2027 if funding is available.

During construction, WIS 188 will remain open to traffic, with temporary closures on Inama Road. Motorists can expect flagging and lane shifts on WIS 188.
