

Public Involvement Meeting Handout

WIS 33

**Fox Lake – Beaver Dam
0.1mi W of Forest St to WIS 68
Dodge County**

Project ID: 6070-01-72

WIS 68

**Fox Lake – Waupun
WIS 33 to Edgelawn Dr
Dodge County**

Project ID: 6070-02-72

December 4, 2024

5:00 PM

**City of Fox Lake Community Center
248 E State St
Fox Lake, WI 53933**

Purpose of the meeting

The objective of this meeting is to obtain your input on the identified needs and proposed improvements. The meeting will feature a brief presentation, followed by an open house format.

Project information

WisDOT is proposing to improve 0.582 miles of WIS 33 and 0.159 miles of WIS 68. Proposed improvements include:

- Replace existing pavement and underlying pavement structure with concrete pavement and new base material
- Replace curb and gutter
- Replace sidewalk in spot locations
- Upgrade curb ramps to meet Americans with Disabilities Act (ADA) Standards
- Construct pavement approach slabs for the Fox Lake outlet bridge
- Pavement markings (centerline, edgeline, parking stalls, crosswalks, stop bars)

The existing pavement is experiencing transverse, longitudinal, and alligator cracking along with wheel path rutting. The existing pavement structure is inconsistent throughout the project limits and sections in the downtown area have underlying concrete pavement. The proposed improvements will address the pavement and underlying base deficiencies.

Proposed traffic impacts

Construction is scheduled to begin in 2028.

During construction the roadway will be detoured and closed to through traffic. Access to businesses and residences will be maintained throughout construction. Temporary driveway closures will be necessary during parts of the construction process. Homeowners and businesses will be contacted in advance of any driveway closures.

In This Together program for businesses

WisDOT recognizes businesses located in work zones have special needs. WisDOT's In This Together program is offered to business and community leaders as an idea source as they plan for road construction in their area. It includes promotional examples, case studies and a specially designed Business Coordination Guide with information on:

- Planning ahead
- Staying informed
- Keeping customers informed
- Tips for businesses

WisDOT's In This Together website is located at www.wisconsin.gov/Together

Real estate

Real estate will be required where sidewalk and curb ramp work is anticipated. Most of the real estate needed is a Temporary Limited Easement (TLE). A TLE gives WisDOT the ability to complete work outside of the right-of-way and tie back into existing grade. Right-of-way acquisition will likely be required in a few areas to allow for construction of more desirable curb ramps. A WisDOT real estate agent will contact the property owners for parcels where TLE or acquisition is required.

Project update/next steps

Project schedule

- Environmental document complete – Summer 2025
- Complete preliminary design – Summer 2025
- Begin real estate acquisition – Summer 2025
- Final plans completed – Fall 2027
- Construction year – 2028

Public input/comments

We encourage you to talk to the project representatives and ask them questions. Attached to this handout is a sheet for your written comments and input regarding the proposed project. Please mail any written comments about the project by January 10, 2025 or leave them in the comment box tonight. You can also e-mail your comments to the contacts listed below.

Your comments assist us in developing a project that will serve the needs of the traveling public as well as the needs of the local community. Your input is welcome and appreciated throughout the design process.
