

ROAD CONSTRUCTION MEETINGS

We will have weekly meetings with the Road Construction Supervisors and the DOT in the month of April. They will take place at 1:00 pm on Wednesdays in the basement of the Chamber of Commerce Office. They are open to the public.

As the project progresses we may amend those meetings to every other week. Please watch our website for that update.

We encourage you to come and ask your questions that you may have.

NEWS

Both WKEB and the Star News have been our partners in this process. WKEB will have radio updates with project supervisors throughout the construction. Be sure to tune in.

The Star News will have regular updates in the paper and will also have the most current detours posted for our customers.
