

# Southern Tier Corridor – Rock County to Kenosha & Racine

## Corridor Overview

This 60-mile corridor is part of a major passenger and freight route between the metro areas of Janesville and Beloit (and locations to the south and west) and the metro areas of Racine and Kenosha. This corridor serves major industrial and manufacturing areas in southern Wisconsin. It also provides access to rich agricultural land as well as the major tourism/recreational areas in Walworth County. The corridor includes the urban and urbanized areas of Beloit, Janesville, Delavan, Lake Geneva, Elkhorn, Burlington, Round Lake Beach, Union Grove, Racine and Kenosha.

## Current Corridor Characteristics

- Airports:
  - › Transport/corporate airports: Rock County (Janesville), Waukesha County (Waukesha), John H. Batten (Racine), Kenosha Regional
  - › General utility airports: East Troy Municipal, Burlington Municipal
  - › Basic utility airport: Palmyra Municipal
- Highways:
  - › Primary state highways: WIS 11, WIS 50
  - › Corridors 2030 Connector Routes: WIS 11, WIS 50
  - › NHS intermodal terminals with local road connections: Refer to the *Southeast Wisconsin Regional Planning Commission – Kenosha County map*
- Public Transit:
  - › Bus systems: Beloit, Janesville, Racine, Kenosha
  - › Shared-ride taxi: No service along this corridor
  - › Specialized transit: Available in all counties, level of service depends on location
- Fixed Guideway Transit: Connections in Kenosha to Chicago, IL
- Rail Freight: Freight rail service exists
- Intercity Passenger Rail: Amtrak *Hiawatha* service between Chicago, IL and Milwaukee, with a stop in Sturtevant
- Intercity Bus:
  - › Connections in Kenosha to intercity bus services to Milwaukee and Chicago, IL
  - › Connections in Beloit to intercity bus services to Madison, Minneapolis/St Paul, MN, and Chicago, IL
  - › Connections in Janesville to intercity bus services to Madison and Chicago, IL
- Ports and Harbors: Kenosha
- Ferry: None in this corridor
- Bicycle/Pedestrian:
  - › Major trails: White River State Trail, Seven Rivers Trail, Milwaukee-Racine-Kenosha Trail
  - › Accommodations, linkages and accessibility along and across some facilities

## Future Corridor Vision

- Airports: Continued service, increased direct air service and infrastructure projects to support business airplane-capable airports
- Highways: Maximized preservation and maintenance of infrastructure and continued user efficiency and mobility, including improved traffic movement, by implementing:
  - › New Corridors 2030 Backbone Routes (US 14/WIS 11: I-39/90 to I-43)
  - › *State Access Management Plan* vision
    - Tier 1; US 14/WIS 11
    - Tier 2A; WIS 50 (US 12 to WIS 31)
    - Tier 2B; WIS 11 (from US 12 eastward), WIS 50 (from I-43 to Lake Geneva municipal limit)
  - › Candidate expressway upgrade of corridor and the potential conversion of expressway-to-freeway corridor (US 14/WIS 11)
- Public Transit: Increased regional coordination and continued service
- Fixed Guideway Transit: New service (Rock County)
- Rail Freight: Continued freight rail service and corridor preservation
- Intercity Passenger Rail:
  - › New service:
    - New Madison – Milwaukee – Chicago, IL intercity passenger rail service
    - New Minneapolis/St. Paul, MN – Madison – Milwaukee – Chicago, IL intercity passenger rail service
    - New Green Bay – Milwaukee – Chicago, IL intercity passenger rail service
    - All new intercity passenger rail services will operate within existing corridors
- Intercity Bus:
  - › Continued existing services
  - › New service:
    - Phase 2: Between Janesville and Milwaukee, with stops in Whitewater and Waukesha; between Janesville and Kenosha, with stops in Delavan and Lake Geneva; and between the proposed Madison passenger rail station and Chicago, IL passenger rail station, with stops in Janesville and Beloit
- Ports and Harbors: Continued service, preservation, maintenance and infrastructure improvements (Kenosha)
- Ferry: None in this corridor
- Bicycle/Pedestrian: Continued and enhanced accommodations, linkages and accessibility along and across facilities

	Year 2007	Year 2030
<b>County populations</b>		
Rock	159,530	177,855
Walworth	100,672	117,833
Kenosha	161,370	198,258
Racine	195,113	214,902
<b>Population age 65 and older</b>	71,731	131,049
<b>Average annual daily traffic along</b>		
WIS 11	4,400 – 9,900	5,600 – 12,200
WIS 50	9,800 – 19,600	13,800 – 29,600
<b>Truck volume along</b>		
WIS 11	Low	Medium
WIS 50	Low	Medium

Refer to the "Corridor Map - Data Definitions and Sources" for more information.

# Southern Tier Corridor – Rock County to Kenosha & Racine

For more information, refer to the Corridor Map Legend Definitions document at [www.wiconnections2030.gov](http://www.wiconnections2030.gov).

### Existing Facilities

- Airport
- Park and ride
- Intercity bus stop
- Rail station
- Fixed guideway (commuter rail station)
- Port or harbor
- Mississippi River lock and dam
- Ferry
- Bicycle/pedestrian trail
- Rail-to-trail
- Railroad – private ownership
- Railroad – public ownership
- State trunk network
- State/county boundary
- Waterway
- City/village
- Metropolitan Planning Area
- Native American land

### Priority Project Action Areas

#### Interchange

- Study and/or preserve right of way
- Study and construct new
- Reconstruct existing

#### Bicycle and Pedestrian

- Provide urban connection
- Provide rural connection

#### Bridge

- Reconstruct existing or construct new

#### Intercity Passenger Rail

- Proposed station
- Proposed station with intercity bus stop
- Study future route
- Priority route

#### Highways

- Construct capacity project
- Prepare corridor plan
- Reconstruct existing
- Construct passing lane
- Convert to Interstate standards
- Study bypass/new arterial

### Priority Project Support Areas

#### Airport

- Airport project

#### Intercity Bus

- Intercity bus stop
- Priority route

#### Park and Ride

- Park and ride

#### Port, Channel or Waterway

- Port, channel or waterway project

#### Ferry

- Ferry project

#### Bicycle and Pedestrian

- Trail connection or extension
- Rail-to-trail

#### Fixed Guideway

- Commuter, rapid or express bus route
- Study future route
- Commuter rail route
- Commuter rail, proposed station

## About Multimodal Corridors

The *Connections 2030* planning process identified statewide multimodal, intercity corridors as visual communication tools to view existing conditions, transportation features and future recommendations. These corridors collectively represent a starting point toward long-term implementation of *Connections 2030* and the corridor management process.

These multimodal corridors:

- Serve critical sectors of the economy or major population centers
- Carry significant travel activity for passenger and/or freight traffic
- Show significant growth in travel or economic development
- Serve an important role for other transportation modes

Corridor selection was also influenced by local land use and development plans. Each corridor is a broad geographical band that follows a general directional flow connecting trips that may include streets, highways, rail, pedestrian, bicycle facilities and routes and transit route alignments. A corridor generally follows the directional flow of a state highway alignment. It includes parallel state and local roads, service roads and facilities for other transportation modes, such as rail, pedestrian, and transit, which influence the mobility, capacity, safety and other functional elements of the corridor.

# Southern Tier Corridor – Rock County to Kenosha & Racine

**Current and Proposed Future Activities** These activities may not occur in the time frame identified due to budget constraints, changing conditions or shifting priorities. Refer to the “Important Notes about What is Depicted” for more information or contact the WisDOT Region Office.

### Short-Term (2008 – 2013)

WIS 140	Reconstruct within Village of Clinton from southern village limits to northern village limits
Commuter Bus/ Fixed Guideway	Support regional service expansion to include Janesville and Beloit in Wisconsin, and Rockton, Roscoe, Rockford and Belvedere in Illinois
Public Transit/ Fixed Guideway	Support studies of commuter bus or rail service in Dane, Rock and Walworth counties with potential links to Rockford, IL and Chicago, IL
Public Transit/ Fixed Guideway	Support implementation of the <i>South Central Wisconsin Commuter Transportation Study</i> . Transit alternatives include commuter rail service from Janesville and/or Beloit to the Harvard, IL Metra station; commuter rail service from Madison to Rockford, IL, via either Milton or Evansville; bus rapid transit between Madison and northwestern Cook County, IL; express bus service from Madison to Rockford, IL; and feeder bus service from Beloit and/or Janesville to the Harvard, IL Metra station

### Mid-Term (2014 – 2019)

Intercity Bus	Support new intercity bus service between Janesville and Kenosha with stops in Delavan and Lake Geneva
---------------	--

### Entire Planning Period

US 14/WIS 11	Complete corridor plan from I-39 (Janesville) to I-43 (Walworth Co), and implement results, which may include adding lanes and/or capacity, constructing candidate expressway upgrades and/or converting to freeway if supported by environmental document and process leading to candidate Major project enumeration
Airports	Support continued preservation, maintenance and infrastructure projects at <i>State Airport System Plan</i> airports
Bicycle/Pedestrian	Support accommodations and linkages to create a connected network that provides accessibility along and across facilities
Fixed Guideway	Support studies and implementation of potential new commuter rail service from Rock, Walworth, Racine and Kenosha counties to Chicago, IL
Local Roads	Support continued preservation, maintenance and infrastructure projects
Public Transit	Work with counties and transit service providers to coordinate and expand rural transit service
Rail Freight	Support the preservation of existing freight services and corridors
Specialized Transit	Support continued service and encourage improved service coordination
State Highways	Construct grade separations at rail crossings if supported by environmental document
State Highways	Preserve and maintain infrastructure
State Highways	Improve traffic movement with traffic operations infrastructure strategies

## Important Notes about What is Depicted

The map shows currently programmed and proposed future activities (as of December 31, 2007) that have significant impacts on the corridor. Not all projects or initiatives are mapped, and additional analyses, including an environmental document, will be conducted before any of the projects or activities are completed. These analyses may include studying alternatives (including a no build/no change alternative) with public involvement opportunities as appropriate. Resources and shifting priorities may impact WisDOT’s implementation of any proposed activity within the time frames identified. WisDOT will remain flexible in the implementation of *Connections 2030* recommendations. The table and map activities (on the previous page) reflect actions identified in:

- *Connections 2030* policies
- WisDOT’s Six-Year Highway Improvement Program (2008 - 2013)
- Other WisDOT program data
- Other WisDOT plans and studies
- Metropolitan planning organizations’ (MPOs), regional planning commissions’ (RPCs) and tribal long-range transportation plans

For information on funding and implementation priorities, see those *Connections 2030* chapters. For more information on transportation projects, contact the WisDOT Region Office (see *Connections 2030* or [www.dot.wisconsin.gov/projects/](http://www.dot.wisconsin.gov/projects/) for a map of region offices). MPO, RPC and tribal long-range transportation plans offer recommendations on all transportation modes within their boundaries.

# Corridor Map – Data Definitions and Sources

## Data Definitions

### Corridors 2030

(See *Connections 2030 Chapter 5, Preserve and Maintain Wisconsin's Transportation System, for more information.*)

- Backbone system: Multilane, divided highways interconnecting all major population and economic centers of the state and linking them to the national transportation network
- Connector system: Two- and four-lane highways directly linking other significant economic and tourism centers to the Backbone system

### State Access Management Plan vision

(See *Connections 2030 Chapter 9, Promote Transportation Efficiencies, for more information.*)

- Tier 1: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at interchanges (with some existing safely spaced, locked and gated emergency vehicle driveways and a few isolated field entrances possible at select locations)
- Tier 2A: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections (with some existing safely spaced, locked and gated emergency vehicle driveways and few isolated field entrances)
- Tier 2B: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections with some existing safely spaced, lower volume private, residential, field or emergency service driveways
- Tier 3: By 2030, in rural areas (outside of city and village boundaries), access to the highway will primarily be at at-grade public road intersections with some existing safely spaced, higher volume private, residential and field or emergency service driveways
- Tier 4: By 2030, in rural areas (outside of city and village boundaries), access to the highway will be at safely spaced driveways and roads

### State Airport System Plan classifications

- Air carrier (passenger)/air cargo: Designed to accommodate virtually all aircraft up to and, in some cases, including wide body jets and large military transports
- Transport/corporate: Intended to serve corporate, small passenger and cargo jet aircraft used in regional service, and small airplanes (piston or turboprop) used in commuter air service
- General utility: Intended to serve virtually all small aviation single and twin-engine aircraft (both piston and turboprop) with a maximum take-off weight of 12,500 pounds or less
- Basic utility: Intended to serve all small-engine piston aircraft and many of the smaller twin-engine piston aircraft with a gross takeoff weight of 12,500 pounds or less

### Truck volume descriptions

- Low (0 – 501 trucks per day), Medium (501 – 2,500 trucks per day),
- High (2,501 – 8,000 trucks per day), Very High (more than 8,000 trucks per day)

### Urban/urbanized areas

- Urban areas: Areas with populations between 5,000 and 49,999
- Urbanized areas: Areas with populations of 50,000 or more

## Data Sources

### Annual average daily traffic (AADT)

- Current data: WisDOT, *2005 Wisconsin Highway Traffic Volume Data*, December 2006
- Forecast data: WisDOT, August 2007

### Enplanements

- Current data: WisDOT, *2006 Wisconsin Aviation Activity*, April 2007
- Forecast data: Flight Transportation Associates, Inc., *Updated Wisconsin State Airport System Plan Aviation Activity Forecasts*, September 2005; Southeast Wisconsin Regional Planning Commissions, *Review and Update of Regional Airport System Plan Forecasts*, 2005

### National Highway System (NHS) intermodal terminals

- Federal Highway Administration, October 2007

### Passenger rail ridership

- Current data: WisDOT, 2007
- Forecast data:
  - › Transportation Economics & Management Systems, Inc., *Midwest Regional Rail Initiative Project Notebook*, 2004
  - › Forecast year 2020
  - › Forecast Milwaukee station data includes all Milwaukee area stations (Milwaukee Intermodal Station, General Mitchell International Airport and Granville)

### Population

- Current population: Wisconsin Department of Administration, *January 1, 2007 Preliminary Population Estimates for Wisconsin Counties*, August 10, 2007
- 2030 Population: Wisconsin Department of Administration, *Final Population Projections for Wisconsin Counties by Age and Sex: 2000 – 2030*, January 2004
- Current Age 65 and older population: 2000 US Census, Summary File 1, Variable P12: Sex by Age
- 2030 Age 65 and older population: Wisconsin Department of Administration, *Final Population Projections for Wisconsin Counties by Age and Sex: 2000 – 2030*, January 2004

### Public and specialized transit

- WisDOT, January 2008

### Truck volume

- WisDOT, August 2007

### Wisconsin Metropolitan Planning Organizations (MPOs)

- Chippewa – Eau Claire Metropolitan Planning Organization, *Long Range Transportation Plan 2005 – 2030*, October 2005
