

Wisconsin Department of Transportation

Scott McCallum
Governor

Terrence D. Mulcahy
Secretary

Bureau of Transportation Safety
4802 Sheboygan Ave.
PO Box 7936
Madison, WI 53707-7936

Telephone: (608) 266-0402
FAX: (608) 267-0441

January, 2002

Dear Traffic Safety Partners:

The Wisconsin Department of Transportation, Bureau of Transportation Safety is pleased to provide you with a copy of the *2000 Wisconsin Alcohol Traffic Facts Book*. Please note that the title of this book reflects the year for which the most recent data was compiled.

This book provides statewide traffic-related alcohol information. The emphasis on traffic crashes, arrests, convictions and driver safety plan data presents a variety of alcohol-related data that will serve as a resource for safety, health and social service professionals.

We want to thank the Wisconsin Departments of Health and Family Services, Public Instruction, Natural Resources, Revenue, the Office of Justice Assistance, the University of Wisconsin Law School Resource Center on Impaired Driving, the WisDOT Division of Motor Vehicles, and the Distilled Spirits Council of the United States for their contributions to the content of this book.

This document can be viewed online at www.dot.state.wi.us. To obtain additional copies of this book or for more information, please contact us.

Sincerely,

John H. Evans, Director
Bureau of Transportation Safety

TABLE OF CONTENTS

KEY FACTS AND FIGURES (Preface)

SECTION 1: MAGNITUDE OF THE PROBLEM

Problems associated with alcohol and other drug abuse.....	1
Alcohol-related deaths in Wisconsin	1
Wisconsin alcohol-related injuries and fatalities from motor vehicle crashes	2
Alcohol-related crash costs	2
Alcohol-related fatalities involving recreational equipment.....	3
Alcohol-related citations issued by Department of Natural Resources	3
OWI and related penalties for recreational equipment	4

SECTION 2: ALCOHOL CONSUMPTION

Department of Public Instruction survey and Youth Risk Behavior Survey data	5
Patterns of adult alcohol consumption	6
Total and per capita gallons of absolute alcohol consumption	7
Alcohol and other drug abuse clients treated with public funds	7
Liquor licenses by county	8

SECTION 3: LEGAL SANCTIONS

Historical overview - Wisconsin Drinking Driving Law	9
OWI and related alcohol penalties	11
Underage alcohol offenses and related penalties	12
Commercial driver license alcohol and other drug offenses and related penalties	13
Case law update	14

SECTION 4: ALCOHOL ARRESTS

Statewide arrests for OWI and liquor law violations 1976-2000	15
Statewide adult arrests for OWI and liquor law violations by county 1993-2000	16
Statewide juvenile arrests for OWI and liquor law violations by county 1993-2000	17
2000 OWI test results by Alcohol Concentration (AC)	18

SECTION 5: ALCOHOL CONVICTIONS

Adjudicated OWI citations and OWI arrests	19
Adjudicated OWI citations by county 1996-2000	20
Outcome of adjudicated OWI citations by county 2000	20
Adjudicated OWI citations by court type and county 2000	21
2000 dispositions of OWI refusals	21
Dispositions of 2000 OWI citations by county and test refusal	22
All alcohol-related convictions 1986-2000	23
Underage alcohol operation and consumption by county 2000	24
Underage alcohol-related convictions 1984-2000	24
2000 OWI convictions by violation county and repeat offender status	25

TABLE OF CONTENTS

SECTION 5: CONTINUED

2000 OWI convictions by driver's age at time of violation and gender	26
OWI driver history profile	27
OWI drivers in the history profile by gender	27
OWI drivers in the history profile by age	27
OWI drivers in the history profile - county of residence by number of OWI convictions	28

SECTION 6: ALCOHOL CRASHES

2000 primary contributing factors in motor vehicle crashes	29
Percent of crashes that were alcohol-related 2000	30
Alcohol-related fatalities and injuries - 25-year summary	30
Total crashes and alcohol crashes by highway type 2000	30
Drinking drivers in reportable crashes 1976-2000	30
Alcohol-related crashes by time of day and day of week 2000	31
Total alcohol-related crashes by county 1997-2000	32
Total alcohol-related injuries and fatalities by county 1996-2000	33
Total drinking drivers in crashes by county 1997-2000	34
2000 drinking drivers involved in crashes by state residency	35
2000 alcohol-related crashes, fatalities, and injuries by month	35
2000 persons killed or injured in alcohol-related crashes by age	35
Drinking drivers in crashes by age by county - 15 to 19 year olds 1996-2000	36
Drinking drivers in crashes by age by county - 20 years old and older 1996-2000	37
Twenty year summary of drinking driver crash rate by age	38
Driver fatalities 1976-2000	38
Drivers in fatal crashes by AC test results - 25-year summary	39
Safety belt use by drinking and non-drinking drivers and occupants 1996-2000	39
Motorcycle driver fatalities by AC test results 1991-2000	40
Drinking rates for drivers, pedestrians, and bicyclists in crashes 1991-2000	40
Pedestrian fatalities by AC test results 1991-2000	40

SECTION 7: DRIVER SAFETY PLANS

Court ordered OWI assessments by conviction year	41
Assessment findings by county for 2000	42
Types of driver safety plans by county for 2000	43
2000 driver safety plans - status of plans as of July 31, 2001	44

APPENDIX A: Licensed drivers by county	45
---	----

APPENDIX B: Registered vehicles by county	45
--	----

KEY FACTS AND FIGURES

- In 2000, 301 people were killed and 6,836 people were injured in 9,096 alcohol-related motor vehicle crashes in Wisconsin. Alcohol-related crashes accounted for 6.5% of all crashes in the state, 38% of all motor vehicle fatalities, and 11% of all motor vehicle injuries. Since 1990, alcohol-related fatalities have declined 10% (from 335), alcohol-related injuries have declined 32% (from 10,035), and alcohol-related crashes have declined 32% (from 13,309).
- On average, one person was killed or injured in an alcohol-related crash in Wisconsin every 74 minutes during 2000. In 1990, on average, one person was killed or injured in an alcohol-related crash in Wisconsin every 51 minutes.
- During 2000, 38,324 people were arrested for Operating While Intoxicated (OWI) in Wisconsin, including 655 persons who were under 18. This compares to 35,753 OWI arrests in 1990.
- Of the 9,135 drinking drivers involved in crashes in 2000, 1,251 (14%) were under age 21 and 7,884 were age 21 or older. Since 1990, the number of drinking drivers in crashes has declined 42% (from 13,730). In 1990, 2,135 (15%) of the 13,730 drinking drivers in crashes were under age 21. The minimum drinking age was raised from 18 to 19 in July, 1984, and from 19 to 21 in September, 1986.
- In 2000, 165 drivers killed in crashes had an alcohol concentration (AC) of 0.10% or higher; 26 were under age 21 and 139 were age 21 or older. These 165 drivers represent 36% of all drivers killed who were tested for alcohol concentration. The 26 drivers under age 21 represent 15% of all drivers under age 21 who were killed in crashes and tested for alcohol concentration. In 1990, 44% of all drivers killed and tested for alcohol concentration had an AC of 0.10% or higher.
- Of the 30,592 drivers convicted of OWI (Operating While Intoxicated) in Wisconsin in 2000, 3,106 (10%) were under age 21 at the time of violation and 27,486 (90%) were age 21 or older.
- Of the 36,530 OWI citations adjudicated in Wisconsin during 2000, almost 92% of the drivers were found guilty. This total included 5,176 cases where the driver refused the alcohol test; 93% of the people who refused the alcohol test were found guilty of OWI.
- The median time between OWI violation and conviction in 2000 was 61 days.
- The median alcohol concentration (AC) test result for 2000 OWI citations was 0.17%.
- In 2000, 5% of the Behavioral Risk Factor Survey respondents (age 18 and older) reported that they drove after drinking too much during the past month. In the 2001 Youth Risk Behavior Survey, 10.2% of 10th graders and 29.9% of 12th graders responded that they drove after drinking in the past 30 days.
- As of January 1, 2001, the WisDOT-DMV-Driver Record File showed that, since January 1, 1989:
 - 234,826 drivers had 1 OWI conviction
 - 34,435 drivers had 2 OWI convictions
 - 16,708 drivers had 3 OWI convictions
 - 5,250 drivers had 4 OWI convictions
 - 1,666 drivers had 5 OWI convictions
 - 557 drivers had 6 OWI convictions
 - 205 drivers had 7 OWI convictions
 - 63 drivers had 8 OWI convictions
 - 27 drivers had 9 OWI convictions
 - 11 drivers had 10 OWI convictions
 - 7 drivers had 11 OWI convictions
 - 1 driver had 12 OWI convictions
 - 1 driver had 13 OWI convictions
- A “typical” OWI offender is a 38 year old male. Of the 234,826 drivers with one OWI conviction in the driver history profile, 80% were male and 48% were between the ages of 25 and 39. Of the 58,931 repeat offenders, 85% were male and 50% were between the ages of 25 and 39.

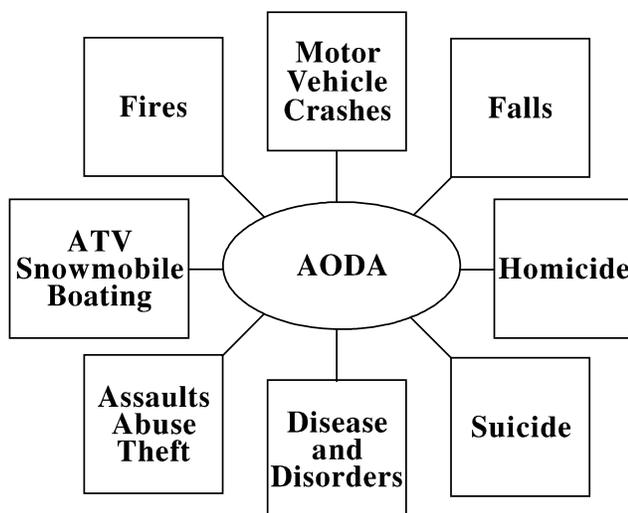

NOTES ON ALCOHOL AND TRAFFIC SAFETY IN WISCONSIN

SECTION 1: MAGNITUDE OF THE PROBLEM

The negative consequences of alcohol and other drug abuse are substantial in degree and range. Traffic safety problems, including motor vehicle crashes, are but one part of a complex societal issue.

The use and abuse of alcoholic beverages increase the likelihood of virtually all types of injury, even among young teenagers. About one-third of fatally injured drivers and substantial proportions of adult passengers and pedestrians killed in motor vehicle crashes—as well as in falls, drownings, fires, assaults, and suicides—have alcohol concentrations of 0.10 percent or higher. In both highway and non-highway events, the more severe the event, the higher the percentage in which alcohol plays a role. In Wisconsin, alcohol contributed to 38% of all fatal crashes in 2000. Identifying particular groups of people likely to drive under the influence of alcohol and other drugs by specific highway location is especially important for effective prevention efforts.

PROBLEMS ASSOCIATED WITH ALCOHOL AND OTHER DRUG ABUSE

Various agencies collect data on deaths attributable to alcohol and drug abuse. In Wisconsin, information about motor vehicle deaths is collected by the Department of Transportation. Numbers of boating and snowmobile deaths are maintained by the Department of Natural Resources. Alcohol disease deaths, drug-related deaths, as well as all other death information derived from Wisconsin death certificates, are maintained by the Department of Health and Family Services.

All of the categories below count deaths that were alcohol-related. The *Alcohol Diseases* category and the *Other Drugs* category include diseases, accidental overdose and suicide.

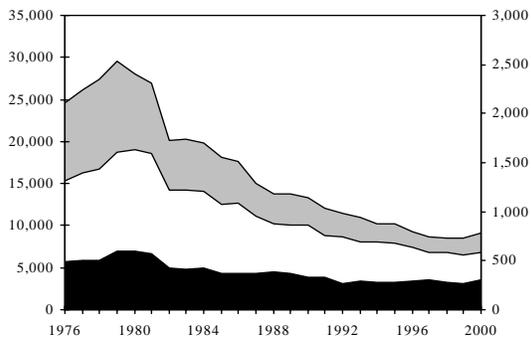

ALCOHOL-RELATED DEATHS IN WISCONSIN

Year	Motor Vehicle	Boating/Snowmobile	Alcohol Diseases	Other Drugs
1983	417	17	305	65
1984	428	16	294	89
1985	373	12	344	75
1986	371	15	300	88
1987	368	12	305	85

WISCONSIN ALCOHOL-RELATED INJURIES AND FATALITIES FROM MOTOR VEHICLE CRASHES 25-YEAR SUMMARY

Alcohol-related injuries and crashes Alcohol-related fatalities

Alcohol-related crashes
 Alcohol-related injuries
 Alcohol-related fatalities

An alcohol-related crash is one in which the investigating officer perceived that a driver, pedestrian or bicyclist involved in the crash had been drinking alcohol prior to the crash. Citations are not always written for crashes that are alcohol-related.

Year	ALCOHOL-RELATED		
	Crashes	Fatalities	Injuries
1976	24,548	485	15,319
1977	26,200	505	16,258
1978	27,354	510	16,760
1979	29,647	593	18,681
1980	28,025	592	19,112
1981	26,978	573	18,648
1982	20,089	426	14,283
1983	20,216	417	14,282
1984	19,748	428	14,054

1986	17,673	371	12,766
1987	14,994	368	11,120
1988	13,847	391	10,170
1989	13,803	366	10,048
1990	13,309	335	10,035
1991	12,034	333	8,899
1992	11,516	268	8,686
1993	11,052	297	8,093
1994	10,279	278	8,039
1995	10,170	282	7,890
1996	9,338	295	7,496
1997	8,627	309	6,797
1998	8,475	282	6,850
1999	8,446	270	6,563
2000	9,096	301	6,836

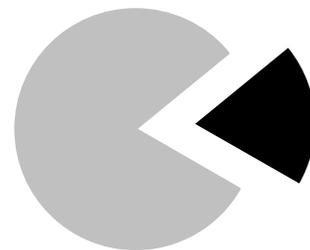

2000 ECONOMIC LOSS FROM ALCOHOL-RELATED MOTOR VEHICLE CRASHES

According to Department of Transportation estimates, alcohol-related crashes cost Wisconsin over \$500 million in 2000. This represents about 19% of the estimated total economic loss in Wisconsin due to motor vehicle crashes. Economic loss is determined using national cost estimates obtained from the National Safety Council. Per-incident figures used to calculate the 2000 economic loss are the 1999 National Safety Council estimates plus 2.4% to account for inflation:

Fatality: \$993,300
 Incapacitating injury: \$46,900
 Nonincapacitating injury: \$15,700
 Possible injury: \$8,900
 Property damage: \$6,600

In 1998, alcohol was cited as a contributing factor in 16% of motor vehicle crashes that resulted in hospitalization in Wisconsin. During that year, alcohol-related crashes accounted for more than \$11 million in hospital charges alone. This figure does not include the physician charges for hospital care or any medical care that occurred after the patient left the hospital.

Other Crashes
\$2.15 billion

Alcohol-related
Crashes
\$512 million

Note: The method used for calculating economic loss differs from that used in prior *Wisconsin Alcohol Traffic Facts* books where a single cost figure was used for all nonfatal injuries, regardless of severity.

ALCOHOL-RELATED FATALITIES INVOLVING RECREATIONAL EQUIPMENT

BOATS

Year	Alcohol-Related Fatalities	Total Fatalities	%Alcohol-Related	Registered Vehicles
1991	11	23	45%	501,917
1992	9	23	39%	512,234
1993	9	19	47%	515,342
1994	4	21	19%	526,973
1995	5	15	33%	534,828
1996	9	19	47%	540,835
1997	10	29	34%	543,034
1998	5	15	33%	559,321
1999	7	18	39%	564,312
2000	10	25	40%	573,919

SNOWMOBILES

Year	Alcohol-Related Fatalities	Total Fatalities	%Alcohol-Related	Registered Vehicles
1991	9	15	60%	149,508
1992	16	22	73%	163,196
1993	13	21	62%	180,208
1994	17	30	57%	182,124
1995	12	22	54%	193,184
1996	24	34	70%	202,216
1997	13	21	61%	208,200
1998	12	20	60%	214,611
1999	22	38	58%	215,000
2000	12	26	46%	291,943

Note: The State of Wisconsin's inability to, on a technical level, differentiate residents from non-residents during the year 2000 accounts for the large increase in registered vehicles over the 1999 figure.

ALCOHOL-RELATED CITATIONS ISSUED BY DEPARTMENT OF NATURAL RESOURCES

Year	Boating	Snowmobile	ATV	Total
1991	337	119	21	477
1992	238	171	23	432
1993	281	251	39	571

2000	3	8	38%	126,000

TYPES OF ALCOHOL-RELATED CITATIONS ISSUED BY DEPARTMENT OF NATURAL RESOURCES 15-YEAR SUMMARY

BOATING 1986-2000

Operate a motorboat while under the influence of an intoxicant, operate a motorboat with AC of 0.10% or greater	Totals 3,260
Refuse test, intoxicated motorboat operation	186
Cause injury by intoxicated operation of a motorboat	58
Intoxicated water-skiing	4
Total	3,508

SNOWMOBILES 1986-2000

Operate a snowmobile while intoxicated	Totals 793
Operate a snowmobile with alcohol concentration above 0.10%	617
Refuse to take intoxicated snowmobile test	68
Absolute sobriety for persons under age 19	22
Cause injury by intoxicated operation of snowmobile	10
Total	1,510

ALL-TERRAIN VEHICLES (ATV) 1986-2000

Operate an ATV while intoxicated	Totals 218
Operate an ATV with alcohol concentration above 0.10%	140
Absolute sobriety for persons under age 19	10
Refuse to take intoxicated ATV test	22
Total	390

SECTION 2: ALCOHOL CONSUMPTION

YOUTH ALCOHOL CONSUMPTION

In 1989 and 1991, the Department of Public Instruction (DPI) contracted with the SEARCH Institute in Minneapolis to survey a stratified random sample of Wisconsin public school students about alcohol. In 1991, 40% of the 1,479 12th grade survey respondents reported that they had driven a vehicle after drinking in the previous 12 months, and 62% had been in a vehicle driven by someone who had been drinking alcohol in the previous 12 months.

In 1993, a different instrument [the Center for Disease Control's Youth Risk Behavior Survey (YRBS)] was used to survey students about alcohol and other youth risk behaviors. This instrument questioned students about their experience in the past 30 days rather than in the past 12 months. In 1993, 24.7% of the 12th grade survey respondents reported they had driven a vehicle after drinking in the previous 30 days, and 40.6% reported that they had been in a vehicle driven by someone who had been drinking in the past 30 days.

In the most recent survey (2001), 29.9% of the 12th grade survey respondents reported that they had driven a vehicle after drinking in the previous 30 days, and 43.5% reported that they had been in a vehicle driven by someone who had been drinking in the past 30 days.

ADULT ALCOHOL CONSUMPTION

Each year since the mid 1980s, the Centers for Disease Control and Prevention (CDC), in cooperation with the states, conducts a survey of health-risking behavior. Wisconsin's part in this is the Behavioral Risk Factor Survey (BRFS), a portion of which measures alcohol consumption and drinking and driving.

The results of the BRFS are shown on page six and are collected by Wisconsin's Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services. In 2000, 5% of the 2,177 survey respondents (i.e. those 18 or more years of age) reported that they had driven after drinking too much during the past month.

DPI SURVEY AND YOUTH RISK BEHAVIOR SURVEY DATA

Year	10th Grade Students (n)	12th Grade Students (n)	Have Driven After Drinking (In Last 12 Months)		Have Been in Vehicle Driven by Someone Who Had Been Drinking (In Last 12 Months)	
			10th Graders	12th Graders	10th Graders	12th Graders
1989	1,516	1,701	17%	46%	62%	70%

PATTERNS OF ALCOHOL CONSUMPTION

The 1999 Wisconsin Behavioral Risk Factor Survey (BRFS) is a representative, statewide telephone survey of Wisconsin household residents 18 years and older. Results are based on self-reports from respondents who are selected through a stratified random sample. Results are weighted to account for both nonresponse and sample design, and to represent the 2.7 million adults ages 18-54 and 1.2 million age 55 and older, living in Wisconsin households. In 1999, responses were collected from 2,177 adults (age 18 and older). There were 2,205 respondents in 1998 and 1,260 in 1990. Differences in estimates may or may not be statistically significant. For additional information and to view the remainder of the survey: www.dhfs.state.wi.us/stats/index/htm.

ALCOHOL CONSUMPTION PATTERNS FOR PERSONS AGE 18 & OLDER 1984 - 1999

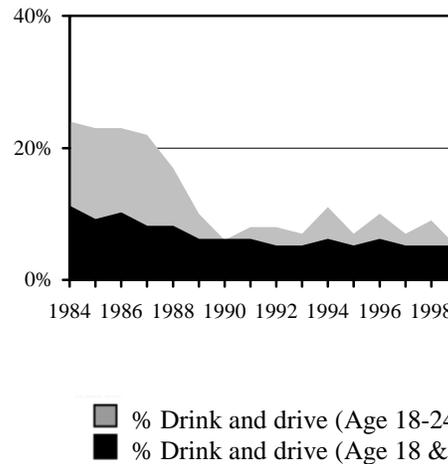

Drinker is defined as a respondent who had consumed any alcoholic beverage in the past month. *Episodic* is defined as a respondent who had consumed five or more drinks of alcohol on one occasion in the past month. *Heavy* is defined as a respondent who reported consuming an average of sixty or more drinks of alcohol in the past month. The wording for the survey question about *heavy* drinking was changed in 1994.

ALCOHOL CONSUMPTION PATTERNS FOR DRINKING DRIVERS BY AGE 1984 - 1999

Percent who reported that, in the past month, they:

Year	Consumed Alcohol (Drinker)	Consumed 6+ Drinks (Heavy)	Consumed 5+ Drinks on One Occasion (Episodic)	Drink & Drive (Age 18+)	Drink & Drive (Age 18-24)	Number of Cases
1984	74	10	29	11	24	658
1985	75	9	27	9	23	965
1986	74	11	30	10	23	1,268
1987	70	10	29	8	22	1,341
1988	73	9	30	8	17	1,272
1989	70	6	27	6	10	1,276
1990	69	6	27	6	6	1,260
1991	68	6	23	6	8	1,282
1992	66	6	24	5	8	1,528
1993	69	5	23	5	7	1,567
1994	70	5	24	6	11	1,562
1995	70	4	23	5	7	2,210
1996	70	6	26	6	10	2,231
1997	70	5	23	5	7	2,245
1998	67	5	22	5	9	2,205
1999	71	5	27	5	5	2,177

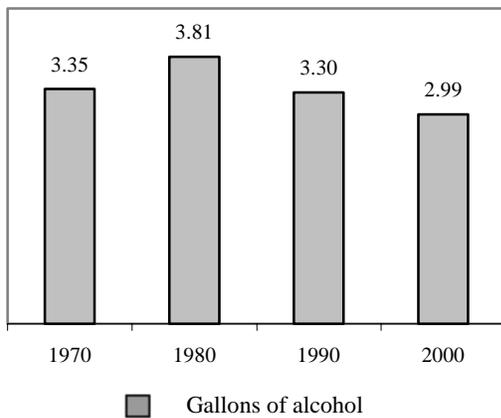

NOTE: The graph above depicts the portion of respondents who acknowledged having driven during the past month after consuming alcohol.
NOTE: The number of respondents who reported being *heavy* drinkers will not be comparable over time because the wording for this question was changed in 1994.

WISCONSIN ALCOHOL CONSUMPTION

Trends in adult (age 18 and older) per capita alcohol consumption show an increase from 1970 to 1980 and then a decline by 1990. Figures at the ten year marks are most accurate due to the use of actual census data and not population projections. Overall consumption has been declining since 1984 after increases during the 1970s. Compared to other states, Wisconsin ranks 7th highest in the nation in per capita beer consumption, 11th highest in the nation in per capita distilled spirits consumption and 27th highest in the nation in per capita wine consumption.

ADULT PER CAPITA ABSOLUTE ALCOHOL CONSUMPTION

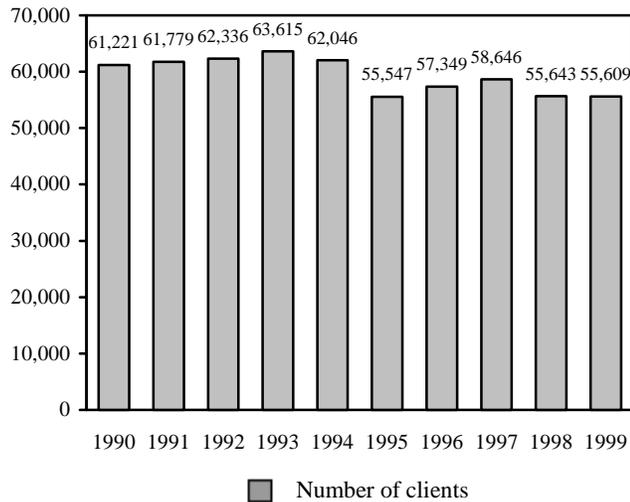

TOTAL GALLONS OF ABSOLUTE ALCOHOL CONSUMPTION

ALCOHOL AND OTHER DRUG ABUSE CLIENTS TREATED WITH PUBLIC FUNDS IN WISCONSIN

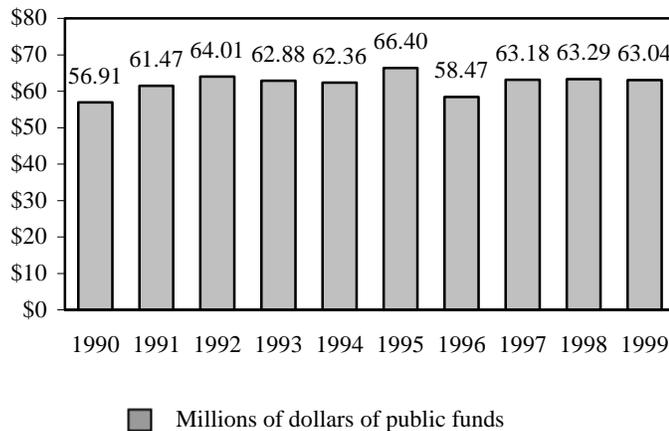

During the 1970s, there was a four-fold increase in the number of persons treated for alcohol and other drug abuse in Wisconsin publicly-supported treatment programs. The number of clients treated doubled between 1980 and 1990. The figures below depict the number of clients receiving any service in Wisconsin publicly-supported alcohol and other drug abuse treatment programs and the expenditures for the treatments by year.

ALCOHOL AND OTHER DRUG ABUSE CLIENTS RECEIVING ANY SERVICE WITH PUBLIC FUNDS

Note: A database purge of old records accounts for the 1994 to 1995 drop in clients receiving publicly-funded AODA services

NOTE: Total Licenses is the number of licenses issued for the sale of any type of alcohol (includes pharmacies and wholesalers). Some establishments may have more than one license. An example of the Number of Residents per Liquor License per 100 Square Miles is that, in Adams County for an average 100 square mile area, there is one liquor license per thirty residents. Lower numbers indicate a greater number of licenses per person in that area.

SECTION 3: LEGAL SANCTIONS

HISTORICAL OVERVIEW - WISCONSIN DRINKING DRIVING LAW

1849 Chapter 33, section 3, Laws of 1849, prohibited the employment of any person to drive a coach or vehicle who is addicted to drunkenness, or to the excessive use of intoxicating liquors. A similar statute, sec. 364.64, Stats., still exists in Wisconsin law.

1911 Chapter 600, Laws of 1911, published July 15, 1911, prohibits operating, riding or driving a motor vehicle while intoxicated. This appears to be the first reference in Wisconsin Statutes to the actual offense of drunk driving. Also note that riding was included as a part of the offense in 1911. The penalty for first offense was a fine of not less than \$10 nor more than \$50. The penalty for second and subsequent offenses was a fine of not less than \$25 nor more than \$100, or imprisonment for 60 days, or both. See Chapter 73a, s. 1636-49 and 54, 1911 Wisconsin Statutes pp. 1092-93.

1921 Chapter 761 section. 1636-49, 1921 Wisconsin Statutes, p.1254, used the same language, “no intoxicated person shall operate, ride, or drive any automobile...”. The penalty section in 1921, section 1636-54, p. 1259, had been changed to read: “Any person who shall operate, ride, or drive any automobile...upon or along any public highway of this state, while intoxicated, shall be punished by a fine of not more than \$100 or by imprisonment in the county jail for not more than six months, or by such fine and imprisonment.” There was no statutory reference to second and subsequent offenses.

1923 By 1923, the drunk driving provisions were included in the “Law of the Road,” which had been recodified in Chapter 85, Wisconsin Statutes. By 1923, the provision making riding while intoxicated illegal had been eliminated. Section 85.08, 1923 Wisconsin Statutes, p. 957, read as follows: “[A]nd no intoxicated person shall operate any automobile...”. Section 85.22, 1923 Wisconsin Statutes, p. 962, provided for the following penalty: “Any person who violates...85.08 shall be fined not less than \$10 nor more than \$100, and for a second or subsequent violation thereof in any year shall be fined not less than \$50 nor more than \$500 or imprisoned not exceeding sixty days, or both.”

1933 By 1933, the drunk driving provisions had been moved to sec. 85.13, 1933 Wisconsin Statutes, p. 1047. Sec. 85.13, Stats., read as follows: “It shall be unlawful for any person who is a habitual user of narcotic drugs, or who is subject to epilepsy, or any person under the influence of an intoxicating liquor or narcotic drug, to operate any vehicle upon any highway.” Note that the prohibition was once again any vehicle. Section 85.91(3), 1933 Wisconsin Statutes, p. 1061, provided for the following penalty. Any person violating s. 85.13 “...shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished in addition to any other penalty provided by law, by a fine not to exceed \$100 or by imprisonment...for not more than six months, or by both such fine and imprisonment. The operator’s license of such person may also be revoked or suspended for a period not to exceed one year; and for the second or each subsequent conviction within one year thereafter the person shall be punished by a fine not to exceed \$200, or by such imprisonment not to exceed one year, or both...and in addition thereto by suspension or revocation of the operator’s license for not to exceed one year.” This is the first reference in the law to suspension/revocation of the drivers license as a penalty for drunk driving.

1949 On July 28, 1949, Chapter 534, Laws of 1948-49 amended sec. 85.13 and introduced into Wisconsin law the concept of chemical analysis of breath, blood, urine and saliva as evidence of drunk driving. This new law indicated that blood taken within two hours of arrest which contained (.15) fifteen-hundredths of one percent or

HISTORICAL OVERVIEW - WISCONSIN DRINKING DRIVING LAW *continued*

more by weight of alcohol in blood could be admitted as prima facie evidence of intoxication, but there also needed to be corroborating evidence.

1957 Chapter 260, Laws of 1957, recodified the Motor Vehicle statutes. This law changed the statutory cite for drunk driving from s. 85.13 to s. 346.63(1), Stats. This statutory cite is where the drunk driving offense is still located. By 1957, the chemical test sections had moved to s. 325.235. Penalties in 1957 remained the same as they were in 1953. See s. 346.65(2), 1957 Wisconsin Statutes.

1969 Chapter 383, Laws of 1969, created Wisconsin's Implied Consent Law. Under the law, persons who operate motor vehicles on highways are deemed to have given their consent to submit to a chemical test upon request by a police officer.

1973 Chapter 102, Laws of 1973, changed the prima facie blood alcohol concentration from .15 to .10, but continued the requirement for the need of corroborating evidence. By 1973, the penalty for first offense no longer included the option of jail.

1981 Chapter 20, Laws of 1981, restructured Wisconsin's OWI law. This law created the offense of intoxication as a matter of law if the person has an alcohol concentration in excess of .1 or more; corroborating evidence is no longer required. It eliminated the ability of prosecutors to plea bargain OWI offenses to lesser offenses. It required alcohol assessment as a condition of sentence for every person convicted of OWI, and it established a surcharge fund for the purpose of helping to underwrite assessment and treatment.

1983 Chapter 74, Laws of 1983, created an Absolute Sobriety provision for persons under the legal drinking age. In this same legislation the legal drinking age was changed to age 19. When the legal drinking age was changed to 21 in 1985, the absolute sobriety provision was left at age 19. See sec. 346.63(2m), Stats.

1985 Wisconsin Act 337 raised the drinking age to 21 effective September 1, 1986 and made other changes in statutory rules associated with underage drinking.

1987 Chapter 3, Laws of 1987, created immediate (30 days after the violation) license suspension for six months (Administrative Suspension) for any person with an alcohol concentration of .1 or greater. This law became effective on January 1, 1988.

1989 Chapter 105, Laws of 1989, created new OWI statutory provisions for commercial vehicle operators. This law created an absolute sobriety provision for commercial motor vehicle operators, and reduced the alcohol concentration level to .04 for persons operating commercial motor vehicles. These provisions became effective on January 1, 1991.

1992 Chapter 277, Laws of 1991, created new penalties and treatment opportunities for OWI repeat offenders. This law included possible seizure of vehicles, increased penalty for Homicide by Intoxicated Use, an alcohol concentration of .08 for persons with two or more offenses, and easier access to treatment. The provisions of this law became effective on January 1, 1993.

1996 Act 127 amended and expanded the OWI laws to include offenses taking place on rental property and in employee parking lots. The law does not pertain to private parking areas on farms or single-family residences.

1999 Wisconsin Act 109 increased penalties for repeat offenders, lowered prohibited alcohol concentrations in some instances and expanded the ability for courts to use ignition interlock devices along with other substantive changes.

Open Container (Driver) [346.935]	\$100 [346.95(2m)]					0
Open Container (Passenger) [346.935]	\$50 [346.95(2m)]					0

¹ Generally, second offenses are counted within a 10-year period. Most other offenses (third and subsequent) are counted within an individual's lifetime dating back to 1/1/89. [346.65(2)(b to e), 343.305(10)(b)3-4, 1997 Wis. Act 237, s. 9348(2f)]. The 10-year and lifetime periods are measured from the date of refusal or violation that resulted in conviction [346.65(2c)]. If second offenses occur within 5 years, vehicle must be immobilized or equipped with IID.

² Absolute sobriety is mandatory for an occupational license for persons with two or more suspensions, revocations or convictions [343.307(1), 343.10(5)(a)(2)].

³ Persons with 2 or more suspensions, revocations or convictions counted under 343.307(1), must complete assessment and be in compliance with a driver safety plan to be eligible for an occupational license [343.30(1q)(b)3 and 4, 343.10(2)(c)].

⁴ If repeat offender, court may immobilize, equip with an ignition interlock device (IID) or seize vehicle [940.09(1d), 940.25(1d)].

⁵ Assessments are required under [343.30 (1q) (c)].

⁶ Fines, forfeitures, jail and revocation/suspension penalties are doubled for a person convicted of OWI when a person under 16 years of age was in the vehicle at the time of the offense [346.65(2)(f) and (2)(j)(d), 343.30(1q)(b)4m, 343.305(10)(b)4m].

⁷ 1997 Wis Act 295, created new offenses of causing death or great bodily harm to unborn children by OWI and doubles the penalties if an unborn child is in the vehicle at the time the driver committed the offense of causing death or great bodily harm by OWI.

⁸ The vehicle owned by the offender and used in the offense may be immobilized or equipped with IID [343.30(1)(a) and (2)(a)]. For second or subsequent offenses within 5 years, all vehicles titled or registered in the offenders' name must be immobilized or equipped with IID [343.30(1)(a) and (2)(a), 343.305(10m)]. For third or subsequent the vehicle may be seized. [346.65(6)(a)1]

⁹ Additional fees, assessments and surcharges will also apply.

¹⁰ If offense is committed while operating as a commercial driver, then penalties will include a 1 year CDL disqualification (3 year disqualification if transporting hazardous materials, or lifetime disqualification for 2nd or subsequent OWI) [343.315(2)(a)(b)(c)].

¹¹ For third or subsequent OWI offenses, fines are increased according to blood alcohol concentration 346.65(2)(g)].

¹² For the scale of demerit points for all traffic violations, see trans 101.02 and 343.32(2), stats.; newly licensed drivers may be subject to increased demerit points [343.32(2)(bc)].

¹³ [343.10]

* This represents the deposit for this offense as set forth in the Uniform State Traffic Deposit Schedule, 2001 edition. If there was a passenger under 16 years of age in the vehicle, the forfeiture and costs are increased and the license suspension period is doubled.

¹ Court may stay enforcement of the sentence if the defendant agrees, and in turn, the court may require assessment and participation in a court-approved alcohol abuse education program or enrollment in a treatment program; however, the court may not stay, suspend or modify a mandatory drivers license suspension.

² Suspension is permissive for 1st offense, mandatory for 2nd and subsequent offenses 346.93 (2), (2g).

³ Forfeiture and period of suspension are doubled if the passenger is less than 16 years old 346.30(1p).

⁴ If a person does not hold a valid license at the time of disposition, the suspension period begins when they first apply for a license or two years from the disposition 343.30(6)(d).

⁵ Additional fees, assessment and surcharges will also apply.

COMMENTS ON PENALTIES FOR UNDERAGE ALCOHOL OFFENSES

Persons whose licenses are suspended or revoked for underage drinking violations other than *Absolute Sobriety* are eligible for occupational licenses 15 days after the suspension or revocation begins. [343.10(4)] Persons whose licenses are suspended for violating the *Absolute Sobriety* or "Not a Drop" law are eligible for occupational licenses immediately.

Underage persons are also subject to the provisions of Wisconsin's operating/driving motor vehicles while intoxicated laws. These laws include impairment/intoxication resulting from the use of illegal, over the counter or prescription drugs or combinations of drugs or alcohol. It is illegal in Wisconsin to operate snowmobiles, all-terrain vehicles, motor boats, aircraft and other motor vehicles while under the influence of alcohol or drugs or a combination of alcohol or drugs.

Underage Alcohol conviction records are confidential. The Department of Transportation may not disclose information concerning a suspension, revocation or restriction as a result of an underage alcohol conviction to any person other than a court, district attorney, municipal prosecuting attorney, law enforcement agency, the underage individual or his/her parents or legal guardian. [343.30(5), 343.24(3)]

¹ Fines, forfeitures, jail and revocation/suspension penalties are doubled for a person convicted of OWI when a person under 16 years of age was in the vehicle at the time of the offense. [346.65(2)(f) and (2j)(d), 343.30(1q)(b)4m, 343.305(10)(b)4m] For third and subsequent OWI offenses, fines are also increased according to blood alcohol level [346.65(2)(g)].

² If AC is greater than .10, it is punished under 346.63(1), with CDL disqualification under 343.315.

³ Additional fees assessments and surcharges will also apply.

* plus OWI \$355 surcharge [346.655]

Note: Similar convictions in other jurisdictions may cause a driver to lose his or her Commercial Driver License.

CMV = Commercial motor vehicle
OWI = Operating while intoxicated
Disq = Disqualified (cannot drive CMV or get CDL-OCC)
OCC = Occupational license
CDL = Commercial driver license
AC = Alcohol concentration
"H" = Hauling hazardous materials at time of offense
NA = Not applicable

CASE LAW UPDATE

PROCEDURAL ISSUES

State v. Raddeman, 2000 WI App 190, 238 Wis. 2d 628, 618 N.W.2d 258. The court of appeals held that prosecuting for both operating while intoxicated (OWI) and OWI with a prohibited alcohol concentration (PAC) does not violate a defendant's double jeopardy protections or due process rights. The court reasoned that it is possible for a person to have an alcohol concentration above the legal limit and yet not be "intoxicated." Thus, the two different charges do not constitute the "same offense" for purposes of double jeopardy.

State v. Smaxwell, 2000 WI App 112, 235 Wis. 2d 230, 612 N.W.2d 756. The trial court in this case dismissed the complaint because rather than using the legal term of art "incorporated by reference" to incorporate the incident report into the complaint, it simply stated that an incident report was attached. The court of appeals held that the trial court's ruling was "unnecessarily formalistic." The court reasoned that common sense dictated that the term "attached" was sufficient to incorporate the incident report into the criminal complaint and meant basically the same thing as "incorporated by reference."

IMPLIED CONSENT LAW

State v. Piddington, 2001 WI 24, 241 Wis. 2d 754, 623 N.W.2d 528, *petition for certiorari filed June 20, 2001*. The Wisconsin Supreme Court held that the implied consent law "requires the arresting officer under the circumstances facing him or her at the time of the arrest," to utilize reasonable methods to reasonably convey the implied consent warnings. The court recognized that previous decisions have addressed *what* information must be conveyed. In this case, however, the court focused on *how* the information should be conveyed to adequately inform a deaf suspect.

TRAFFIC STOPS

State v. Fields, 2000 WI App 218, 239 Wis. 2d 38, 619 N.W.2d 279. The court of appeals held that defendant's slightly longer than normal stop at a stop sign did not give rise to the level of "specific and articulable facts" necessary to justify a stop based on reasonable suspicion that defendant had committed or was committing an unlawful act. Here, the officer had a "hunch" that something was going on. However, the court reasoned that an investigative stop cannot be based on an inchoate and unparticularized suspicion or "hunch." The court held that the Fourth Amendment requires at least a minimal level of objective justification for making the stop.

SEARCH AND SEIZURE

State v. McGill, 2000 WI 38, 234 Wis. 2d 560, 609 N.W.2d 795. This case involved a protective search for weapons that turned up drugs subsequent to a routine traffic stop. The Wisconsin Supreme Court concluded that the officer's frisk of defendant was based upon specific, articulable facts that would lead the officer to reasonably believe defendant might be armed. The seizure of the object discovered during the frisk was based upon a reasonable belief that it was a knife. Further, the inspection of the foil-wrapped package the officer removed from defendant's pocket was based upon probable cause that it contained contraband. Therefore, the search, seizure, and inspection of the evidence seized in this case were reasonable under the Fourth Amendment.

State v. Pallone, 2000 WI 77, 236 Wis. 2d 162, 613 N.W.2d 568. The Wisconsin Supreme Court held that the search of a passenger's duffel bag in a car police stopped for an ordinance violation prohibiting open intoxicants in a motor vehicle was lawful for two reasons. First, the court held that the search was valid under the "search incident to arrest" exception to the warrant requirements. Second, the search was proper because police had probable cause to search the passenger compartment and any containers within the vehicle that might be capable of concealing the object of the search.

State v. Griffith, 2000 WI 72, 236 Wis. 2d 48, 613 N.W.2d 72. The Wisconsin Supreme Court held that when a passenger is seized pursuant to a lawful traffic stop, the seizure does not become unreasonable under the Fourth Amendment simply because the officer asks the passenger for identification during the stop. Passengers are free to decline to answer such questions, and refusal to answer will not justify prosecution nor give rise to any reasonable suspicion of wrongdoing.

BLOOD TEST ISSUES

State v. Thorstad, 2000 WI App 199, 238 Wis. 2d 666, 618 N.W.2d 240. The defendant in this case was arrested for OWI after being in a one-car crash and admitting to the officer that he had been drinking. The defendant submitted to a blood test under the Implied Consent Law and then argued that the blood test was an unreasonable search under the Fourth Amendment. The court of appeals held that the blood was properly obtained under the Implied Consent Law. Further, the court held that even in the absence of the Implied Consent Law, the blood draw was justified as a warrantless search under *State v. Bohling*, 173 Wis. 2d 529, 494 N.W.2d 399 (1993). Specifically, *Bohling* set out four requirements for a warrantless blood draw; namely, 1) The blood draw is taken to obtain evidence of intoxication from a person lawfully arrested for a drunk-driving related violation or crime; 2) There is a clear indication that the blood draw will produce evidence of intoxication; 3) The method used to take the blood is a reasonable one, performed in a reasoned manner; and 4) The suspect presents no reasonable objection to the blood draw.

NOTE: OWI arrests are for operating a motor vehicle while intoxicated. Liquor law violations are arrests for alcohol-related crimes other than OWI, such as Furnishing Alcohol to Minors and Drinking in Public. Also included are all Underage Drinking Violations such as Not a Drop, Consumption, and Possession. For these charts, adults are defined as persons 18 years old or older and juveniles are defined as persons under the age of 18 years.

While operating a motor vehicle while intoxicated (OWI) arrests for both adults and juveniles increased dramatically in the early 1980s, adult OWI arrests leveled off and juvenile arrests generally decreased in the late 1980s and early 1990s but both rose again in the late 1990s. The number of liquor law violations jumped considerably between 1976 and 1990. The number decreased in the early 1990s but has increased every year from 1993-1999. Adult liquor law arrests increased 38% between 1987 and 1988 alone. From 1999-2000, then, the number decreased for adults and for juveniles. Eighteen to 20 year-olds accounted for slightly more than 57% of the adult liquor law arrests in 2000.

NOTE: OWI arrests are for operating a motor vehicle while intoxicated. Liquor law violations are arrests for alcohol-related crimes other than OWI, such as Furnishing Alcohol to Minors, Drinking in Public and all Underage Drinking Violations such as Not a Drop, Consumption, and Possession. For this chart, juveniles are defined as persons under the age of 18 years. Totals printed here may not match the sum of county totals due to rounding and estimations. State Patrol OWI arrests cannot be tracked to a specific county. The figures printed here are drawn from Uniform Crime Reports; spaces in the table marked "-" mean that no number for that quantity was submitted on the form.

SOURCE: Office of Justice Assistance, Crime and Arrests in Wisconsin Reports 1993-2000, Table 7

NOTE: OWI arrests are for operating a motor vehicle while intoxicated. Liquor law violations are arrests for alcohol-related crimes other than OWI, such as Furnishing Alcohol to Minors, Drinking in Public and all Underage Drinking Violations such as Not a Drop, Consumption, and Possession. For this chart, juveniles are defined as persons under the age of 18 years. Totals printed here may not match the sum of county totals due to rounding and estimations. State Patrol OWI arrests cannot be tracked to a specific county. The figures printed here are drawn from Uniform Crime Reports; spaces in the table marked with "-" mean that no number for that quantity was submitted on the form.

TOTAL	37,060	100

Ranges of AC	Number & Percent
.01-.04	155 0.4%
.05-.09	1,411 3.8%
.10-.19	20,457 55.2%
.20-.29	9,487 25.6%
.30-.39	781 2.1%
.40 & above	32 0.1%

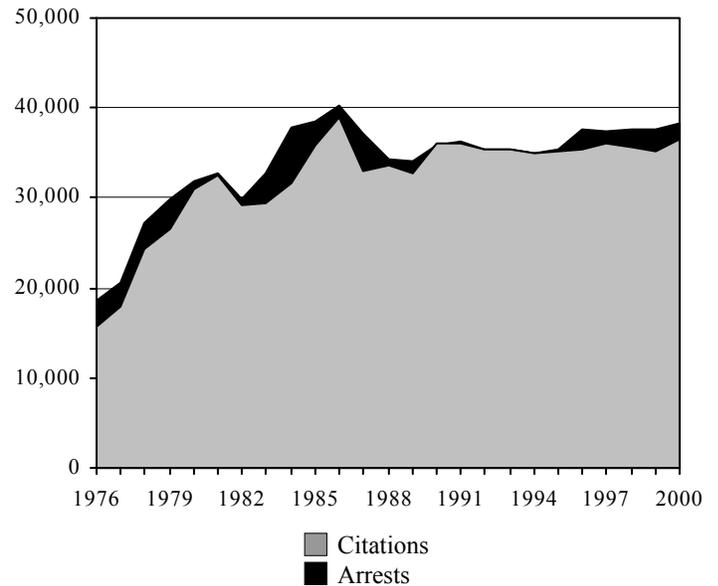

NOTE: The median AC represents the value of the mid-point of the AC test result distribution (i.e. half of the people tested had an AC of .17 or below and the other half had an AC of .17 or above). The median is based on all positive AC test results (.01 or above) since many of the "zero" values were actually unknown values.

Persons suspected by law enforcement personnel to be operating a motor vehicle while intoxicated can, if enough evidence is available to justify probable cause, be asked to submit to an exam of their blood, breath, or urine for alcohol content. The results of the analysis are conveyed to the Wisconsin Division of Motor Vehicles and incorporated into its citation database. This chart and graph depict the OWI test results collected during 2000; it does not include those who declined to take the test.

Since January 1990, the highest alcohol content (AC) recorded in Wisconsin has been 0.53. In other words, the driver's blood was more than one half of one percent alcohol.

SECTION 5: ALCOHOL CONVICTIONS

ADJUDICATED OWI CITATIONS AND OWI ARRESTS

This graph depicts arrests and citations for operating a motor vehicle while intoxicated. Definitions of *while intoxicated* have changed over time, which complicates trend analysis. Citations from 1976-1985 were ones which were processed; from 1986 to the present, only adjudicated citations are included. Adjudicated citations counted during a given year may include ones for which the arrest occurred in a prior year.

NOTE: The numbers in these tables represent a compilation of OWI citations adjudicated during a given year (status as of July, 2001) within a county. The violation itself may have occurred in a prior year. Violations are adjudicated in the county in which the citation was issued. Dismissed cases were thrown out by a judge before trial, withdrawn, or denied. Amended cases were ones where the original citation was reduced to a lesser or different charge. Keep in mind that the citation file may not be complete and that the conviction rate for a county is only one measure of its commitment to OWI prosecution.

2000 DISPOSITIONS OF OWI REFUSALS

The above graphic depicts the outcome of citations that were adjudicated in 2000 and entered on the DOT-DMV's Driver Record File by early July, 2001. It counts only those citations where it was known whether the alcohol test was taken or refused. Out of 36,530 total OWI citations adjudicated in 2000, the alcohol test was refused 5,176 (14.2%) times. Of the 5,176 cases where the alcohol test was refused, 4,816 (93.0 %) were eventually found guilty.

NOTE: These numbers represent only those cases adjudicated as of July, 2001 where the court type and county were known to be municipal or circuit. Adjudicated violations may have occurred in prior years.

SOURCE: DOT-DMV Citation File; DOT-DMV Driver Record File

Note: Refusals are instances where drivers do not consent to taking an alcohol test.

NOTE: Dismissed cases were thrown out by the judge before trial, withdrawn, or denied. Amended cases were ones where the charge was reduced to a lesser charge. This table includes only those cases where it was known whether the driver took the alcohol test or refused it. It also only includes those cases that had been entered in the Driver Record File by early July, 2001.

This chart counts traffic convictions entered on driver record files kept by the Division of Motor Vehicles. If the Wisconsin DMV is notified by another state, whose laws are comparable, of a conviction a driver collected in that state, the conviction will be added to the driver's Wisconsin driver record file. Commercial Alcohol (CA) convictions listed here include all commercial motor vehicle alcohol-related charge codes. Commercial Alcohol (CA) is a law that went into effect on January 1, 1991. Prohibitive Alcohol Content (PAC) and Underage Alcohol are laws that went into effect on February 1, 2000. Therefore, the first data for convictions of these types are for 1991 and 2000, respectively.

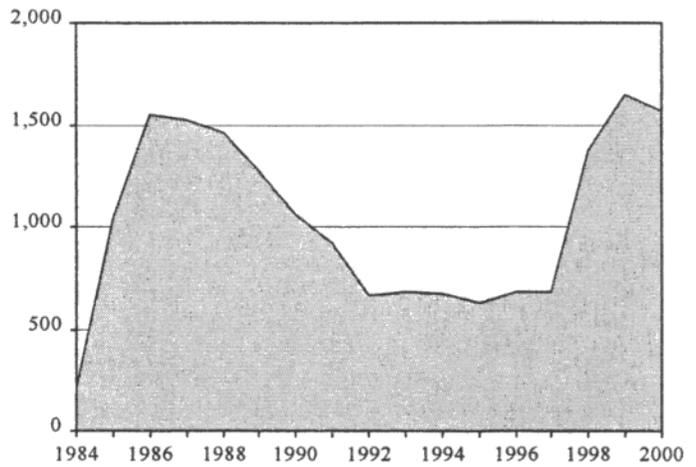

DMV Abbreviation	Charge Code	Description	Statute Number
OWI	55	Operating a motor vehicle under the influence of an intoxicant or controlled substance.	346.63(1)(a)
IIV	034	Intoxicant in vehicle carrying an underage person.	346.93
UAO	108	Underage alcohol operation - This is informally called "Absolute Sobriety" or the "Not a Drop" Law. In other words, persons who have not attained the legal drinking age (21 years) may not operate a motor vehicle while any alcohol is in his or her bloodstream.	346.63(2m)
IVO	112	Intoxicant in vehicle - operator. This is also called "Open Container-Driver."	346.935(3)
IVP	113	Intoxicant in vehicle - passenger. This is also called "Open Container-Passenger."	346.935(1),(2)
JA	103	Underage alcohol - Procuring or attempting to procure. Possession or consumption for those under the age of 17.	125.07(4)(a), (b) 125.09(2)
JID	111	Underage identification card - Persons under the age of 21 are not to possess or attempt to obtain documents which purport they are of legal drinking age.	125.085(3)(b)
NHI	120	Negligent homicide intoxicated - It is a felony to cause the death of another by the operation or handling of a vehicle while under the influence of an intoxicant.	940.09
OII	107	Intoxicant use causing injury - It is unlawful for any person to cause injury to another person by the operation of a motor vehicle while intoxicated or having a prohibited alcohol content.	346.63(2)(a)1,2
GBH	86	Intoxicant use causing great bodily harm - It is a felony to cause great bodily harm by the operation or handling of a motor vehicle while under the influence of an intoxicant or having a prohibited alcohol content.	940.25
CA	many	Commercial alcohol-related citations - Persons are not to operate commercial motor vehicles with ACs equal to or greater than .04 and less than .10.	346.63(5)(a) & others
PAC	212	Prohibited alcohol content - No person shall operate a motor vehicle with a prohibited alcohol content.	346.63(1)(b)
UAL	207	Underage alcohol - Successful or attempted possession or consumption of alcohol by persons between the age of 17 and 21 who are not driving a motor vehicle is generally not permissible.	125.07(4)(a) 125.07(4)(b)

UNDERAGE ALCOHOL OPERATION AND CONVICTIONS

UNDERAGE ALCOHOL CONSUMPTION AND CONVICTIONS

Beginning in 1982, youth under 18 who violated laws such as alcohol purchase, possession, on premises, false ID, on school grounds, at school sponsored activities, in a motor vehicle, and "not-a-drop" laws, were subject to fines, supervised community service, and/or suspension of their driver's license. In 1984, the legal drinking age was raised to 19 and to 21 in 1986. The graphs above depict trends in the number of persons who were convicted for such violations.

The numbers on this page only represent convictions entered on the DOT-DMV Driver Record File. Many counties offer local underage alcohol diversion programs. Successful completion of these programs can result in reduced sanctions such as not entering the conviction on the Driver Record File and/or not suspending the driver's license.

NOTE: Operation includes persons under the age of 21 who were operating a motor vehicle [346.63(2m)]. Operation suspension numbers represent the total number of court-ordered suspensions resulting from arrests and convictions that originated in that county. The case may have been adjudicated in a county other than where the arrest occurred. Consumption includes non-motor vehicle operation violations of persons under the age of 21 years [125.07]. These numbers represent convictions and suspensions that occurred in 2000 (status as of January, 2001). The violation may have occurred in a prior year.

Note: This table counts instances where a driver was convicted of having a prohibited alcohol content, operating while intoxicated, causing injury while intoxicated, causing great bodily harm while intoxicated, or committing homicide while intoxicated. These convictions (not drivers) were adjudicated in 2000 and entered onto the driver record file by early January, 2001. The violation may have occurred in a prior year. Drivers may have garnered more than one OWI conviction during the past year. Repeat offender status is determined by the number of OWI convictions that a driver received from violations in the past ten years for the first or second offense, or in the lifetime for a third or more offense. Lifetimes only date back to 1989. When comparing repeat offender statistics between years, it is important to be aware of the many recent legislative changes that have been made to the criteria used to determine repeat offender status. Convictions that drivers garnered in other states and convictions where the county was unknown are not included in this table.

OWI DRIVER HISTORY PROFILE

The Operating While Intoxicated (OWI) driver history profile represents a snapshot of drivers in the DOT-DMV driver record file who have earned at least one OWI conviction for violations during 1990-2000, or three or more since 1989. Currently, the following offenses are counted to determine repeat offender status: operating while intoxicated (OWI), causing injury while OWI, causing great bodily harm while OWI, homicide while OWI, prohibited alcohol content (PAC) and chemical test refusal.

Repeat offender status for OWI convictions is determined by the number of OWI convictions that a person received from violations in the past ten years for the first or second offense, or in their lifetime for the third or more offense; however, no convictions for violations prior to 1/1/89 are counted. *When comparing repeat offender statistics to those shown in prior years, it is imperative to consider the many legislative changes that have been made to the criteria used to determine repeat offender status.*

The snapshot was taken in early January, 2001, so some convictions from late 2000 are likely to have not been received at the Department of Transportation and entered on the driver record file by that time.

The history profile shows that there were 293,757 drivers with 389,351 OWI convictions; 58,931 (20.1%) of the drivers were repeat offenders. Eighty (80%) percent of the drivers with one OWI conviction were males and 85% of the repeat offenders were males. The median age of drivers with one or more OWI convictions in the history profile was 38 years old.

Note: This history profile is as of January, 2001. Drivers are counted who have one or more of the following convictions: operating while intoxicated, negligent homicide while intoxicated, intoxicant use causing injury, intoxicant use causing great bodily harm, or prohibited alcohol content. Age means age of the driver in 2000. "*" means that a small number in the sum precludes the calculation of a median

SECTION 6 ALCOHOL CRASHES

2000 MANNER OF COLLISION IN ALCOHOL-RELATED CRASHES

2000 PRIMARY CONTRIBUTING FACTORS IN ALL MOTOR VEHICLE CRASHES

Note: This pie chart depicts possible driver or pedestrian causes of crashes based on the accident report. The numbers for this report were calculated differently than in prior years and may not directly compare.

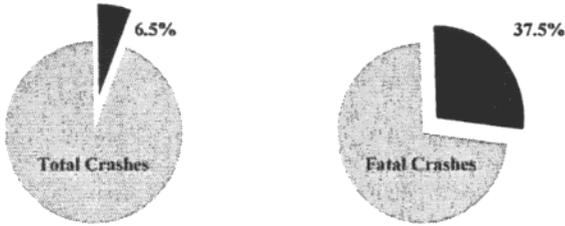

In 2000, out of 139,510 total motor vehicle crashes in Wisconsin, 9,096 were alcohol-related (7%). That is, at least one driver, pedestrian or bicyclist involved in the crash had been drinking prior to the crash. Of those 9,096 crashes, 4,338 (48%) involved a vehicle striking a fixed object.

58	0.6%	Deer/Animal
167	1.8%	Pedestrian/Bicyclist
228	2.5%	Head on
323	3.6%	Other/Unknown
498	5.5%	Sideswipe
628	6.9%	Parked motor vehicle
743	8.2%	Overturning
967	10.6%	Rear end
1,146	12.6%	Angle
4,338	47.7%	Fixed object

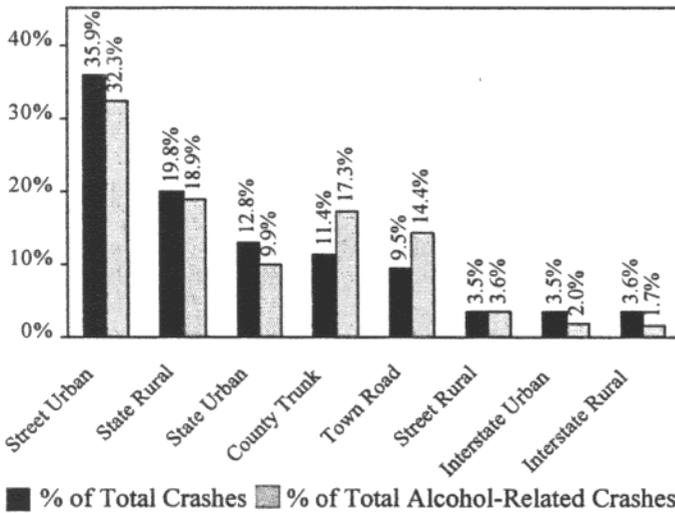

SOURCE: DOT-DMV Accident Database

PERCENT OF CRASHES THAT WERE ALCOHOL-RELATED

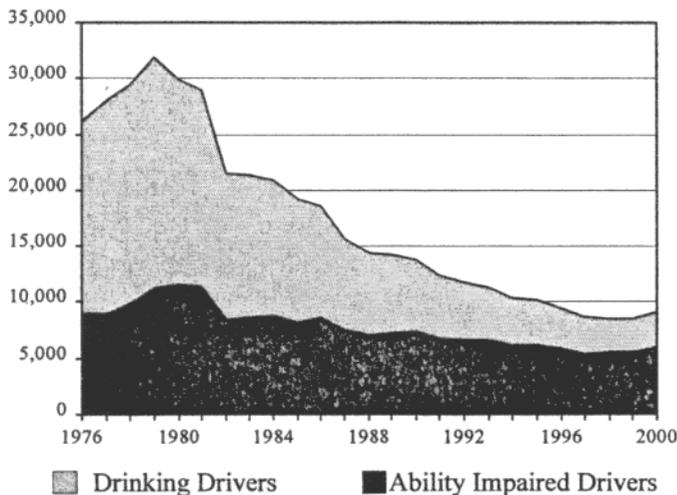

During 2000, 9,096 crashes (6.5%) involved one or more drivers, pedestrians or bicyclists who had been drinking. However, 269 of the 718 fatal crashes (37.5%) involved alcohol. In 1979, Wisconsin experienced 593 alcohol-related fatalities. Since that time, alcohol-related fatalities have declined 49.2% to 301 fatalities in 2000. Alcohol-related injuries have likewise declined (63.4%): from 18,681 in 1979 to 6,836 in 2000.

TOTAL CRASHES AND ALCOHOL CRASHES BY HIGHWAY TYPE

DRINKING DRIVERS IN REPORTABLE TOTAL CRASHES 1976-2000

Note: Ability Impaired drivers are those perceived by the investigating officer to have been impaired. A driver could have an alcohol concentration (AC) under 0.10 and still have impaired ability.

ALCOHOL-RELATED CRASHES BY SEGMENT OF DAY

WEEKEND ALCOHOL-RELATED CRASHES BY HOUR OF DAY

Note: One-third of all alcohol-related crashes occur over the two eight hour periods between 10 pm Friday evening and 6 am Saturday morning and 10 pm Saturday evening to 6 am Sunday morning. The most frequent hour for alcohol-related crashes is between 2 am and 3 am on Saturday and Sunday.

The chart at the top right of this page counts crashes, fatalities, and injuries; the chart below it counts fatalities and injuries. The chart to the left counts drinking drivers in crashes that occur in a particular Wisconsin county. Whether the drinking driver involved was a Wisconsin resident or not was determined by the law enforcement officer who completed the crash report form.

TWENTY YEAR SUMMARY OF CRASH RATE FOR DRINKING DRIVERS BY AGE

NOTE: Rates per 1,000 licensed drivers. All rates have had significant declines after each legislative action.

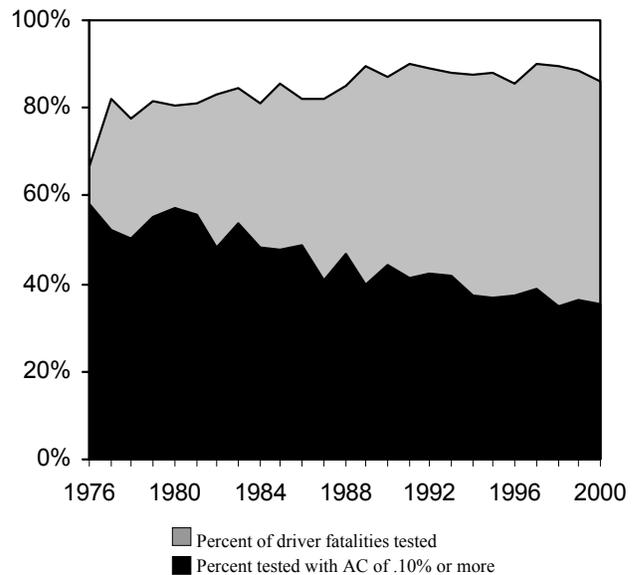

Alcohol concentration assays are supposed to be performed for all motor vehicle crash fatalities. Results are collected by the Division of Motor Vehicles Traffic Accident Section and stored in its Traffic Accident Database. The percent of deceased drivers who were administered a test of their alcohol concentration increased from 67% in 1976 to 90% in 1991. For 2000, the rate of alcohol concentration testing was 86%, which remains a significant improvement. Passage of time and sample contamination contribute to the number of deceased drivers whose blood is not tested for alcohol. Although the percent of OWI driver fatalities decreased from 58% in 1976 to 36% in 2000, it is still a major traffic safety concern.

DRIVER FATALITIES 1976 -2000

This chart and graph depict counts of drivers of motor vehicles, including motorcycles, who died in traffic crashes on Wisconsin roads. A driver whose alcohol concentration (AC) is .10 or greater is considered to be operating while intoxicated (OWI).

DRIVERS IN FATAL CRASHES BY ALCOHOL CONCENTRATION (AC) TEST RESULTS 25-YEAR SUMMARY

2000 SAFETY BELT USE BY DRIVERS AND OCCUPANTS IN VEHICLE WITH A KILLED OR SEVERELY INJURED DRIVER

In severe crashes, about 25% of the drinking drivers killed or severely injured used safety restraints in 2000. Occupants in those vehicles with the killed or severely injured drinking driver used safety restraints about 29% of the time. It appears that the risk-taking behavior of the drivers carries over to the passengers; they have the same habit of not using safety restraints.

In severe crashes involving a non-drinking driver, severely injured or killed drivers used safety restraints over 65% of the time. Occupants in the same vehicles used safety restraints 59% of the time. It also appears that non-drinking drivers, as well as their occupants, use safety restraints two to three times as often as drinking drivers and their occupants.

2000	66	37	5	23	42.4%	34.8%

The DMV Accident Database contains reports of blood alcohol concentrations of motorcycle drivers killed in motor vehicle crashes. In 2000, 23 (35%) of all motorcycle drivers killed had an AC of .10 or more. The rate of motorcyclists in crashes who had been drinking is much higher than the rate for all drivers in crashes. In 2000, 147 of every 1,000 motorcycle drivers in crashes had been drinking compared to 84 of every 1,000 total drivers in crashes.

MOTORCYCLE DRIVER FATALITIES 1987-2000

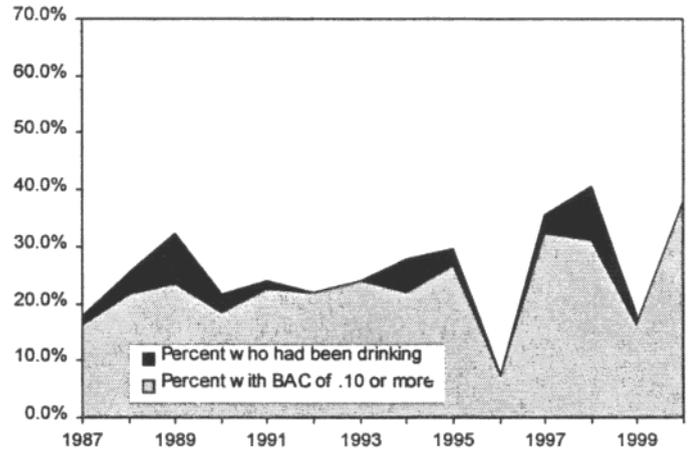

PEDESTRIAN FATALITIES BY BLOOD ALCOHOL CONCENTRATION TEST RESULTS

Year	Pedestrian Fatalities	Alcohol Concentration			% with some alcohol	% with AC .10+
		Negative or Unknown	.01-.099	.10+		
1991	58	44	1	13	24.1%	22.4%
1992	50	39	0	11	22.0%	22.0%
1993	54	41	0	13	24.1%	24.1%
1994	50	36	3	11	28.0%	22.0%
1995	64	45	2	17	29.7%	26.6%
1996	54	50	0	4	7.4%	7.4%
1997	62	40	2	20	35.5%	32.3%
1998	64	38	6	20	40.6%	31.2%
1999	55	45	1	9	18.2%	16.4%
2000	50	31	0	19	38.0%	38.0%

The DMV Accident Database contains reports of blood alcohol concentrations of pedestrians killed in motor vehicle crashes. In 2000, nineteen (38%) of the pedestrians killed had an AC of .10 or more. During the past five years, 21-44 year olds accounted for 60% of the drinking pedestrian fatalities compared to 28% of all pedestrian fatalities. Seventy-nine percent (79%) of the drinking pedestrians killed were male compared to 65% of all pedestrians killed. Most drinking pedestrian fatalities occur between 6 p.m. and 4 a.m.

PEDESTRIAN FATALITIES 1987-2000

DRINKING RATES FOR DRIVERS, PEDESTRIANS AND BICYCLISTS IN CRASHES

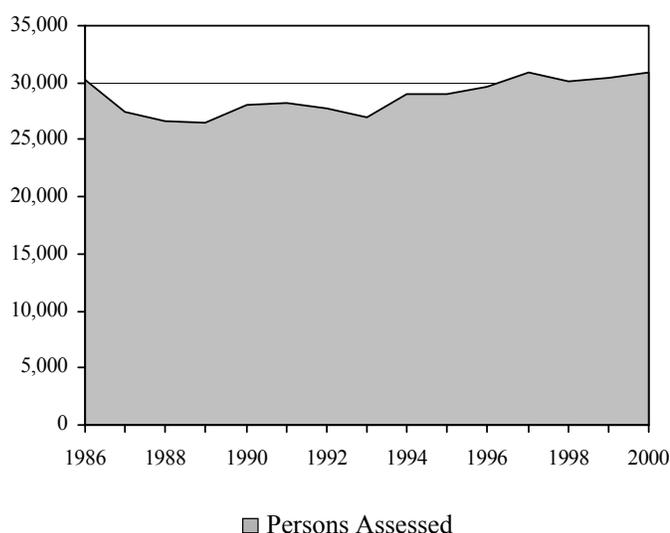

Year	Drivers of All Vehicles Drinking Rate	Motorcycle Driver Drinking Rate	Pedestrian Drinking Rate	Bicyclist Drinking Rate
1991	53	200	77	24
1992	51	175	76	25
1993	48	167	77	22
1994	41	154	86	16
1995	41	130	81	23
1996	41	157	79	24
1997	40	156	93	24
1998	40	149	89	26
1999	39	140	68	21
2000	39	147	84	25

Note: The *Drinking Rate* is the number of drinking drivers, pedestrians or bicyclists per 1,000 drivers, pedestrians or bicyclists in crashes.

SECTION 7: DRIVER SAFETY PLANS

**COURT ORDERED OWI ASSESSMENTS
BY CONVICTION YEAR**

Conviction Year	Persons Assessed
1986	30,239
1987	27,487
1988	26,674
1989	26,546
1990	28,122
1991	28,274
1992	27,815
1993	26,890
1994	29,031
1995	28,996
1996	29,580
1997	30,946
1998	30,135
1999	30,404
2000	30,924

Under Wisconsin law, people convicted of operating a motor vehicle while intoxicated (OWI) or related offenses are ordered by the court to submit to an assessment of their alcohol and drug use.

An alcohol or drug assessment consists of an interview by an alcohol and other drug abuse (AODA) counselor, in which the counselor classifies the client's problems using a standardized evaluation tool. In Wisconsin, these assessments are completed by AODA professionals in county public treatment facilities. The counselors are generally available in the county of residence for the OWI offender; in some cases, the offender must travel to a neighboring county. As part of the assessment, a driver safety plan is developed for the client.

Driver safety plans are individualized education/treatment programs based on alcohol or drug assessment findings. The following are appropriate driver safety plan programs for specified assessment findings:

- **Irresponsible Use (IU):** Referred to Group Dynamics or Multiple Offender Traffic Safety School programs and, in cases with extenuating factors, to other alcohol/drug education programs and possible outpatient treatment.

- **Irresponsible Use - Borderline (IUB):** Referred to an alcohol/drug education program or a combination of education and outpatient counseling, or short term outpatient individual or group counseling.

- **Suspected Alcohol/Drug Dependence (SD):** Referred to outpatient treatment programs offered at approved facilities throughout the state.

- **Alcohol/Drug Dependence (D):** Referred to inpatient treatment programs or extensive outpatient treatment facilities.

- **Alcohol/Drug Dependence in Remission (DR):** Referred to any combination of treatment programs.

* The initial assessment plus any amendment(s) conducted on one driver are counted as one assessment.

** This count includes the multiple findings of both alcohol and controlled substance/other drug use per driver as reported on the initial assessment.

IU = Irresponsible use, IUB = Irresponsible use-borderline, SD = Suspected alcohol/drug dependence, D = Alcohol/drug dependence, DR = Alcohol/drug dependence in remission

* Count includes programs reported as: Alcohol Education, 1 Day Alcohol Education, DWI Clinic, Out of State Alcohol Education, Level I and Level II Alcohol Education, etc.

** Count includes all outpatient treatment plus types of outpatient programs specifically reported as: Day Care, Aftercare, Evening Care, Group Therapy and Night Care & Out of State Treatment Plans, etc.

*** Count includes programs reported as: Transitional Living, Halfway House, Residential Care and Extended Care Treatment, etc.

**** Count does not represent number of driver safety plans (DSP) written, because multiple programs and/or amended plans may be recommended per driver. Additional plan requirements such as AA, NA, Abstinence, Detox, Victim's Panel, Exams, etc. are not included in these statistics.

* Plans are waived for 3 reasons: 1) Assessment on file & received new assessment from different agency for same offense, 2) New OWI offense while in a DSP & received new assessment, or 3) OWI vacated and DOT cannot take action.

** Extended - DSP is not amended, but extra time has been requested to complete plan recommendations.

*** Received - Assessments performed after July 31, 2000, with driver safety plan recommendations not yet completed, remain in "Received" status for 1 year from assessment date.
