

# WISCONSIN AERONAUTICAL CHART

**CONTACT INFORMATION**  
 Main Office (608)266-3351  
 Aircraft Registration (608)266-9657  
 Website wisconsin.gov/aeronautics

- ### AERONAUTICAL SYMBOLS
- Airports having Control Towers are shown in Blue, all others in Magenta. Consult Chart Supplement for details involving airport lighting, navigation aids, and services.
- AIRPORT INFORMATION**
    - Airports with hard-surfaced runways
    - Airports with no hard-surfaced runways
    - Military airports with no hard-surfaced runways
    - Seaplane Base
    - Airports with fuel available
    - \*RP Special traffic patterns exist - see supplement
  - HIGHWAY MARKERS**
    - Interstate Route Marker
    - U.S. Route Marker
    - State Route Marker
  - MISCELLANEOUS**
    - Obstruction above 500 ft & below 1000 ft AGL
    - Obstruction 1000 ft and higher AGL
    - Obstruction with high-intensity lights
    - Wind Turbine Farm
    - Indicates airport has rotating beacon
    - Parachute Landing Area
    - Glider Operations
    - Ultra-light Activity
    - Hang Glider Activity
    - Stadium
  - RADIO FACILITIES**
    - All VHF radio facility data are printed in blue; LF/MF radio facility data are printed in magenta.
    - Non-directional radio beacon
    - VOR • VORTAC • VOR-DME
    - Thin line box with freqs above are removed to NAVD85. Other freqs at controlling FSS may be available determined by altitude and terrain. Box without freqs and controlling FSS indicates no FSS freqs available.
    - Heavy line box indicates Flight Service Station (FSS). Freqs 121.5, 122.2, 243.0 and 251.4 are normally available at all FSS's and are not shown above boxes. All other freqs are shown. R = receive only. T = transmit only.
  - CONTROLLED AIRSPACE**
    - Class B Airspace
    - Class C Airspace
    - Class D Airspace
    - Class E Airspace
    - Terminal Radar Service Area (TRSA)
    - Boundary of State and National Park areas.
    - U.S. Fish and Wildlife Service areas and U.S. Forest Service Wilderness and Primitive areas.
    - Restricted Area
    - Military Operation Area
  - WISDOT-BUREAU OF AERONAUTICS WEBSITES**
    - Airport directory wisconsin.gov/airport
    - Aviation publications wisconsin.gov/av-pubs
    - Airport fly-ins wisconsin.gov/avirents
    - Aviation training and events wisconsin.gov/avtraining
    - Aviation education wisconsin.gov/aviationeducation
    - Fly Wisconsin Airport Passport Program wisconsin.gov/flywi
  - WISDOT AIRPORT DATA**
    - Wisconsin airport data is available for download in KML or shape file format from the following websites:
    - Airport reference points wisconsin.gov/arp
    - Air operations areas wisconsin.gov/aoa
  - REPORTING CHART ERRORS**
    - You are requested to inform us of chart errors and/or additions that come to your attention while using this chart. Please contact the WisDOT-Bureau of Aeronautics at [boadatupdates@dot.wi.gov](mailto:boadatupdates@dot.wi.gov)

### WEATHER

All pilots know that weather is one of the greatest and most difficult safety risks to assess. It is important to stay proficient with weather knowledge, resources and assessment skills. Be sure to check NOTAMS often for runway/airport/field condition (FICOM) reports and closure information.

WisDOT offers a one-of-a-kind specialized weather briefing and flight planning tool developed by DTN. To sign up for this free service visit:

[wisconsin.gov/weather](http://wisconsin.gov/weather)

### SAFETY

*We all have a role in reducing accidents, incidents and fatalities.*

Although flying is still one of the safest modes of transportation, we can all work together and find ways to prevent accidents. Wisconsin pilots and mechanics have worked very hard to successfully improve our safety record, and many of them are actively participating in the FAA Wings program by attending FAA Safety Seminars across our state.

[wisconsin.gov/avtraining](http://wisconsin.gov/avtraining)

### Safety training opportunities

The WisDOT Bureau of Aeronautics partners with the Federal Aviation Administration and others to provide safety seminars for all aviation enthusiasts. Visit [FAASafety.gov](http://FAASafety.gov) often for an up-to-date listing of future events like these:

- Pro-Tips Series webinars for Mechanics, CFIs and Pilots
- "Stall Effect" seminars with WINGS flight activities
- Maintenance Conference and IA renewal seminar
- Flight instructor workshops
- Many more seminars, courses and webinars

### WILDLIFE

BOA has resources to help mitigate impacts to and from wildlife on and near Wisconsin airports. Additionally, wildlife may be attracted to local projects like landfills and retention/detention ponds which could adversely impact aircraft and airport operations. Proper planning and coordination is the first step in protection our states aeronautical investments. For further information or assistance regarding wildlife concerns please contact Michael Menon at [michael.menon@dot.wi.gov](mailto:michael.menon@dot.wi.gov)

**REPORT WILDLIFE STRIKES**  
[wildlife.faa.gov](http://wildlife.faa.gov)

### RUNWAY INCURSIONS

Runway incursions continue to be a complex and prevalent issue. Many factors lead up to a runway incursion, excursion or incident. Pilots can help lower the number of occurrences by staying focused while the aircraft is moving, being familiar with the airport and current airport diagram, and checking NOTAMS often for construction, weather and other non-typical situations. Pilots must plan properly for all phases of flight and that includes understanding the airport environment. It is also equally important to fully understand and follow ATC clearances and instructions and know all airport signs and markings.

**"Line Up and Wait"** has replaced the **"Position and Hold"** instruction for taxiing onto a runway to await takeoff clearance.

**STOP**

If you are unsure of clearance instructions, where you are or what to do, STOP and ask ATC for help!

### ATCT Light Gun Signals

COLOR AND TYPE OF SIGNAL	AIRCRAFT ON THE GROUND	AIRCRAFT IN FLIGHT
STEADY GREEN	Cleared for takeoff	Cleared to land
FLASHING GREEN	Cleared for taxi	Return for landing
STEADY RED	STOP	Give way and continue circling
FLASHING RED	Taxi clear of the runway in use	Airport unsafe, do not land
FLASHING WHITE	Return to starting point on airport	-
ALTERNATING RED/GREEN	EXERCISE EXTREME CAUTION	

### RUNWAY CONDITION ASSESSMENT MATRIX (RCAM)

RUNWAY CONDITION DESCRIPTION	FICOM CODE	BRAKING ACTION
Dry	6	Good
Frost	5	Good
Wet (includes damp and less than 1/8 inch depth or less of water)	5	Good
Less than 1/8 inch (3mm) depth of:		
• Slush	4	Good to Medium
• Dry snow	4	Good to Medium
• Wet snow	4	Good to Medium
5°F (-15°C) and colder outside air temperature		
• Compacted snow	4	Good to Medium
• Slippery when wet (wet runway)		
• Dry snow or wet snow (dry depth) over compacted snow		
Greater than 1/8 inch (3mm) depth of:		
• Dry snow	3	Medium
• Wet snow	3	Medium
Warmer than 5°F (-15°C) outside air temperature:		
• Compacted snow	2	Medium to Poor
Greater than 1/8 inch (3mm) depth of:		
• Water	2	Medium to Poor
• Slush	2	Medium to Poor
• Ice	1	Poor
• Wet ice	0	Nil
• Slush over ice	0	Nil
• Water over compacted snow	0	Nil
• Dry snow or wet snow over ice	0	Nil

For additional information see FAA Advisory Circular 91-79A

### PILOT'S GUIDE TO AIRPORT SIGNS AND MARKINGS

#### Airport Signs

TYPE OF MARKING	ACTION OR PURPOSE	TYPE OF MARKING	ACTION OR PURPOSE
<b>B 4-22</b>	<b>TAXIWAY/RUNWAY HOLDING POSITION:</b> Hold short of intersecting runway	<b>ILS CRITICAL AREA BOUNDARY:</b> When exiting runway, sign shows boundary of ILS Critical Area	<b>RUNWAY BOUNDARY:</b> Exit boundary of runway or approach protected areas
<b>25-7</b>	<b>RUNWAY/RUNWAY HOLDING POSITION:</b> Hold short of intersecting runway	<b>RUNWAY EXIT:</b> Defines direction and designation of exit taxiway from runway	<b>TAXIWAY DIRECTION:</b> Defines direction and designation of intersecting taxiway(s)
<b>8-APCH</b>	<b>RUNWAY APPROACH HOLDING POSITION:</b> Hold short of protected area when instructed by ATC	<b>NO ENTRY:</b> Identifies paved areas where AIRCRAFT entry is prohibited	<b>OUTBOUND DESTINATION:</b> Defines direction to take-off runways
<b>ILS</b>	<b>ILS CRITICAL AREA HOLDING POSITION:</b> Hold short of ILS critical area when instructed by ATC	<b>TAXIWAY LOCATION:</b> Identifies taxiway location on which vehicle/aircraft is located	<b>INBOUND DESTINATION:</b> Defines directions for arriving aircraft
<b>NO ENTRY</b>	Identifies paved areas where AIRCRAFT entry is prohibited	<b>RUNWAY LOCATION:</b> Identifies runway on which vehicle/aircraft is located	<b>TAXIWAY ENDING MARKER:</b> Indicates taxiway does not continue
<b>B</b>	<b>TAXIWAY LOCATION:</b> Identifies taxiway location on which vehicle/aircraft is located	<b>4</b>	<b>RUNWAY DISTANCE REMAINING:</b> Indicates runway distance remaining in increments of 1,000 feet
<b>22</b>	<b>RUNWAY LOCATION:</b> Identifies runway on which vehicle/aircraft is located	<b>ELEVATED GUARD LIGHTS HOLD SHORT</b>	<b>IN-PAVEMENT GUARD LIGHTS HOLD SHORT</b>
<b>4</b>	<b>RUNWAY DISTANCE REMAINING:</b> Indicates runway distance remaining in increments of 1,000 feet	<b>DIRECTION SIGN ARRAY:</b> Identifies location in conjunction with multiple intersecting taxiways	

#### Airport Markings

TYPE OF MARKING	ACTION OR PURPOSE	TYPE OF MARKING	ACTION OR PURPOSE
<b>HOLDING POSITION:</b> Hold short of intersecting runway; also a land-and-hold-short marking	<b>HOLDING POSITION WITH ENHANCED TAXIWAY CENTERLINE:</b> Alerts of an approaching runway	<b>NON-USABLE</b>	
<b>ILS CRITICAL AREA:</b> Hold short when instructed by ATC	<b>TAXIWAY/TAXIWAY HOLDING POSITION:</b> Hold short of intersecting taxiway when directed by ATC	<b>SOLID TAXIWAY EDGE:</b> Defines edge of usable, full-strength taxiway pavement; adjoining pavement NOT USABLE	
<b>(NOMI) MOVEMENT AREA BOUNDARY:</b> Defines boundary of movement area and non-movement area	<b>SURFACE PAINTED HOLDING POSITION:</b> Designates runway ahead in conjunction with yellow holding position marking	<b>AVAILABLE</b>	
<b>1419 1419</b>	<b>SURFACE PAINTED TAXIWAY DIRECTION:</b> Direction and designation of intersecting taxiway	<b>DASHED TAXIWAY EDGE:</b> Defines edge of taxiway where adjoining pavement or apron IS AVAILABLE for taxi	
<b>SE</b>	<b>LOCATION IDENTIFIED TAXIWAY:</b> Identifies taxiway on which aircraft is located	<b>ACTION OR PURPOSE</b>

**Dear Wisconsin aviators,**

Thank you for your commitment to a critical service throughout Wisconsin.

Folks in Wisconsin elected me governor to make our transportation infrastructure work. Part of that job is making sure our 123 public-use airports are as safe, reliable and resilient as possible.

By working with our federal partners, we are ready to make major investments over the next five years through funding provided by the Bipartisan Infrastructure Law (BIL).

Nearly \$40 million in BIL funding is already allocated for improvements at many Wisconsin airports this year, part of approximately \$198 million dedicated to Wisconsin's airports over the next five years. In addition, \$5 billion in federal discretionary funding will be available over the next five years for airport terminal projects, including projects that expand accessibility for persons with disabilities, improve access, improve energy efficiency and improve safety. I will work hard to secure this funding and will continue to invest state resources, as my two budgets provided.

The United States built modern aviation, and it is time for us to elevate our airports. I want Wisconsin to lead the way. As hosts for more than 50 years of AirVenture Oshkosh, the world's greatest aviation celebration, we know how to showcase all the advantages of flight. Together we can seize this opportunity to make transformative improvements.

Thank you for your commitment to air travel in Wisconsin. I wish you safe flights and smooth landings.

**Governor Tony Evers**  
State of Wisconsin

**Welcome to the new edition of the Wisconsin Aeronautical Chart!**

The Wisconsin Department of Transportation Bureau of Aeronautics (BOA) works hard to bring you this publication to support safe and enjoyable flights to our state's 123 public use airports.

The BOA's work is collaborative, and I want to thank all the airport owners, consultant engineers, the Federal Aviation Administration (FAA) and the construction industry who take part in airport improvements and informing this chart.

Projects such as pavement reconstruction, lighting and navigational aid improvements, and snow removal upgrades help make our airports safer, but that's not the whole picture. Your skills, knowledge and commitment to protocols are what allow air travel to work.

These skills are invaluable. And over the past few years, we should all appreciate the critical need for those who can make our transportation infrastructure more resilient and flexible.

If I can make one ask, it is to share these abilities with the next generation. Please introduce aviation to a young person – one flight may open up a new world and make us all the better for it.

**Secretary Craig Thompson**  
Wisconsin Department of Transportation

**WISCONSIN PUBLIC USE AIRPORTS** For information on tourism activities at Wisconsin airports visit [www.travelwisconsin.com](http://www.travelwisconsin.com)
