Thank you for your invaluable contributions to aeronautics in Wisconsin. Our airports are a gateway connecting the state's pilots, businesses, and residents with the rest of the world, and we must ensure they meet the global standards of safe travel.

As governor, I am committed to helping Wisconsin grow and thrive by dedicating resources to support a modern, safe, and efficient multimodal transportation system. The 2023–2025 state budget funds the Airport Improvement Program for air traffic control system upgrades, and we are also working with federal partners to make major investments in airports through the Bipartisan Infrastructure Law (BIL).

Nearly \$117 million in BIL funding is already allocated for improvements at many Wisconsin airports this year, part of approximately \$198 million dedicated to Wisconsin's airports over the next five years. In addition, \$5 billion in federal discretionary funding will be available over the next five years for airport terminal projects, including projects that expand accessibility for persons with disabilities, improve access, improve energy efficiency, and improve safety. Airports across the state are already seeing these great improvements,

such as the Dane County Regional Airport, which received a \$2.6 million grant to improve safety by reconstructing a portion of the terminal entrance

road. Together, we will continue working to improve our airports as they serve as economic hubs to grow Wisconsin communities and the region.

Thank you for helping us showcase aeronautics in our great state. It's advocates like you who keep Wisconsin at the forefront of innovation in aviation.

Thank you for taking time to review the 2024–2025 Wisconsin Aeronautical Chart.

This new guide will keep you informed of the latest air resources and safety measures in Wisconsin. The chart is put together by a dedicated team in the Wisconsin Department of Transportation (WisDOT) Bureau of Aeronautics. The bureau collaborates with stakeholders in the aviation

can enjoy safe travel no matter how they get around our interconnected transportation system. Whether providing pilot training and resources, planning maintenance projects at airports across the state, or studying the latest innovations and initiatives, our team strives to support all the transportation needs of the people of Wisconsin. Aeronautical safety, on the ground and in the air, is a key

industry and beyond to make sure people in Wisconsin

priority. We work together with our local communities to continuously improve airport facilities so we can keep air traffic moving safely and efficiently through Wisconsin. We will continue planning projects that make airports safer and

more efficient as aviation grows and evolves around the world. Your commitment to maintaining expert aviation knowledge and skills plays a critical role in those efforts. Thank you for all you do to help us support Wisconsin's aviation future.

AIRPORT PASSPORT Program

Who is eligible? Pilots and passengers from any state may participate in the program.

Share your love of aviation Participants are invited to join the Fly Wisconsin Facebook group to connect with other participants and share their adventures. Join the group by visiting facebook.com/groups/flywi

Questions Call us at (608)266-3351 or email us at FlyWI@dot.wi.gov.

FLY WISCONSIN

Airport Passport Program The Wisconsin Department of Transportation and the Wisconsin Airport Management Association have teamed up to launch the Fly Wisconsin Airport Passport Program. The program promotes safety and education by awarding pilots and passengers for visiting Wisconsin airports and aviation attractions, as well as attending FAA safety seminars.

Aeronautical

How to participate

Register for the Fly Wisconsin Airport Passport Program by visiting our website wisconsindot.gov/flywi or mail in a registration card from a participating airport. Once you receive your passport booklet, start collecting airport stamps! Program rules and a

list of stamp locations can also be found on our website.

Recognition awards Participants have the opportunity to earn three levels of awards.

SYSTEMS (UAS)

UNMANNED AIRCRAFT

2024-2025

UAS are quickly becoming major users of the National Airspace System. UAS are aircraft which may require registration and their operators are pilots. In fact, there are over 6,000 FAA certified Commercial UAS pilots in Wisconsin. All UAS pilots need to review local, state and federal regulations regularly and remain well clear of

B4UFLY

Utilize FAA's **B4UFLY Service** For further information: www.FAA.gov/UAS

manned aircraft operations.

AVIATION EVENTS

The Bureau of Aeronautics hosts a variety of conferences and seminars to promote knowledge sharing and relationship building within the Wisconsin aeronautical community. Here are just a few of the events we sponsor

- Airport sponsor workshop
- Airport operations seminar

Airshows

· Volk Field fly-In · AMT and IA renewal seminar

These events are open to anyone who wants to attend, but advanced registration may be required, feel free to call if there are questions.

- Additionally, our website lists events hosted by airports such as:
- Fly-in/drive-ins Pancake breakfasts Safety seminars

First responder/

AVIATION EDUCATION

Are you interested in an aviation career? Would you like resources and educational opportunities for students?

- Visit our website for information on these things and more:
- Aviation art contest • K-12 educational programs
- and resources • Aviation Youth Apprenticeships Aviation summer camps and programs
- Wisconsin air and space museums • Wisconsin flight schools
- · Aviation degree programs in Wisconsin Scholarship information • Aviation Careers Education

(ACE) program

To learn more about Aviation Education or to partner with us, contact the Aviation Education Program Manager.

BUREAU OF AERONAUTICS The Wisconsin State Airport System is a global gateway that safely, responsibly and

DOING BUSINESS WITH THE

efficiently meets business, passenger, freight and recreational air transportation needs. The bureau's team of aviation specialists provide airport sponsors professional guidance to manage and utilize their airports to the safest and fullest potential for the communities they support. Our network of airports, which includes eight commercial service airports, enhances the economic vitality of Wisconsin communities. The BOA facilitates an annual average of \$70 million in funding for 80+ airport projects. We are committed to developing and maintaining the current and future distribution of federal airport improvement grants for eligible airports in the state airport system.

DIRECTOR'S MESSAGE The Wisconsin Department of Transportation, Bureau of Aeronautics'

aviation community to solve tomorrow's air transportation challenges. Our commitment is to provide guidance and assistance to airport owners with airport improvements and safety enhancements and provide quality service to Wisconsin's citizens who use the multitude of diverse aviation services throughout the state. Airport development and safety projects vary widely. As an example, our initiatives directly support important programs such as the Automated Weather Observation System, the Pavement Condition Evaluation Program, and the Airport Pavement Marking Program. Our team also assists airport owners on environmental matters, land use planning, runway safety issues and federal grant assurances, as examples. We take pride in working with the airport owners to ensure they have all the tools needed to plan, develop, and maintain their airport facility. Aviation education and outreach is a statewide effort that is actively sponsored by the bureau. It includes pilot and aircraft maintenance safety courses, youth aviation education, unmanned aircraft systems (UAS) education, as well as airport security and more. The bureau continues to conduct various outreach events such as the Engineers Workshop, Airport Operations and Land Use Seminar, and Local Pilot Education Programs, to name a few. We also co-sponsor monthly Pro-Tips Safety Webinars and participate in Federal Aviation Administration (FAA) Safety Team aeronautical safety seminars through partnership with

the FAA Flight Standards District Offices in Milwaukee and Minneapolis. The Fly Wisconsin Airport Passport program promotes safety and education and encourages recreational flights to Wisconsin's general aviation and commercial service public use airports. Pilots utilizing the program also support area businesses and tourism. The program is a collaboration between the Bureau of Aeronautics and the Wisconsin Airport Management Association. With your support, we will continue to foster a strong

safety culture within our aviation community. David M. Greene, Director Bureau of Aeronautics

mission is to provide leadership and support for a safe and efficient air transportation system. Our vision is to work with the Wisconsin
