

Traffic Engineering, Operations & Safety Manual

Chapter 1 General

Section 10 Documents

1-10-5 MUTCD and Wisconsin Supplement Approval Dates

June 2011

Wisconsin State Statutes 84.02(4)(e) require that standards for traffic control devices be prescribed by the Wisconsin Department of Transportation. The Department, in fulfilling this requirement, has for many years adopted the latest edition of the Federal Highway Administration's publication "Manual on Uniform Traffic Control Devices", and has added a Supplement to make the standards applicable to Wisconsin.

The December 2009 edition of the MUTCD and the Wisconsin supplement was made effective May 25, 2011 by the Director of the Bureau of Traffic Operations on behalf of the Department.

The latest edition of the MUTCD can be found on the website mutcd.fhwa.dot.gov and can also be obtained in hard copy from several sources noted. The Wisconsin Supplement is available on the [DOT website](#) and a limited amount of hard copies will be provided free of charge to individuals without Internet access. Periodic revisions will be made to the Supplement as changes are made in the MUTCD. For this reason, you are encouraged to obtain the Supplement from the DOT website.

1-10-25 Federal Aid Policy Guide

June 2005

Refer to the Federal-Aid Policy Guide located at <http://www.fhwa.dot.gov/legsregs/directives/cfr23toc.htm> 23CFR 25 "Design Standards for Highways" for material related to traffic operations matters. Topics include design speed, design exceptions; vertical clearance, and accessibility standards. Also, Section 23 CFR 655 "Traffic Operations" for FHWA policy on uniformity of traffic control devices (including requirements for MUTCD).
