Facsimile (FAX): (608) 266-8459

**Proposal #10: 1090-23-60  
ROCK FREEWAY, STH 164 INTERCHANGE  
WOODLAND LANE TO CTH ES  
STH 164  
Waukesha County**

**Letting of December 13, 2016**

This is Addendum No. 02, which provides for the following:

**Special Provisions**

Revised Special Provisions	
Article No.	Description
3	Prosecution and Progress

**Special Provisions**

**3. Prosecution and Progress.**

*Replace entire section titled **Base Patching** with the following:*

**Base Patching**

STH 164 lanes and shoulders shall be base patched prior to milling and HMA resurfacing operations. The plans identify base patching locations to be verified by the engineer in the field. There are two existing types of STH 164 pavements. From Station 290+30 southward existing pavements are predominantly reinforced concrete pavements requiring base patching concrete SHES. From 290+30 northward existing pavements are predominantly an asphaltic pavement section requiring base patching HMA.

The responsibility for notifying potential subcontractors and suppliers of these changes remains with the prime contractor.

Sincerely,

*Mike Coleman*
