ADDENDUM NO. 01

1520-07-82

May 15, 2017

Special Provisions

6. Utilities.

Replace entire article language with the following:

This contract comes under the provision of Administrative Rule Trans 220. 107-065 (20080501)

There are underground and overhead utility facilities located within the project limits. Coordinate construction activities with a call to Diggers Hotline or a direct call to the utilities that have facilities in the area as required per statutes. Use caution to ensure the integrity of underground facilities and maintain code clearances from overhead facilities at all times.

TDS Telecom - Communication Line has buried fiber optic lines throughout the project corridor.

A fiber optic line at STA 78+00 LT is located where guardrail replacement is proposed. Due to the nature of the guardrail work, utility conflicts were not resolved with the proposed posts at STA 78+00 LT during design. Resolve a conflict by adjusting the location of the guardrail installation to maintain more than 18-inches from the buried facility and nearest post, subject to the engineer's approval prior to installation of the guardrail at this location. Contact Steve Jakubiec at (920) 882-4166, 7 calendar days before installing guardrail at this location.

The following utility companies have services on or near the project site, but utility conflicts are not anticipated:

- City of Neillsville Water Utility – Water
- Clark Electric Cooperative - Electricity
- We Energies - Gas/Petroleum
- Windstream KDL - Communication Line
- Xcel Energy - Electricity

END OF ADDENDUM
