### Letting of February 10, 2026

This is Addendum No. 01, which provides for the following:

#### Special Provisions:

Added Special Provisions	
Article No.	Description
31	Notice to Contractor – Diamond Grinding Concrete Slurry Disposal

The responsibility for notifying potential subcontractors and suppliers of these changes remains with the prime contractor.

Sincerely,

*Mike Coleman*

Proposal Development Specialist  
Proposal Management Section

**ADDENDUM NO. 01**

**2390-08-70**

**February 5, 2026**

**Special Provisions**

**31.**

**Notice to Contractor – Diamond Grinding Concrete Slurry Disposal.**

The department clarifies in this notice to contractor that payment for diamond grinding is full compensation for diamond grinding and disposing of all waste materials. Disposal of residue and water at an **acceptable material disposal site** (as outlined in WisDOT Standard Specification 420.3.4) located off the project limits and as shown in the ECIP.

The contractor should be aware that for concrete slurry disposal, an “**acceptable material disposal site**” may require a specific Wisconsin Pollutant Discharge Elimination System (WPDES) Wastewater Permit and a compliant Storm Water Pollution Prevention Plan (SWPPP) that covers the acceptance of concrete slurry.

Additional information and contacts related to permit requirements for acceptable disposal sites can be found on the WDNR website below.
