ADDENDUM NO. 01

1023-00-81

August 28, 2026

Special Provisions

7. Utilities.

Replace entire article language with the following:

This contract comes under the provision of Administrative Rule Trans 220.

The utility work plan includes additional detailed information regarding the location of known discontinued, relocated, or removed utility facilities. These can be requested from the department during the bid preparation process, or from the project engineer after the contract has been awarded and executed.

Some of the utility work described below is dependent on prior work being performed by the contractor at a specific site. In such situations, provide the engineer and the affected utility a good faith notice of when the utility is to start work at the site. Provide this notice 14 to 16 calendar days in advance of when the prior work will be completed and the site will be available to the utility. Follow-up with a confirmation notice to the engineer and the utility not less than 3 working days before the site will be ready for the utility to begin its work.

stp-107-065 (20240703)

Any utility facility locations (stations, offsets, elevations, depths) listed in this article are approximate.

AT&T Legacy (Communication Line) has underground facilities within the project limits. No conflicts are anticipated.

Brightspeed (Communication Line) has underground and overhead facilities within the project limits. No conflicts are anticipated.

Jackson Electric Cooperative (Electricity) has overhead facilities within the project limits. Contact Jackson Electric Cooperative prior to the start of construction to coordinate the shut off of underground facilities. No conflicts are anticipated.

Xcel Energy (Electricity-Transmission) has overhead facilities within the project limits. No conflicts are anticipated.
